

## Scrofula

Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole period of childhood. It may then produce dyspepsia, catarrh, and marked tendency to consumption, before causing eruptions, sores or swellings.

To get entirely rid of it take the great blood-purifier,

### Hood's Sarsaparilla

In usual liquid form or in chocolate tablets known as Sarsatabs. 100 doses \$1.

#### Clocks.

The invention of clocks is by no means a modern one. Clocks which were run by weights were used by the Saracens at the time of the Crusades, and some authorities state that they were invented by Pacificus as early as the ninth century.

In the works of Dante are references to machines which struck the hours, and clocks must have been used in Italy about the end of the thirteenth century. The oldest clock of which there is any certain record was erected in a tower in the palace of Charles V. of France in 1364.

## OUR BIG TRADE IN MOTOR CARS.

The Country's Traffic for the Year Approximated \$30,000,000.

More than \$4,000,000 worth of automobiles were brought into the United States during the fiscal year ending with the last week of June, and more than \$3,000,000 worth were exported during the same time. Figures of our foreign commerce in automobiles show the value of automobiles imported in the eleven months ending with May to have been \$3,502,244, and of parts thereof, \$378,389, while exports thereof during the same months amounted to \$2,957,748. It is apparent, therefore, that the figures for the full fiscal year which ended with June will show more than \$4,000,000 worth of automobiles and parts thereof imported, and more than \$3,000,000 worth exported.

Meanwhile the manufacture of automobiles in the United States has amounted to presumably more than \$26,000,000, since the bureau of the census has recently issued a preliminary statement which shows the value of automobiles manufactured in the United States in 1905 at \$26,654,004. This figure includes amounts received from custom work and repairing and value of products other than automobiles; but as it does not include automobiles, valued at \$879,205, manufactured in establishments engaged primarily in the manufacture of other products, it may probably be safely set down that the value of automobiles produced in the United States approximates \$28,000,000 and the imports \$4,000,000, and that out of this total of \$30,000,000 there was exported about \$3,000,000 worth.—Harper's Weekly.

**Sucking the Thumb.**—As a preventive put a piece of adhesive plaster, such as surgeons use, a little less than one-half inch wide, above the first joint, or between the two joints of the child's thumb. Paste the end securely, but be careful not to interfere with circulation.

**Origin of Spotted Fever.**—Recent experiments prove that the deadly spotted fever of the Rocky mountains is caused by the infection of ticks acting much like that which sets up splenic fever in the bovine race. This confirms a widespread belief which has hitherto been controverted by physicians.

**The Danger in Headache Powders.**—Acetanilid poison is found in practically all of the patent headache powders and they should either be avoided or taken with great caution. This poison is a dangerous drug, and if the stomach is weakened to a certain extent the quantity in a headache powder may be sufficient to kill. In fact a boy died recently in Mesa County from this poison.

**Rheumatism.**—One of the latest remedies is that of a gardener who recommends the familiar plant so well known as chickweed. The method of using it consists of filling a wide-mouthed bottle three-fourths full with a plant and then pouring in spirits of wine sufficient to cover the whole. The preparation is then allowed to stand for from four days to a week, at the end of which time the tincture is to be rubbed into the affected parts in the usual way.

**Whooping Cough.**—Procure a mixture of peroxide of hydrogen two drams, sirup of tolu 1½ ounces and water one-half ounce. Give from ten drops to one teaspoonful according to age every hour for two or three doses, then every two hours for six or eight, getting farther between doses as the patient improves. This is a newer and better formula than that of any of the old-fashioned cough sirups, the most of which depend upon morphine or opium as a palliative.

#### Modest Chief.

When Lord Selborne, high commissioner of South Africa, appointed a new paramount chief of the Basuto tribe the other day, and admonished him to walk in the ways of his fathers, the new chief replied: "I am strong, yet I am frightened of the blanket that has descended upon me, and I do not know how I shall carry it."

#### Southern Farm Values.

It is computed that farm properties in the eleven states that once seceded from the Union have risen in value more than \$1,000,000,000 in two years. The average yield of these lands since this century began is \$200,000,000 a year greater than it was in the preceding six years.

After a family has kept a cow in town a few years, it begins to look around for a parrot.

**900 DROPS**

It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## GENUINE CASTORIA ALWAYS

Bears the Signature of

*Chas. H. Fletcher.*

**The Kind You Have Always Bought**

In Use For Over 30 Years

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

#### Hope Deferred.

Dinguss—Shadbolt, I've borrowed a good many little sums from you, at one time and another. Do you know just how much I owe you?

Shadbolt (with alacrity)—Yes; it's exactly \$95.

Dinguss—Then let me have \$5, will you? That will make it an even hundred, and it will be easier for me to remember.

#### Wifely Forethought.

Wife—It's all right if you have failed. I have \$600 saved up from money that you've given me from time to time.

Husband—That will be a big help.

"Help? I guess it will. Why, that will just buy my winter outfit."—Boston Globe.

#### Not Like Father.

While the Kaiser cultivates a moustache with the well-known upward twirl, his son, the crown prince, clips his straight across, toothbrush fashion. He seems to be developing an individuality of his own in other respects as well, and bids fair to become the antithesis of his father.

# Mica Axle Grease

## Makes the Load Lighter

An ounce of grease is sometimes the only difference between profit and loss on a day's teaming. You know you can't afford a dry axle—do you know as well that Mica Axle Grease is the only lubricant you can afford? Mica Axle Grease is the most economical lubricant, because it alone possesses high lubricating property, great adhesive power, and long-wearing quality. Hence, the longest profitable use of your outfit is to be had, only when the lubricant is Mica Axle Grease.

Mica Axle Grease contains powdered mica. This forms a smooth, hard surface on the axle, and reduces friction, while a specially prepared mineral grease forms an effective cushioning body between axle and box. Mica Axle Grease wears best and longest—

one greasing does for a week's teaming. Mica Axle Grease saves horse power—consequently saves feed. Mica Axle Grease is the best lubricant in the world—use it and draw a double load. If your dealer does not keep Mica Axle Grease we will tell you one who does.

Standard Oil Co.
