Wedderly—Miss Oldham is certainly a self-possessed woman, isn't she?
Singleton—Yes; and I'm glad of it.
Wedderly—Glad of it!
Singleton—Yes; at least I'm glad that she isn't one of my possessions.

Thousands of women suffer daily backache, headache, dizzy spells, languor, nervousness and a dozen other symptoms of kidney trouble, but lay it to other causes.

Make no mistake. Keep the kidneys well, and these aches and troubles will disappear.

Mrs. Anthony Cadrette, 77 Mechanic St., Leominster, Mass., says:

"My eight failed, I had sharp pain in my back and bearing-down pains through the hips. I was nervous, fretful and miserable. The urine was greatly disordered and I began to have the swellings of dropsy. I was running down fast when I started using Doan's Kidney Pills. A wonderful change came and after using them faithfully for a short time I was well."

A Good Record.

Out of all the external remedies on the market we doubt if there is one that has the record of that world-renowned porous plaster—Allcock's. It has now been in use for sixty years, and still continues to be as popular as ever in doing its great work of relieving our pains and aches. It is the remedy we all need when suffering from any form of ache or pain resulting from taking cold or over-strain.

Allcock's Plasters acesol y Druggists in every part of the civilized world.

Pickled Green Peppers.

Cut the tops from the peppers and extract the seeds and white membrane with a very sharp knife. Fill the peppers with salt and put into crock of cold water for two days, then drain, leave in fresh water for a day and fill with a stuffing made of two table-spoonfuls each of horseradish and chopped cabbage, a half-teaspoonful each of powdered mace and nutmeg, a quarter teaspoonful of ginger, a teaspoonful of minced onion, a teaspoonful each of celery seed, pepper corns and mustard, a tablespoonful of salad oil and a tablespoonful of sugar. Tie the tops of the peppers with soft twine, pack in a crock and fill the crock with boiling vinegar. Leave for a week, drain off the vinegar, boil it again and pour again over the peppers. Put away for two months before using.

Rhubarb betty.

Stir one-quarter of a cup of melted butter into two cups of solidly packed bread crumbs. Cut one pound of rhubarb into inch pieces. Butter a baking dish, put in a layer of bread crumbs, then one of rhubarb, a dozen seeded raisins over the top, two or three gratings of the yellow peel of a lemon and a few drops of the juice. Sprinkle sugar liberally. Continue making layers of bread, rhubarb and seasoning until all is used, then put a cover over the dish and bake about three-quarters of an hour in a moderate oven. Take cover off for the last fifteen minutes. Use about one cup of sugar and a teaspoonful of lemon juice in all.

Sweet Omelette.

Beat eight eggs, white and yolks separately. Stir lightly together, adding, as you do so, a tablespoonful of powdered sugar. Heat a tablespoonful of butter in a frying pan, pour in the eggs and shake the pan gently to prevent burning until the omelette is "set." Draw to the side of the range, cover quickly with any jelly you choose and roll up as you would a sheet of music. Transfer to a hot dish, sift powdered sugar over the omelette and serve immediately.

Indian Meal Pudding.

Heat a quart of milk to scalding and pour it upon three cups of Indian meal, stir in three tablespoonfuls of powdered suet and a teaspoonful of salt, beat hard and set aside to cool. When cold whip in three beaten eggs, four tablespoonfuls of molasses and a teaspoonful of ground cinnamon. Pour into a well-buttered mold and steam for five hours. Turn out and serve with a hard sauce.

Turnip Soup.

Boil turnips tender and rub through a colander. To one cup of this vegetable pulp add a quart of heated milk into which a pinch of soda has been stirred, a teaspoonful of salt and pepper to taste, a tablespoonful of onion juice and thicken with a tablespoonful of butter rubbed into one of flour. Boll up, stirring steadily, and serve very hot.

Bottled Apples.

Place a layer, or two, if necessary, of rather tart apples in a saucepan, cover with cold water, let come quickly to the boiling point, then cook slowly till tender. Remove the dish, sprinkle thickly with sugar, and pour over them the liquid remaining in the saucepan. It is especially convenient to prepare apples in this way when a very hot fire is not required, or when the oven is otherwise occupied.

Dill Pickles.

Make a brine so strong that an egg will float on the surface. Wash cucumbers and pack in a crock first a layer of these, then one of grape leaves, then one of dill. Proceed in this way until the crock is full, pour the brine over all and cover, first with a cloth and then with a weighted plate. Remove the cloth and wash it each fortnight, then replace.

Apple Puffs.

Beat four eggs very light and add three teaspoonfuls of pulverized sugar, a saltspoonful of soda and two of cream of tartar, one cupful of milk, one and one-half cupfuls of flour and one-half cupful of finely chopped apple. Beat the mixture for several minutes, and bake in gem pans previously buttered and heated.

Baked Onions.

Bake onions with their skins on until dark in color and almost burned. Then slip the onions out of these brown jackets into a vegetable dish, pour over them melted butter and sprinkle with salt. Send at once to the table.

Beet Relish.

One quart of cooked chopped beets, one quart of raw chopped cabbage, one-half teaspoonful of horseradish, two teaspoonfuls of sugar, one tablespoonful of salt; vinegar to moisten thoroughly.

SKIN DISEASES

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and burning and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne, Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

ECZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In **TETTER** the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. **ACNE** makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while **PSORIASIS**, a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is **SALT RHEUM**. It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases.

S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either.
