Fame.

"There's three ways," observed the philosopher on the cracker barrel, "for a man to hand his name down to posterity. He's got to be a great warrior, or a great statesman, or a great rascal; and, by jinks, once in a while there's a man that's all three."

Not Much to Say.

"Yes, sir," said Bragg, "I've decided to have a long talk with the boss and tell him just what I think."

"Is it possible?" remarked Nagg.

"Why? Don't you believe I've got the nerve to tell him what I think?"

"Oh, yes; but if you tell him just what you think how are you going to have a long talk?"—Philadelphia Press.

RHEUMATISM CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the Bowels and Kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead

S.S.S. PURELY VEGETABLE

of a weak, sour stream, constantly depositing acid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Hall's Family Pills are the best.

Feminine Way.

Biffkins—Funny thing about women, isn't it?

Miffkins—Don't know. What's funny about 'em?

Biffkins—Why, during the courtship a woman will fight her relations for the sake of the man she loves, but after marriage she will work her husband for the sake of her relations.

Candied Pineapple.

Put two cupfuls of white sugar and one-third as much water on the fire in a saucepan. Boil to the "thread," that is, until the candy will form threads when dropped from the spoon. Put the candy in a warm place where it will not boil, and then drop in two or three pieces of the fruit. Carefully lift out with a fork, and put it on a greased plate. Be careful not to stir the candy, as that would make it go to sugar. Put in more fruit, and lift out carefully in the same way, and if the candy should begin to sugar add water and boil until it reaches the same point again. Continue the dipping until all the pieces of fruit are covered with a perfectly transparent and dry coat of candy. Nothing could be prettier than a small cut-glass dish heaped up with these fruits.

For Ten Mince Pies.

To two cups of finely chopped meat add five cups of chopped apple, one cup of molasses, three cups of brown sugar, one cup of boiled cider, two teaspoons of cinnamon, one teaspoon each of cloves, allspice and mace and the grated yellow rind and juice of one lemon. Add one cup of the meat broth, which should be reduced by boiling after the meat is taken out; one cup of vinegar, one cup of water, three level tablespoons of salt, two cups of seeded and chopped raisins, one cup of chopped citron, one-half cup of chopped candied orange peel, two cups of currants, one-half cup of chopped suet. Mix well and simmer two hours.

Pastry Without Lard.

Buy from the butcher four pounds of fat off the flank of the beef—costing 5 cents a pound—cut it into small pieces and render in a hot oven or over the fire. This will yield about three pounds of white, delicious fat. Set this aside to cool. To a quart of flour add a teaspoonful of salt, two teaspoonfuls of baking powder, warming the flour, and work into it a half pound of the fat. If it grows too stiff, soften it by warming it, but do not melt the fat. Add enough lukewarm water to make of the right consistency to roll out, and roll in the usual way and make into pies. This will make about three pies.

Flummery.

Two ounces of almond paste, rubbed smooth with a little rosewater. One cup of milk, heated to boiling; one ounce of gelatin, soaked for two hours in a teacupful of cold water; one-half cup of sugar, one pint of cream. When the milk reaches the boiling point stir into it the soaked gelatin, the sugar and the almond paste. Stir over the fire until the ingredients are well dissolved, then strain through thin muslin. Set aside until cold, then add gradually the cream, a spoonful at a time. Beat long and hard. When thick and stiff turn into a wet mold and set in the ice to form.

Corned-Beef Hash.

When fat corned beef and boiled potatoes are left over, try hash for breakfast. Put two pints of beef, one pint of potatoes and one large onion in the chopping tray and mince fine. Turn all into a saucepan, add two tablespoonfuls of butter, salt and pepper to taste; add boiling water to soften and set on a slow fire. Stir often. Stew well and serve hot.

Sandwiches.

When preparing sandwiches for a large company, it is sometimes necessary to make them several hours in advance of the serving. If a napkin is wrung out of hot water and wrapped around the sandwiches, which should then be put in a cool place, they will keep as fresh and moist as though just spread.

Cranberry Sauce.

To a pint of cranberries add a half-teaspoonful of baking soda and enough water to cover them. Bring to a boil, then pour off the water, add sugar to taste and cook as long as you wish, or until the berries are as soft as desired. If one wishes a thinner sauce more water may be added while cooking.

Double Toast.

Cut slices of bread about a quarter of an inch thick. Butter and press two slices together. Then cut the slices into inch-wide strips. Toast over a very hot fire, so the bread will brown before butter melts and saturates the bread. Slices cut into disks also make a pretty dish.

Filling for Orange Cake.

Beat the whites of two eggs stiff with a generous cup of powdered sugar, add the juice and grated rind of a large orange. Whip until very soft and smooth, adding more sugar if too thin, and spread on the cake layers and on top of the cake.

A Distinction.

"A cook in one respect is different from all human beings."

"Why so?"

"Because she never wants any other human help in her hour of knead."—Baltimore American.
