The 7-cent social given at Woodmen Hall last night by the Women's Relief Corps for the benefit of the cemetery sidewalk fund was not very well patronized, considering its object. However, the Corps fully appreciates the assistance rendered by those present.

The steamer Francis H. Leggett crossed out from the Yaquina docks at 8 o'clock yesterday morning for San Pedro, Calif., with 920,000 feet of lumber. Captain Tracy Davis took the vessel over the bar and was brought back by the life-saving crew. The Leggett went out without a hitch, the lowest depth of water encountered being 19 feet, and that only in one spot. The boat drew a little less than 16 feet, the tide being a little more than two-thirds full. Pretty good showing for a harbor and bar that is not on the list of Government piers.

And Toledo Won.

The Toledo and Siletz baseball teams came together Sunday on the local grounds and when the curtain fell on the final scene the score-keeper announced "Toledo, 9; Siletz, 7." It was a good game, with the result always in doubt. Both batteries worked nicely from start to finish. Fred Lilly started in to receive Jorgenson for Toledo, but was put out of the game in the first inning by a broken finger, the result of reaching for a wide one with his mittless paw. George McBride took his place behind the bat and gave a very creditable exhibition. Pitcher Jorgenson had a shade the better of his argument with Blacketer, but the hitting on both sides was lighter than the score indicates, the condition of the diamond being responsible for several bobbles. Mike, Ed Avery's pointer, lent valuable assistance during the game by retrieving the ball whenever it was fouled into a nearby pond. The game was pleasingly free from kicking and rowdiness. Billy Simpson of Elk City gave unanimous satisfaction as umpire. Following is the line-up and score by innings:

TOLEDO		SILETZ	
McBride.....	Catcher	Blacketer.....	Pitcher
Jorgenson.....	Pitcher	Collins.....	Shortstop
Burgess.....	1st base	Strong.....	2d base

Waldport Items.

Mr. Hammel has returned to Waldport from a business trip to Portland.
Mr. Keady expects to move his family to Waldport soon.

The boat Eva has been expected in for some time with a lot of freight for the Waldport Lumber Company. The new company has about forty men in the mill and woods. J. Kent has taken the contract of logging. His ox team came in from the Alsea Valley Sunday.

Waldport does not seem like the same place any more, for everyone is busy at something—improvements of all kinds going ahead. Now if the Government would put out a couple of buoys on the bar and do some dredging inside, we would have no trouble in boats coming in and taking out the lumber, for our bar is a good natural bar. The captain of the Eva reports 14 feet of water on the bar at half tide. He says the channel is not very wide, but wide enough for an ordinary boat to come in. I think with the aid of Uncle Sam we can have a good harbor. The buoy at the mouth of the bay is not near the channel. We are in need of a mooring buoy and one buoy inside.

The Yachats people are bound to have good telephone communication with Waldport, having two lines in central. Their line will surely give Martin Lyons was up from Yachats a few days ago. Rety Ludemann was also a visitor from there.

The Elmore cannery has been greatly improved. A fine large packing room has been built and now they intend adding an ice plant. We will have ice cream this summer. Fishing will soon commence.

Mr. Lebow returned home to take his place in the store. He looks as pleasant as ever.

Fielding Goin has returned home with a better half.

C. L. Diven has come home for the summer with his family. He says Waldport beats Portland for health.

The opening ball at the new hall was a success. There was a large crowd and all enjoyed themselves. It is surely an improvement over the old hall, for there is much more room, but it is none too large.

The entertainment given last Friday night at Woodmen Hall by the Camp and Circle was enjoyed by a large number of members and invited guests. That dog Bingo was resurrected and trotted out for the closing act.

The hose team of the Fire Department had a brief drill Wednesday evening and got there in fine style. The run down Hill street was a hair-raiser. The small boys should be compelled to keep out of the way during these runs. Some day there'll be a funeral.

An Abuse of Liberty.

Emma Goldman, anarchist, is zealously engaged in the vocation of sowing the seeds of dissension and disorder broadcast, or as far as her power can reach, throughout the land. Born in Germany, she drifted to this country nearly a quarter of a century ago. Without an endowment by nature that would lead her to appreciate the blessings of individual liberty, she has steadily, for many years, abused its privileges and goes up and down the land proclaiming anarchistic doctrines unchallenged. Blowing with the fiery breath the coal between capital and labor, and indorsing principles that lead to disorder, with its consequences of violence and murder, this woman exemplifies, every time she makes a speech upon a public platform, the generous tolerance of the Government she coarsely reviles and impudently defies.

The weak places in a Republican form of government is disclosed by the freedom that is allowed to anarchists whose boldly proclaimed mission it is to encourage men and women to defy the law under which they live and the protection of which they claim. Boasting what she calls the "philosophy of anarchism," this woman goes up and down the country sowing broadcast with her breath and by means of anarchistic pamphlets the doctrine of violence as a panacea for the ills of poverty, the equalization of property ownership and the necessity for labor. These utterances, falling upon the ears of the unthinking, arouse untutored minds to pernicious activity: falling upon the ears of the vicious, they tempt to crime; upon the ears of labor, already attuned to the whimpers of self-pity, they take the form of a just protest against conditions that compel men to work for a living. To the extent that they find a receptive soil, they germinate as evil seed, take root and bear fruitage of their kind.

Perhaps there is no way under our institutions to prevent the broadcast sowing of this evil seed, though the crop that springs from it is plainly a menace to society and a wanton abuse of freedom of speech which is guaranteed to its citizens by a magnanimous Government.—Oregonian.

Live Stock Interests.

(Special correspondence)
Portland, Or., June 3, 1907.

Tremendous interest is being developed in the convention of the Oregon Development League June 21 and 22, and large delegations are assured from all sections of the state as a result of the low rates of transportation. An advance meeting of the presidents and secretaries of the different organizations composing the League will be held in the convention room of the Portland Commercial Club (second floor, Sixth and Alder streets) Thursday night, June 20, at 8 o'clock. The hope of the League officers relative to this meeting is that the active men of Oregon may be able to unite upon plans that will greatly add to the population of the state, and agree upon some scheme which will secure the co-operation of the entire population of the state in getting the full advantage of the colonist rates which begin September 1 and continue until October 31.

The Portland Rose Show and Fiesta is to be a great attraction and it will certainly be of much benefit to visitors from all parts of the state of Oregon, as any movement that brings us nearer to nature's beautiful things does us good.

The success of the Live Stock Association is assured. Thursday morning at 10 o'clock there will be a meeting in the parlors of the Portland Commercial Club to solicit subscriptions for stock, and Portland owes the perfecting of the organization to the state at large, for everyone realizes that the greatest success of the Lewis and Clark Exposition was the live stock show; that the greatest advertisement Oregon received at the St. Louis Exposition was the fact that "Loretta D." proved to the world by drawing first prize that Oregon was the world's best dairy country, and now with the location of both Armour and Swift, Oregon and the Pacific Northwest should go forward in the development of live stock and supply the Orient and Alaska, the best markets in the world.

The tourist rates, at a little more than one fare for the round trip and good for Oregon from all parts of the United States went on sale Saturday in all ticket offices throughout the country.
