Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole period of childhood. It may then produce dyspepsia, catarrh, and marked tendency to consumption, before causing eruptions, sores or swellings.

To get entirely rid of it take the great blood-purifier,

A Prediction.

"There'll be bread riots in this country yet," growled the cross boarder. "Do you think bread will ever be so scarce as to cause that?" queried the landlady.

"I referred to the quality," returned the boarder, permitting a slab to fall with ominous thud on the table.—Philadelphia Ledger.

Help the Horse

No article is more useful about the stable than Mica Axle Grease. Put a little on the spindles before you "hook up"—it will help the horse, and bring the load home quicker.

MICA AXLE GREASE

wears well—better than any other grease. Coats the axle with a hard, smooth surface of powdered mica which reduces friction. Ask the dealer for Mica Axle Grease.

Broom Dampener.

Instead of sprinkling the floor before sweeping (to prevent dust arising), a Wisconsin man has devised an attachment for brooms by which the floor can be automatically dampened while the broom is being used. This attachment consists of a reservoir which fits over the head of the broom. Depending from the reservoir are discharge nozzles which are inclined and embedded in the fibres of the broom. The contents of the reservoir is discharged slowly, so that the broom does not become wet, but is only dampened; when not being used, the broom is placed with handle down, so that the contents of the reservoir will not discharge.

BROOM DAMPENERS.

When putting up pineapples save all the parings, with any bits of fruit or sirup left over. Place in crocks and cover with water, adding sugar or sirup to make a pleasant acid. Cover, set in the sun and allow the mixture to ferment. Watch and skim as needed. When the fermentation has been accomplished, strain from the fruit and bottle. This vinegar is delightful in color and flavor.

Pineapple Vinegar.

Boil the head, ears and tongue of the pig in salted water until very tender, strip the meat from the bones and chop fine. Season with salt, pepper, sage, sweet marjoram, a dash of cloves and a half-cup of strong vinegar. Mix well and pack in molds. Press down and put a weight on top of the meat. Do not use under two days. Serve cold and slice thin.

Head Cheese.

One cupful of butter, two cupfuls sugar, four eggs, juice of half lemon, grated peel of one lemon, one teaspoonful of cream tartar, one-half teaspoonful of soda, five cupfuls of flour. Save the white of one egg, beat to a stiff froth and spread upon the top of the cookies and then sprinkle with sugar. Teaspoonfuls in this rule are even full and not heaped.

Very Nice Cookies.

Cream one-fourth cupful of butter, add gradually nearly three-fourths of a cupful of cold boiled ham, chopped fine, also a well beaten egg; then alternately one cupful of graham flour and one cupful of white flour, sifted, with three teaspoonfuls of baking powder and a cupful of milk. Bake in a hot, well-buttered muffin pan about twenty-five minutes.

Ham Muffins.

One-half cupful sugar, two-thirds cupful shortening mixed together. Add one-half cupful molasses, one teaspoonful each cinnamon, nutmeg, ginger and salt, one-half cupful sour milk with one teaspoonful soda dissolved in it. Flour to make the consistency of cookies. Roll about one-half inch thick. Bake in quick oven.

Maine Crumpets.

Cut the outside skins from pieces of mutton or lamb, wash well, and cover with water, adding two or three bay leaves, a pinch of thyme and pepper to taste. Simmer until the meat is nearly done, then season with salt, and, if it is liked, add rice. Boil until the rice is tender, then serve.

Boiled Lamb and Mutton.

Wash and stem ripe currants and mix with an equal quantity of red raspberries. Weigh them and take a pound and a half of sugar to three pounds of fruit; crush and cook for fifteen minutes while the sugar heats in the oven. Cook half an hour more with sugar.

Current and Raspberry Jam.

How to Bake Peaches. Peaches may be baked like apples with excellent results. Peel the fruit, put into a baking dish with sugar, bits of butter and a cupful of water. Bake until the peaches are tender. A few chopped nuts sprinkled over the top of the fruit is an improvement. They should be served cold.

Canned Beets.

Cook and peel as for immediate use, slice and pack into glass jars. Boil good vinegar and add to a quart of it a tablespoonful of sugar and salt and pepper to taste. While boiling, fill the beet jars to overflowing, and seal immediately. Keep in a dark place.

Asbestos in the Kitchen.

Keep a supply of asbestos paper in your kitchen. If the oven is too hot and the cake likely to burn at the top, put a sheet of the paper on the grate over the tin. If there is danger of burning at the bottom, put a sheet under the tin.

CONTAGIOUS BLOOD POISON

NO LIMIT TO ITS POWERS FOR EVIL

Contagious Blood Poison has brought more suffering, misery and humiliation into the world than all other diseases combined; there is hardly any limit to its powers for evil. It is the blackest and vilest of all disorders, wrecking the lives of those unfortunate enough to contract it and often being transmitted to innocent offspring, a blighting legacy of suffering and shame. So highly contagious is the trouble that innocent persons may contract it by using the same table ware, toilet articles or clothing of one in whose blood the treacherous virus has taken root. Not only is it a powerful poison but a very deceptive one. Only those who have learned by bitter experience know by the little sore or ulcer, which usually makes its appearance first, of the suffering which is to follow. It comes in the form of ulcerated mouth and throat, unsightly copper colored spots, swollen glands in the groin, falling hair, offensive sores and ulcers on the body, and in severe cases the finger nails drop off, the bones become diseased, the nervous system is shattered and the sufferer becomes an object of pity to his fellow man. Especially is the treacherous nature of Contagious Blood Poison, shown when the infected person endeavors to combat the poison with mercury and potash. These minerals will drive away all outward symptoms of the troubles for a while, and the victim is deceived into the belief that he is cured. When, however, the treatment is left off he finds that the poison has only been driven deeper into the blood and the disease reappears, and usually in worse form because these strong minerals have not only failed to remove the virus from the blood but have weakened the entire system because of their destructive action. S. S. S. is the only real and certain cure for Contagious Blood Poison. It is made of a combination of healing blood-purifying roots, herbs and barks, the best in Nature's great laboratory of forest and field. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral in any form. S. S. S. goes down to the very bottom of the trouble and by cleansing the blood of every particle of the virus and adding rich, healthful qualities to this vital fluid, forever cures this powerful disorder. So thoroughly does S. S. S. cleanse the circulation that no signs of the disease are ever seen again, and offspring is protected.
