New Postal Law.

The United States Postal Department has made new regulations in regard to carrying second-class mail matter (such as newspapers, magazines, periodicals, etc.) the same going into effect January 1, 1908, and allowing the publishers to April 1, 1908, to prepare their subscription lists in accordance with the new order of things.

The department ruling requires that subscriptions to weekly newspapers entitled to the second class postage rate shall not be delinquent longer than one year.

The mails are not forbidden to subscribers who are in arrears longer than the time provided in the new ruling, but these subscribers are placed in a separate classification, requiring a higher rate of postage, the rate being so high that publishers could not afford to send papers at the price of subscription.

The reason given by the government for making this order is that second class mail matter is being carried through the mails at a rate for postage thereon which is less than the cost of carriage.

The LEADER has been very lenient with its delinquent subscribers and we do not want to drop any subscribers from our list, but as Uncle Sam has spoken, we must request the few who are in arrears to settle at once.

In this issue will be found the announcements of Guy F. Laws of Newport and Walter E. Ball of Kernville, both asking for the support of the Republican voters at the April primary nominating election for the office of Assessor. Both of these gentlemen are well qualified for the office and either would make this county a good Assessor.

Senator Burnham of New Hampshire has introduced a bill providing for a rural delivery post for merchandise and other articles actually mailed on rural delivery routes. There are now 38,000 rural delivery routes serving daily to 15,000,000 people.

The positive assurance that Swift & Company and other great packing companies will locate enormous plants at Portland will give an impetus to the livestock industry of all this portion of the United States.
