MIX THIS YOURSELF

GIVES RECIPE FOR SIMPLE HOME-MADE KIDNEY CURE.

Inexpensive Mixture of Harmless Vegetable Ingredients Said to Overcome Kidney and Bladder Trouble Promptly.

Here is a simple home-made mixture as given by an eminent authority on Kidney diseases, who makes the statement in a New York daily newspaper, that it will relieve almost any case of Kidney trouble if taken before the stage of Bright's disease. He states that such symptoms as lame back, pain in the side, frequent desire to urinate, especially at night; painful and discolored urination, are readily overcome. Here is the recipe; try it:

Fluid Extract Dandelion, one-half ounce; Compound Karg n, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

A well-known physician is authority that these ingredients are all harmless and easily mixed at home by shaking well in a bottle. This mixture has a peculiar healing and soothing effect upon the entire Kidney and Urinary structure, and often overcomes the worst forms of Rheumatism in just a little while. This mixture is said to remove all blood disorders and cure the Rheumatism by forcing the Kidneys to filter and strain from the blood and system all uric acid and foul, decomposed waste matter, which cause the afflictions. Try it if you aren't well. Save the prescription.

Department Store Salesgirl (sizing him up)—I think it's quite likely. She bought a steel hatpin.

Succeeded.

"Did she marry her husband to reform him?"

"I guess so, and she reformed him, all right."

"Why, he drinks like a fish!"

"I know it, but he didn't use to before she married him."—Houston Post.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c, per bottle. Take Hall's Family Pills for constipation.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. It is computed that about 14,000 words were sent over the Atlantic on the opening day of the wireless telegraphy from the United Kingdom to Canada.

Certain kinds of noises, says the Madras Times, attract snakes. The whirl of the mowing machine is one, and in six months as many as 120 cobras alone have been killed on a grass farm in India by the advancing machine.

By rubbing metals with salt before applying mercury, the ancients obtained a reaction similar to that for which copper sulphate is used. The chlorine released from the salt formed a silver chloride easily attacked by the mercury, so as to form an amalgam.

According to the Engineering and Mining Journal, chilled steel shot of extreme hardness and adopted to replace diamonds in drilling through many formations is made by spraying or atomizing molten steel into cold water, thereby chilling it instantly.

In August there was inaugurated at the Col d'Olen, close by Monte Rosa, at an elevation of 9,840 feet, one of the most remarkable institutions for scientific research in the world. It owes its existence to the initiative of Prof. Angelo Mosso, of Turin, and is called the Institute of the Col d'Olen. It contains laboratories for research in botany, bacteriology, zoology, physiology, terrestrial physics and meteorology. All these subjects are to be studied from the special point of view of the effect of Alpine conditions.

Monsieur Carbonelle, a Belgian, has invented an apparatus by means of which a picture can be reproduced by telegraph in the form of an engraved plate, from which printed copies may be immediately taken. The picture to be sent is printed with thick, non-conducting ink, and wound round a revolving cylinder, over which passes a stylus electrically connected with the telegraph line. At the receiving end a similar cylinder is encased with lead, or other soft metal, on which presses the point of a graver. The variations of intensity in the current produced by the stylus passing over the picture at the transmitting station causes the graver to cut more or less deeply, and thus to produce a typographic copy of the original, which may be placed without change on the printing press.

The Name of Norway's King.

As to the uncertainty of the spelling of the King of Norway's name, a Norwegian authority writes: "The genuine form of the name is Hakon. Such variations as Hakun, Hakunn, Hakvin, Latin Hagulnus, I leave out of consideration. The name is made up of two elements—ha, the root of har, high; and kon, for konr (like son, for sonr). The older form of konr was kunn, 'he of the kun (kuni), of the family, the noble race.' According to the Elder Edda poem, Rigmual konr was the youngest son of Jarl (Earl), who himself was the son of the god Helmdall ('illuminator mundi'). Konr ungr, the young kon, swung himself, by deeds of arms, into the position of a konungr, king, which, though the old poet knew it not, simply meant the kon-Ing, 'he of the kin'—ungr being a suffix indicative of descent.

"Accordingly, the name Hakon meant originally 'the high one of the kin,' and must have been a title for a prince, a king, before it assumed the exclusive character of a proper personal name. The old Norwegian pronunciation of the 'a' in ha seems to have come close to the sound of the English 'ow' in know; but in the course of time it has broadened into a sound as nearly as possible identical with the English 'aw' in hawk. The 'o' in kon is very nearly equal to the English 'o' in on. The accent falls on the first syllable. In modern Norwegian the spelling of the name is Haakon ('an' equals 'aw')."

Head Hunting in New Guinea.

From Netherlands, New Guinea, comes news of head hunting among the people at Merauke, the chief settlement. The Netherlands authorities are hard put to it to check the practice, owing to the force of the old custom that children must bear the names of those whose heads had been taken off by their fathers. Lately many children have been nameless from head hunting falling off. The result is that the parents have started hunting for heads in the neighboring British territory. The Netherlands authorities have sent out patrols to prevent these raids. Severe punishment to the guilty parties has been threatened.—Straits Times.
