

# Pure Blood

Is certain if you take Hood's Sarsaparilla.

This great medicine cures those eruptions, pimples and boils that appear at all seasons; cures scrofula sores, salt rheum or eczema; adapts itself equally well to, and also cures, dyspepsia and all stomach troubles; cures rheumatism and catarrh; cures nervous troubles, debility and that tired feeling.

**Sarsaparilla**—For those who prefer medicine in tablet form, Hood's Sarsaparilla is now put up in chocolate tablets called Sarsapabs, as well as in the usual liquid form. Sarsapabs have identically the same curative properties as the liquid form, besides accuracy of dose, convenience, economy, no loss by evaporation, breakage, or leakage. Druggists or promptly by mail. C. L. Hood Co., Lowell, Mass.

Mrs. C. K. Tyler, Burlington, Vt., says: "The cares of a large farm, so much to do and so little health to do it with, caused almost a complete breakdown; blood poor and thin; no strength, little sleep. Hood's Sarsaparilla gave appetite, natural sleep, perfect health, strength to do all my work."

## An English View of Robert E. Lee.

General Robert E. Lee was indeed fully Washington's equal as a hero and a gentleman and much his superior as a soldier. It is only in the larger political or semipolitical sphere that he stands lower and there perhaps only because his opportunities were so much smaller.—London Times Review of Trevelyan's History.

## Outside of His Practice.

"All that is the matter with you, sir," said the eminent physician, after a thorough examination, "is lack of nutrition. You don't eat enough." "I eat all I can hold, doctor," said the attenuated caller. "Then you need to have your capacity enlarged, and that's a case for a surgeon. Five dollars, please. Good morning."—Chicago Tribune.

## Graduated from the Bible.

Octave Thanet tells a story of an old dandy in Florida who was anxious to learn to read, so that he could read the Bible. He said that if he could read the Bible he would want nothing else. A friend of the narrator taught him to read. Some time afterward she visited his cabin and asked his wife how his Bible reading was getting on. "Laws, Miss Fanny," said this person, "he jes' suttinly kin read fine. He's done got outen de Bible an' into de newspapers."—Indianapolis News.

## Literary Investment.

You buy a book and hope to reap a profit quite extensive. The style may be a little cheap. But the paper's right expensive. —Washington Star.

## Hirsute Glory.

The young man was admiring her beautiful and abundant hair. "What a wealth of it there is!" he exclaimed. "When you loosen it I suppose it drops to the floor." "Hugh!" broke in the little sister of the young woman. "It drops on the floor!"—Chicago Tribune.

## Deplorable Business Error.

"Did you ever make a mistake, doctor?" "Yes, once I was called in by a patient and diagnosed his case as stomach ache—I only learned the following day that he was rich enough to have appendicitis."—Die Musketeer.

## DENATURED ALCOHOL.

Farmers May Make It Future Fuel of the West.

By Fred W. Lewis, Secretary Washington State Grange, Tumwater, Wash.

Two years ago the Grange, assisted by some other organizations, went to work to try and pass a law that would allow alcohol to be manufactured and used for light and fuel, without having to pay the prohibitive revenue tax, that had been required by the government, so as to free the people of the country from the tyranny of the Standard Oil Co., which has gradually raised the price of fuel oil from a low price to an amount that is paying the monopoly extremely large dividends, thereby levying an unreasonable tax on the consumer of the products of petroleum.

After a long and hard fight in congress in which the Standard Oil Company did their best to prevent the passage of the bill, we conquered and now a farmer, or several of them may erect a still, and make alcohol in any quantities, the same to be denatured, or poisoned, by officers appointed by the government, and may then be used or sold to any one under a permit which may be obtained from the government.

It is now our duty to get the appliances for the use of the product into general use, so that there will be a demand for the alcohol, so that there will be distilleries installed all over the west, so as to use the waste products of our farms to make fuel for our engines, stoves, both heating and cooking, and to give us one of the best lights that you ever saw.

I wish that it were possible for me to show the lamp with its beautiful light, so that you could realize the value of it as a light producing fuel. Wherever I have demonstrated the light, it has met with an enthusiastic reception and it is only a question of letting people see the value of de-natured alcohol, to insure a demand that will fill our land with distilleries, making our own fuel out of the small potatoes, sprouted wheat, small, and imperfect apples, and fruit of other varieties, and in fact, anything that is composed of sugar or starch.

A corn-field, with its stalks filled with sweetness, will make large quantities of alcohol, and a small amount of land will raise enough fuel to keep our homes well heated and lighted for the year.

Another good quality of this alcohol is that it is perfectly clean and healthful. There is no dust, smoke, soot, or gas, developed in the burning of it for either light or heat, and it does not vitiate the air in the room, as it contains oxygen, in itself and does not have to use the oxygen out of the air in the room, so much as any other fuel.

There is no wick-trimming to be done, as the wick is never on fire, and as far as smoke is concerned, the lamp chimneys will never need any washing, so the lamps are much easier to take care of.

You can turn it off until there is a very small light, and so makes a perfect night lamp, as there is no gas, as there is from a kerosene lamp, to make the bed room a hot-bed of disease.

There is another great boon to the housewife in the alcohol flat-iron, which will burn only about a cent's worth of fuel, rather than ten or fifteen cents worth as when you have to use a stove of any sort. You can take this flatiron into any room of the house, out onto the porch, out under a shade tree, or anywhere else that you want to, as you have no "string" attached to you as in the electric iron, and you do not have to travel back and forth between the ironing board and the stove, as you have always had to do, nor do you have to stand near a hot stove while you are doing your ironing.

Write to me and I will tell you how you may procure these splendid improvements, as the Grange is anxious to get people to know of the advantages to be derived from the introduction of denatured alcohol.

## Agricultural Club Formed.

By J. H. Frandsen, Department of Dairying, Idaho Experiment Station, Moscow.

A sudden impetus was given the agricultural interests of the University of Idaho on the 19 of December, 1907 when the students of that department organized an agricultural club. It consists of students deeply interested in agriculture, who are doing all in their power to build up a strong agricultural college in the university. It is with a keen sense of the needs of Idaho that the movement is begun. Idaho is one of the most rapidly growing states of the union. Over 700,000 acres of land have been added within the last year or two to the grants covered by the irrigation companies. This will furnish room for thousands of beautiful homes in the near future. It is obvious that scientific skill will be in demand under the conditions brought about by this extended system of intensive farming.

A publication known as the Idaho Student Farmer will be the club's main method of interesting the farmers of the state in the work of the agricultural college, and it is hoped by this method to get a great many students from the farms. It is probably the only student agricultural paper published in the colleges of the northwest. The first and only number of the present scholastic year will come out in a week or ten days.

The people of Idaho should respond with the true spirit of an energetic commonwealth. Send in your name and address to the Idaho Student Farmer, University of Idaho, Moscow, and receive the first copy free.

## A TEMPERANCE WORKER

Says Per-na is a Valuable Nerve and Blood Remedy.

MISS BESSIE FARRELL

Miss Bessie Farrell, 1011 Third Ave., Brooklyn, N. Y., is president of the Young People's Christian Temperance Association. She writes:

"Per-na is certainly a valuable nerve and blood remedy, calculated to build up the broken down health of worn out women. I have found by personal experience that it acts as a wonderful restorer of lost strength, assisting the stomach to assimilate and digest the food, and building up worn out tissues. In my work I have had occasion to recommend it freely, especially to women.

"I know of nothing which is better to build up the strength of a young mother, in fact all the ailments peculiar to women, so I am pleased to give it my hearty endorsement."

Dr. Hartman has prescribed Per-na for many thousand women, and he never fails to receive a multitude of letters like the above, thanking him for the wonderful benefits received.

### Overdid It.

Hospital Physician (to reassure him) —That snake you see is not a real one you know.

Delirium Tremens Patient—You see it too, do you, doc? Ah, ha!

### No Affinity.

He—I have made a discovery. She—And what is it? You have spent \$500 for dresses this year and \$200 for hats! "Well, what does that all prove?" "That you are not my affinity!"—Fonkers Statesman.

### Her Loving Friends.

Nan—Where do poor, dear Lil and the husband she has managed to get at last expect to spend their honeymoon? Fan—There won't be any honeymoon. She's a wasp.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

### Child Punishment.

Never punish a child for a first offense. When about to punish always be very sure that you are punishing him for a fault and not simply because the wrongdoing has caused you annoyance. Remember that it is not wise to inflict corporal punishment unless every other method has failed to impress the small offender.

### Appeasing a Thirst for Knowledge.

Caller—I wish you would tell me what the real difference is between a Stradivarius and any other violin. Information Editor—Well, sometimes it is as much as \$5,000.

## Truth and Quality

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.
