A rather remarkable wager has just been paid. A couple of Albany men wagered \$130 on the result of local option, the temperance man at the time making the statement that if he won, the money would be turned over to the Good Citizens' League for the prosecution of blind pigs. This has been done and the money is said to be in the hands of the officers of the League. When the wager was made another wager was offered by the liquor man that the local option man had made a mistake and \$5 more was put up. This money was to go for ice cream. It has been placed in the hands of the Elite, and Saturday afternoon at 2 o'clock voters have been invited, wet and dry, to call at the Elite and have some ice cream.—Lebanon Criterion.

The launch owned by the Anderson boys which has been on drydock having a new engine installed, was again put in the water last evening and is now ready for business.
