

What is Pe-ru-na?

Is it a Catarrh Remedy, or a Tonic, or is it Both?

Some people call Peruna a great tonic. Others refer to Peruna as a great catarrh remedy.

Which of these people are right? Is it more proper to call Peruna a catarrh remedy than to call it a tonic?

Our reply is, that Peruna is both a tonic and a catarrh remedy. Indeed, there can be no effectual catarrh remedy that is not also a tonic.

In order to thoroughly relieve any case of catarrh, a remedy must not only have a specific action on the mucous membranes affected by the catarrh, but it must have a general tonic action on the nervous system.

Catarrh, even in persons who are otherwise strong, is a weakened condition of some mucous membrane. There must be something to strengthen the circulation, to give tone to the arteries, and to raise the vital forces.

Perhaps no vegetable remedy in the world has attracted so much attention from medical writers as HYDRASTIS CANADENSIS. The wonderful efficacy of this herb has been recognized many years, and is growing in its hold upon the medical profession. When joined with CUBEES and COPAIBA a trio of medical agents is formed in Peruna which constitutes a specific remedy for catarrh that in the present state of medical progress cannot be improved upon. This action, reinforced by such renowned tonics as COLLINSONIA CANADENSIS, CORYDALIS FORMOSA and CEDRON SEED, ought to make this compound an ideal remedy for catarrh in all its stages and locations in the body.

From a theoretical standpoint, therefore, Peruna is beyond criticism. The use of Peruna, confirms this opinion. Numberless testimonials from every quarter of the earth furnish ample evidence that this judgment is not over enthusiastic. When practical experience confirms a well-grounded theory the result is a truth that cannot be shaken.

Manufactured by Peruna Drug Manufacturing Co., Columbus, Ohio

Something to Amuse Baby

A funny book in colors called "Jingle Book" sent FREE to any mother sending name and address of her baby and tops from two pound cartons of "20 Mile Team" Package Borax, with 4c in stamps. Address Pacific Coast Borax Co., Oakland, Cal.

Friend (at wedding)—Where are you going to spend your honeymoon, dear?
Blushing Bride—"Sh! You mustn't let my husband hear you ask that question. Don't you know he's a beekeeper?"

S.S.S. HEALS OLD SORES

No old sore exists merely because the flesh is diseased at that particular spot; if this were true simple cleanliness and local applications would heal them. Whenever a sore or ulcer refuses to heal readily, the blood is at fault; this vital fluid is filled with impurities and poisons which are being constantly discharged into the place, feeding it with noxious matter and irritating and inflaming the nerves and tissues so the sore cannot heal. These impurities in the blood may be the remains of some constitutional trouble, the effect of a debilitating spell of sickness, leaving disease germs in the system, or the absorption by the blood of the fermented refuse matter which the bodily channels of waste have failed to remove. Again the cause may be hereditary, the diseased blood of ancestry being handed down to posterity; but whatever the cause, the fact that the sore will not heal shows the necessity for the very best constitutional treatment. There is nothing that causes more worry and anxiety than an old sore which resists treatment. Every symptom suggests pollution and disease—the discharge, the red, angry looking flesh, the pain and inflammation, and the discoloration of surrounding parts, all show that deep down in the blood there are morbid and dangerous forces at work, constantly creating poisons which may in the end lead to Cancer. Local applications are valuable only for their cleansing and antiseptic effects; they do not reach the blood, where the real cause is located, and can therefore have no real curative worth. S. S. S. heals old sores by going down to the fountain-head of the trouble and driving out the poison-producing germs and morbid matters which are keeping the ulcer open. It removes every particle of impurity from the circulation and makes this life-stream pure, fresh and health-sustaining. Then as new, rich blood is carried to the place the healing begins, all discharge ceases, the inflammation leaves, new tissue and healthy flesh are formed, and soon the sore or ulcer is well. S. S. S. is the greatest of all blood purifiers and finest of tonics, just what is needed in the treatment, and in addition to curing the sore will build up and strengthen every part of the system. Special book on Sores and Ulcers and any medical advice desired furnished free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

I want to recommend S. S. S. to any who are in need of a blood purifier, and especially as a remedy for sores and obstinate ulcers. In 1877 I had my leg badly cut on the sharp edge of a barrel, and having on a blue woolen stocking the place was badly poisoned from the dye. A great sore formed and for years no one knows what I suffered with the place. I tried, it seemed to me, everything I had ever heard of, but I got no relief and I thought I would have to go through life with an angry, discharging sore on my leg. At last I began the use of S. S. S., and it was but a short time until I saw that the place was improving. I continued it until it removed all the poison from my blood and made a complete and permanent cure of the sore. JNO. ELLIS.
250 Navy Street, Brooklyn, N. Y.

The Gentle Rebut.
"Immeasurable are the rebuffs that the helpers of the poor, the seekers after charity for their suffering brothers undergo," said a New York charity organization official. "A friend of mine, a Methodist minister in a small western town, told me the other day of his last rebuff, a not unkind one. Entering the office of the local weekly, the minister said to the editor:
"I am soliciting aid for a gentleman of refinement and intelligence who is in dire need of a little ready money, but who is far too proud a man to make his sufferings known."
"Why," exclaimed the editor, pushing up his eyeshade, "I'm the only chap in the village who answers that description. What's this gentleman's name?"
"I regret," said the minister, "that I am not at liberty to disclose it."
"Why, it must be me, said the editor. "It is me. It's me, sure. Heaven prosper you, parson, in your good work."

Doesn't Feaze Him.
"That new preacher you have is a pretty wide-awake young man, isn't he?"
"Yep. Keeps right on preachin' when everybody else is asleep."—Cleveland Leader.

Peculiar to Itself

In selection, proportion and combination of ingredients.
In the process by which their remedial values are extracted and preserved.
In effectiveness, usefulness and economy. Curing the widest range of diseases. Doing the most good for the money. Having the most medicinal merit. And the greatest record of cures.—

Hood's Sarsaparilla

In usual liquid form or in chocolate tablets known as Sarsatabs. 100 doses \$1.

Exemplified.

George—Auntie, what does irony mean?

Auntie—It means to say one thing and mean the opposite, like calling a rainy day a fine day.

George—I think I understand you, auntie. Wouldn't this be irony: "Auntie, I don't want a nice big piece of cake?"

Considerate.

In a country church one Sabbath, as the congregation were rising for the first hymn, an old lady entered the church at the same time. She held up her hand, exclaiming: "Keep your seats. Losh, ye needna arise, though I have come in."—London Express.

\$100 Reward, \$100.

Those readers of this paper will be pleased to learn that there is a new and improved medicine that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive remedy known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving it a permanent strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

Couldn't Be Snobbish.
Mrs. De Style—I've been sending Mary to a fashionable academy, but she doesn't seem to get on very well.

Uncle Jerry—No? She's a pretty bright girl.

Mrs. De Style—Oh! she's bright and very sensible, but—

Uncle Jerry—Ah! I guess that's it. She's too sensible to be affected by it.—Catholic Standard and Times.

Taking No Chances.

"Oh, the sorrow of it!" sobbed the fair maid. "Last night I refused Mr. Blank and this morning his body was found in the river."

"Poor fellow!" murmured her girl friend. "I suppose he was afraid you might change your mind."

WANTED

Information regarding Farm or Business for sale. Not particular about location. Wish to hear from OWNER only who will sell direct to buyer. Give price, description and state when possession can be had. Address, L. DARRYSHIRE, Box 228, Rochester, N. Y.

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. A sluggish liver gives a coated tongue, bad breath, constipated bowels. Correct all these by giving small laxative doses of Ayer's Pills. All vegetable, sugar-coated.

Would Ask No Mercy.

Mrs. Vick-Senn—What do you suppose you would do if you were to meet the fool killer?

Her Husband—I'd tell him I was the man he was looking for, all right. I have just given orders to have that new addition to the house torn down and built again exactly as you want it.

Mother will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Those Dear Friends.

Nan—This is Jack's latest picture. Don't you think he looks better in profile than in a front view?

Fan—Much better, dear. It doesn't show his bald spot.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

HOTEL MOORE

OPEN ALL THE YEAR
CLATSOP BEACH SEASIDE, OREGON

Directly on the beach overlooking the ocean. Hot salt baths and surf bathing. Recreation pier for fishing. Sun parlors. Electric lights. Fire-places and steam heat. Fine walks and drives. Sea foods a specialty. Rates, \$2.50 and \$5.00 per day. Special rates by the week. DAN. J. MOORE, Proprietor

Shoes mailed from factory to any part of the world. Illustrated Catalog free to any address. W. L. DOUGLAS, Brockton, Mass.

RAISING OF WHEAT.

Advantages of Correct Methods of Growing and Marketing.

By S. C. Armstrong, Washington State College, Pullman.

We must first find out what the existing demand is going to be, and then, if possible, meet that demand; for if we do not meet the requirements of the demand, some one else will, and we will be forced to a lower level than we should be. Consequently, in the production of wheat, we have to study the problems we meet from a competitive standpoint; we must compete with somebody else who is growing wheat, not out neighbor, necessarily, but our neighbor's section of the country. A man will go where he can get the best wheat, if he wants to buy, and if we have not the best, we will lose the trade.

We of the wheat producing districts of Washington are fortunate in having the best country for the production of wheat on earth, and we should use the utmost diligence to see that we employ only the best methods. If we do this, we can place Washington at the head of the wheat producing regions of the globe, and the brand of the "Evergreen State" on a barrel or sack of flour will be known as a mark of perfection the world over.

We, the public, should commence to raise the grade standard. The state grain commissioner is at present forcing the purchaser to accept No. 2 as No. 1; we cannot expect to get as much for No. 1 wheat that tests 58 pounds as our neighbors can for wheat that tests better. Because this state of affairs exists, we are sending out, each year, wheat less sought for than wheat grown in many other countries.

We should insist that every grain grower in the state use such care in the production of his wheat that the resulting higher standard will increase the demand for our wheat. If we improve the quality of our product, the state grain commissioner will be forced to raise the standard; and we should in this way see that our standard is above the standard of every other wheat producing state. By doing this, we would cause our wheat to be quoted at fancy prices. We should make our product so good that we would be willing to have our name and address printed on it, so that as it goes out into the markets of the world, people the world over will know that we are proud of our product.

QUESTIONS AND ANSWERS.

Valuable information to Pacific Northwest Inquirers

By J. L. Ashlock, Washington Experiment Station, Pullman.

Ryan—"Has mankind ever been able to devise a fence that will stop an Angora goat? Do coyotes annoy them?" L. L. V.

"There are no domesticated animals that are as hard to keep penned up as Angora goats. To secure them, a fence should be of a kind that will not permit the animals to climb, and from four to five feet high. It should be so constructed that a goat cannot jump over it, and preferably should be made of wire instead of boards. A wire fence made of woven wire and about fifty-four inches high should hold them. Remember, that if the animals can get any sort of vantage from which to jump, they will go over the fence. The goats are pretty good on the defensive, hence coyotes do not as a rule make much headway in attacking them."

Glenwood, Idaho—"Is 'quack grass' a dangerous pest? How may I kill morning-glories?" C. B.

"'Couch grass' is another name for this pest, and it is certainly dangerous when it once has escaped into a garden. In the Eastern States it is reported quite often, but I have not been informed that it is in the Northwest in any great abundance. The morning-glory is even more dangerous than quack grass. Fall plowing and covering with straw or manure are fairly good means of destroying it, but it is nearly impossible to kill it by fall plowing."

Wolf Creek, Mont.—"How much alfalfa seed should be sown per acre? Which is better, fall or spring seeding?" W. C.

"If moisture conditions are all right, fall seeding will do in some regions. Spring seeding should be done so as to avoid damage by frost when the seed is germinating. Twelve to fifteen pounds per acre is about right for broadcast seeding, but if a drill or seeder is used, ten or twelve will do."

Grass Valley, Or.—"Please tell me concerning the comparative value of wheat, hay, and carrots as a feed for horses." I. M. U.

"Such a comparison is impossible, since the feeds you mention do not fill the same need. The food value of carrots is very low, but the effect they have in toning up the system, and keeping it in good running order is very important. A horse could eat a peck of carrots per day to a very good advantage, but you should not attempt to substitute them for hay. The same is true in making a comparison of wheat and raw carrots for hog feed, although up to the amount that a hog will eat, the carrots will replace a certain portion of the wheat. I can safely say that where carrots will yield twenty tons per acre, you will find it highly profitable to feed them to hogs to the full capacity of their appetites, providing you feed some grain in connection with the carrots; but you will be unable to keep stock hogs on carrots alone, as they contain too small a percentage of bone-and-muscle-making material."
