The Carnival.

The Fruit and Vegetable Carnival to be held at Toledo Wednesday, Thursday and Friday, October 7, 8 and 9, will be the best attended fair ever held in the county. A greater interest is being manifested in every section of the county than at any other time. The exhibits will be great in number and of the finest quality.

While almost everything will be free, as no admission will be charged and no charges for entry of exhibits, a great many special prizes are to be given.

The good roads meeting to be held in the circuit courtroom on the afternoon of the second day of the carnival will be very interesting and instructive to all.

A complete program will be given in next week's issue.

Some Building in Toledo.

Although Toledo is not booming she is steadily growing, as is evidenced by the many new buildings being built in all parts of the town this fall. Scarcity of carpenters and building material has held building operations back considerably. Following is a list of some of the buildings going up at present: Attorney C. E. Hawkins is building a large modern residence on the hill east of Mrs. Sturdevant's home. This will be, when completed, one of the largest and finest residences in Toledo.

G. R. Schenck has just about completed his residence at the corner of Second and Graham streets. This is a two story house, with modern conveniences.

County School Superintendent R. P. Goin is building a residence just west of Mr. Hawkins'.

Frank Carson has removed his old house and is building a much larger one at his home near the Methodist church.

Waldport Items.

Taft and Sherman pictures have made their appearance in Waldport.

It has been definitely announced by Elmore & Co. that our cannery will not run. Good opening for somebody.

A Taft Club was organized Wednesday at the office of the C. J. Smith Realty Co. A good number of Republicans were present and joined the organization.

Mrs. T. S. Finnegan of Portland has purchased a lot here for the purpose of erecting a summer cottage. Mrs. Finnegan and family spent an enjoyable summer with us this season.

It is reported that our school will not open this year until the first Monday in November. Being possessed of as fine a school building as there is anywhere in this county we should open our schools the usual time.

Our sportsmen have enjoyed their privilege of killing elk this season. Besides a number that have been killed by Valley people who came here for the purpose of hunting, our local boys have reported up to date as follows: James Wolf, Cassie Wolf, Skiff Morrison, Neven Barclay, L. V. Colvin, Virgil Howell, and John Gaten, one elk each. Mr. Colvin secured as fine a pair of horns as could be desired and by far the prettiest pair of teeth we have ever seen.

George W. Blodgett and Mr. Sterling, lapidists, of Portland are in camp on the beach south of Waldport. These gentlemen were here in May and secured some very unusual specimens which they took to Portland and polished. One stone which was cut up into seven pieces about an inch long is especially fine. It is a clear agate impregnated with pyrites of iron in the form of ferns and queer as it may seem the entire stone takes a polish as fine as a clear stone with no pyrites. Mr. Thomas of Newport says the small piece Mr. Blodgett wears on his watch chain is worth one hundred dollars.
