KASPARILLA

This sterling household remedy is most successfully prescribed for a "world of troubles." For derangements of the digestive organs it is a natural corrective, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthy activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value. If it fails to satisfy we authorize all dealers to refund the purchase price.

MY OWN FAMILY USE PE-RU-NA.

HON. GEORGE W. HONEY.

Hon. George W. Honey, National Chaplain U. V. U., ex-Chaplain Fourth Wisconsin Cavalry, ex-Treasurer State of Wisconsin, and ex-Quartermaster General State of Texas G. A. R., writes from 1700 First St., N. E., Washington, D. C., as follows:
 "I cannot too highly recommend your preparation for the relief of catarrhal troubles in their various forms. Some members of my own family have used it with most gratifying results. When other remedies failed, Peruna proved most efficacious and I cheerfully certify to its curative excellence."

Mr. Fred L. Hebard, for nine years a leading photographer of Kansas City, Mo., located at the northeast corner of 12th and Grand Aves., cheerfully gives the following testimony: "It is a proven fact that Peruna will cure catarrh and la grippe, and as a tonic it has no equal. Druggists have tried to make me take something else 'just as good,' but Peruna is good enough for me."

Pe-ru-na in Tablet Form.
 For two years Dr. Hartman and his assistants have incessantly labored to create Peruna in tablet form, and their strenuous labors have just been crowned with success. People who object to liquid medicines can now secure Peruna tablets, which represent the solid medicinal ingredients of Peruna.

WORSE THAN HISSING.

Stone Throwing Was a Habit in Theaters of Ancient Greece.

Getting the bird, writes a correspondent, need not always prove a source of woe to the unfortunate actor, for there are some nations that express their applause by hissing. The Basutos, for instance, and the natives of the New Hebrides employ this method of expressing their admiration. Even among ourselves any interruption of the actor who grips our attention is quelled with the hissing "Hush!" which is intended to silence the interrupter and show our admiration for the interrupted.

On the whole, authors and actors of to-day have reason to congratulate themselves upon the disuse of many of the ancient Greek methods of showing dissatisfaction in the theater. The worst that a playwright must reckon with now is an ironical cry of "Author!" followed by a booring demonstration. But it is on record that the Athenian audience at least once forcibly ejected an unsuccessful comic poet from the theater. The pelting of bad actors with vegetables and questionable eggs is rare now even in the remotest provinces. But the Athenians did not draw the line at figs and olives as missiles. Aeschines was said nearly to have been stoned to death during his stage career, and there is a story of a second rate musician who borrowed a quantity of stone from a friend to build a house with, promising to repay the loan with the stones collected at his next performance.—London Chronicle.

A QUICK TOUCH.

She Needed Money and Sent a Message that Would Fetch It.

A day or two ago a woman entered a suburban telegraph office and said to the receiver of messages that she desired to telegraph her husband, who was away in the country, to ask him for money. He pointed her to the counter supplied with blanks and told her the rate for a dozen words. She struggled away for a quarter of an hour and then handed in the following:

"Won't you please send me £5 by next post?"

"I don't know whether that will do or not," she said as she felt for her purse. "If you were to receive such a telegram from your wife, would you forward the money?"

"Well—well, I might," he replied in doubtful tones.

"Now, you wait. I don't like the telegram at all, because I tried to keep it within twelve words. I'll write another."

She tore it up, walked over to the counter and in three minutes handed in a new one reading:

"Am out of food and fuel and want £5 as soon as you can get it here. If you can't spare it I'll pawn the parlor carpet."

"That would bring the money from me," said the counter clerk as he read the lines and marked the number of words.

"Then it will from him. Send it quick!"—London Tit-Bits.

TELEPHONE ATTACHMENT.

Adjustable Brackets Which Support Receiver Close to the Ear.

An Indiana inventor has realized how tiresome and inconvenient is the necessity of holding a telephone receiver to the ear for any great length of time. When the telephone conversation is of more than the ordinary length the arm holding the receiver soon becomes numb. Accordingly he designed a simple telephone attachment by which the receiver is supported on brackets extending from the phone. As shown in the accompanying illustration these brackets are pivoted at several points, making it an easy matter to adjust the receiver to any position desired. The person talking on the phone can thus quickly adjust the receiver to rest near the ear, allowing him the free use of both hands and eliminating the objectionable feature of holding the receiver in the hand.

Hewitt—Gruet uses very appropriate language, don't you think so?
 Jewett—Well, when I asked him what he thought of the idea of cremation his reply was, "It jars one."—New York Press.

S.S.S. THE CURE FOR SCROFULA

Swollen glands about the neck, weak eyes, pale, waxy complexions, running sores and ulcers, skin diseases, and general poor health, are the usual ways in which Scrofula is manifested. The disease being deeply entrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, and the scrofulous and tubercular matter so thoroughly destroys the healthful properties of the blood that Scrofula sometimes terminates in consumption, an incurable disease. The entire circulation being contaminated, the only way to cure the trouble is to thoroughly purify the blood and restore the circulation to a strong, healthy state. S. S. S. is the very best treatment for Scrofula; it renovates the entire blood supply and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes right down to the very bottom of the trouble and removes the cause, but it supplies the weak, diseased blood with the healthful properties it is in need of, and in this way builds up weak, frail, scrofulous persons and makes them strong and healthy. S. S. S. is a gentle, safe, vegetable preparation and is suited for persons of any age. Book on the blood containing information about Scrofula and any medical advice free.

Unanswerable.

The lion was sneering at the awkward, uncouth, and generally ugly appearance of the elephant.

"I may not be as graceful as you are," observed the elephant, "but I'm nearer akin to the human family than you are. The knees of my hind legs bend forward, as a man's legs do, while yours bend backward, the same as a hyena's, or a hog's, or a skunk's. You belong to a lower order of creation, and I'd rather not associate with you on terms of equality if it's all the same to you."

Whereat the lion, observing that the elephant was waving his trunk threateningly, went back among the wolves and coyotes, where he still retained some prestige.

No Object.

"How," wrote Anxious Querist, "do you distinguish the mushroom from the poisonous toadstool?"

"Here," wrote the information editor of the agricultural paper, in response, "we have an interesting example of the useless questions that come to this office every day of the week. Our answer to this query is that we don't. All we ever do along that line is to distinguish the poisonous toadstool from the mushroom."

Symmetry.

The smoker who sat directly opposite had put his foot on the edge of the seat occupied by the professor.

It was enclosed in one of those easy going, hygienic shoes that look like a canvas covered ham.

"My friend," said the professor, eying it disapprovingly, "collage me by removing that thing from my seat. It's bad form."—Chicago Tribune.
