TOLEDO, LINCOLN COUNTY, OREGON, FRIDAY, DECEMBER 4 1908.

NUMBER 41

TWO TICKETS IN THE FIELD

Great Rivalry Among the Candidates.

There are two full tickets in the field to be voted on at the coming city election next Monday. They are designated as the Citizens' and the People's ticket. The Citizens' ticket is as follows:

Mayor, C. E. Hawkins.
Recorder, Fern Hayden.
Treasurer, R. A. Arnold.
Marshal, Charles Bradeson.
Councilmen, George Hoefflein, W. E. Peterson, R. S. Van Cleave.
Here is the People's ticket:
Mayor, M. N. Anderson.
Recorder, O. O. Krogstad.
Treasurer, G. A. Hall.
Marshal, Ferd Brown.
Councilmen, J. J. Gaither, Arthur Nye, Melvin Gildersleeve.

They are both good, strong tickets, composed of our very best business men and we hope both sides will win, although we feel almost certain that half of them will be defeated.

Gus Olson tried for several days to get the Democrats together and nominate a straight Democratic ticket, but on a census being taken it was found that there are not enough of that political faith in town to fill the offices. Gus concluded not to run alone.

It is hoped every voter will do his duty next Monday and cast his vote for the best man "according to the dictates of his conscience."

There is great rivalry among the candidates—to get votes for his opponent. Some of the nominees have refused to file their acceptance, but that makes no difference, vote for them anyway—the people will rule.

Fred Maurer and wife, who for the past thirty-one years on their homestead on Beaver creek, have sold their home and moved to town to live. At present they are living in the Young cottage in the south end of town. They will build a home here.

THANKSGIVING FOOTBALL

Toledo Won in the Hardest Game of the Season.

Toledo won the football game at Newport over the team from that place Thanksgiving Day by a score of 10 to 5.

It was evident from the first that Toledo would be the victors, as they easily out-played their heavier opponents at every stage of the game. On defensive, Toledo's line held solidly and Newport was unable to make yardage, either by bucking the line or around the ends. Toledo's interference was good. Time after time Robbins and Hawkins, aided by excellent interference, made 20 and 30 yard runs around Newport's left end. Goodell and Ofstedahl also made substantial gains when given the ball. Goodell at full played an excellent game, and to him is due the honor of crossing Newport's goal line for both touch-downs made during the game. Newport's touchdown was made by Aupperle intercepting a forward pass of Toledo and running 30 yards for a touchdown. No score was made in the last half by either team, although all the playing was in Newport's territory. Three place kicks were tried by Toledo but were failures.

Toledo's team played excellent ball, every player deserving credit for the manner in which he played his position: Robbins at quarter played a star game and to him is due much of the credit of the victory.

For Newport, Aupperle, Smith and Hayden were easily the stars.

Prof. Weber of Toledo and Harry Divilbiss of Yaquina were the officials.

The day was ideal and a large crowd witnessed the game.

The launch Oregon took a crowd to Newport Wednesday evening to attend a meeting of the Eastern Star Lodge. The special feature of the meeting was the election of officers for the ensuing year.

A newly wedded man protested to his wife at breakfast that while the bacon was tolerable, the liver was bad, and the innocent young thing remarked, "all right dearie, I'll speak to the livery man about it this very morning."

Never in the history of Lincoln county has there been such an influx of homeseekers as at present. Every train brings in people, to every station along the road, who are looking for homes. Many are locating.

Bradeson & Altree, who are making the road from Seventh street to connect with the plank road leading out of town, have about finished the job. They are now laying the last of the curduroy. This is one of the best improvements ever made by the City. When the planking is laid from Hoefflein's and Anderson's to Hill street it will make what has been the worst piece of road in the city, the best.

J. S. Copeland came down from his home at Salado last evening, returning today. Mr. Copeland and his neighbors are suffering loss of sheep and goats from the ravages of wild cats, bears and coyotes. Mr. Copeland owns 300 head of goats and nearly a hundred head of sheep and it requires constant care to protect them from the wild animals. The farmers in his neighborhood have formed a bounty district and are paying a bounty of \$10 for coyote and \$2.50 for wild cat scalps taken in the district. He thinks the county should place a bounty on these varmints and protect the stockmen, whose expenses to protect the stock is now too high, and the bounty district now formed is too small. Besides paying taxes on the stock and the losses sustained by the ravages of these wild animals, each stockman is compelled keep a pack of hounds, which help to eat up the profits.

A teacher noticing that a pupil did not seem to see well took the little fellow to an oculist and had his eyes examined; he then wrote to the boy's father as follows:

Dear sir:- your boy has astigmatism and should be kept from school until same is rectified.

The boy returned to school the next morning and had the following note:

Mr. Teacher, Jonnie's mother has examined his head thoroughly and only found one. Better keep your eyes on Johnnes kids they always have 'em and let mine alone. We have a fine comb and always watch 'em ourselves without no interference from the teacher.

THAT SILETZ WAGON ROAD.

Toledo Development League Orders the Survey.

At a call meeting of the Toledo Development League last Saturday evening to act on the Toledo-Siletz wagon road it was voted to employ County Surveyor Z. M. Derrick to survey and take the elevations of the Dundon hill to determine the advisability of making the road up Run Bottom, cutting through the narrow backbone of the Dundon hill and connecting with the Depot slough road at the Enos place. Mr. Derrick will in a few days do the work.

This survey will be made at the expense of the citizens of Toledo and is for the gathering of information, asked for by Commissioner John Kentta, for the Commissioners' Court, which is anxious to establish the road when it is decided by the people where the road is to be located.

There are two proposed routes for this road. The Oialla slough and the Depot slough routes. One of these routes will be chosen as it is voted by everybody that the road must be kept off the high hills.

When the road is established it will be made into a good, permanent road. It will be put on the best possible grade and will be planked or graveled.

From a Former Citizen.

Phoenix, Ariz., Nov. 20, 1908.
Editor LEADER:—Inclosed you will find \$1.50, for which please send me your paper for one year.

I have finally got located. The weather here is delightful—it does not seem like winter. It is like Oregon, only different. In Oregon you can bet on rain, but here you can bet on fine weather. The sun shines every day. It is not too hot nor too cold.

I was told before I landed you could not raise certain vegetables, but I don't know of any vegetables that they don't raise, for they raise all kinds. Rain is not needed for they always have plenty of water.

The new Roosevelt dam in the Salt river is surely a success so far. They now have quite a lake of water 98 feet deep. It will be about a year yet before the dam is completed. It is built in a horse-shoe shape so the larger the head of water the tighter the pressure of the dam. It will furnish water for a large valley of the very richest of land. They raise from five to six crops of alfalfa, two crops of potatoes and other vegetables in one season.

I have rented a strawberry ranch. The first crop of berries will come the first of February and will continue four months.

My health is much better than when I left Lincoln county.

Yours truly,
R.F.D. 1. CHAS. STOUDEF.

WANTED—Men to cut cord wood on the George Lewis place. Must batch. Good house.
