PURE FOOD LAW.

Secretary Wilson says: "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit forming drugs be stated on the label of each bottle. The manufacturers of Chamberlain's Cough Remedy have always claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is made on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. Dog salmon are now on the market in Denver, Colorado, and are selling at 17 1/2c per pound according to information received from H. F. Hagen who went there with a consignment of choice salt chinook salmon. He says the salt fish is a new food for the people there and they are a little shy in buying it, yet they seem to relish the dog salmon. Mr. Hagen says he has experienced some very cold weather and is not afraid his fish will spoil from becoming over heated.

The Waldport Mutual Telephone Company called its annual meeting to order on January 4th. A large number of subscribers were present. After the bills had been audited and a number of items had been under discussion it was found that the meetings had not been conducted according to law during the past two years and it was decided to turn the affairs of the company over to the original directors, who had been legally chosen. After the tangle is unraveled a new meeting will be called and each member will receive a proper stock certificate. In the mean time the expansion of the company by building new lines is at a standstill.
