Toledo needs more houses.

When we get a few good roads that can be used in winter we will have creameries and cheese factories, and as the number of good roads increase so will the number of creameries and cheese factories increase, likewise the bank accounts of our farmers.

From the many pretexts coming in from different sections of the county against the increasing of the salaries of the county officials, it is plainly evident that the people are not ready to increase the salaries. We will probably get our timber cruised this Summer, then we can have better roads, better schools, and better salaries, and all will be happy.

Considerable comment has been made over the arrest and fining of Dr. Berry, the dentist of Newport. We see but little in the matter for comment. The Doctor admitted breaking a law when he pleaded guilty and paid the fine. As to whether the present dental law is a good one or not cuts no figure in the case. As long as we have the law on our statutes the law should be upheld and enforced; if it is a poor law have it repealed. The Legislature of 1887 passed a law which was approved in February by the Governor, and it was amended in 1905 requiring all persons before opening a dental office within the state to pass a satisfactory examination before a board of dental examiners, consisting of five duly qualified dentists selected by the Governor, "whose duty it shall be to require of each applicant that they do certain kinds of dental work before them, such as inserting gold, silver and other kinds of fillings, the placing of gold and porcelain crowns, making different kinds of artificial plates, or false teeth, commonly called, and gold bridges, and a written examination of the applicant's knowledge of the diseases of the teeth and mouth also the medicines used both constitutionally and locally for the effective treatment and healing of the affliction; and when, in the judgment of the State Board of Dental Examiners, the applicant is duly qualified a state license is issued, and any person receiving a license must record the same with the county clerk of the county in which they wish to open an office. Now, we can see nothing unfair or unjust in this law, which is certainly in the interest of better dental service. How often in the past have the people of this county received miserable service on their teeth by persons coming here who were not properly qualified. This law is intended to stop such practice. It is an easy matter for a dentist to comply with this law. All that is necessary for one to ascertain if a dentist is holding a license is to apply to the county clerk. If the license is registered the dentist is entitled to practice. If not, he should be reported to the President of the State Board of Dental Examiners at Portland. We want good, competent dentists, physicians, druggists, oculists, railroad men, steamboat men, school teachers, etc., but how can we get them without a law requiring the proper qualifications, and of what service will the laws be if they are not enforced?

Dr. Brown, of Portland, Eyesight Specialist, will be at the Commercial Hotel, Toledo, Monday and Tuesday, February 1 and 2. Dr. Brown is equipped with all latest instruments known to his profession for correcting all defects and errors of refraction that the human eye is subject to. Now is the time to visit California

When Summer has passed in these northern states, the sun is only mild under the bright blue skies of Southern California. This is one of nature's happy provisions—eternal summer for those who cannot endure a more severe climate. California has been called the "Mecca of the winter tourist. Its hotels and stopping places are as varied as those of all well regulated cities. Visitors can always find suitable accommodations, congenial companions, and varied, pleasing recreations.

SOUTHERN PACIFIC COMPANY

Will be glad to supply some very attractive literature, describing in detail the many delights of winter in California. The rate from Albany to Los Angeles and return is \$55.00. Limit six months, allowing stopovers in either direction. Similar excursion rates are in effect to all California points.
