

The Mission

Of those corpuscles in your blood that have been called "Little Soldiers," is to fight for you against the disease germs that constantly endanger your health. These corpuscles are made healthy and strong by the use of Hood's Sarsaparilla.

This medicine is a combination of more than 20 different remedial agents in proportions and by a process known only to ourselves and it has for thirty years been constantly proving its worth. No substitute, none "just-as-good."

Progress.

"Thir-," said the optimist, "of how civilization has progressed since the terrors of the Roman arena."

"Yes," answered Sirus Baker. "Nowadays when we're looking for thrills we go to a little parade ground and watch some aviator risk his life on short turns."—Washington Star.

Had Him There.

"A little less noise, Miss Clara. If you please," said the bookkeeper. "Conversation isn't necessary when there is work on hand."

"That only shows, Mr. Addemup," snapped the typewriter girl, "that you've never read the history of the tower of Babel."

Only One "BROMO QUININE"

That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the world over to Cure a Cold in One Day. 25c.

Extremes Meet.

The little traveling man looked admiringly at the big traveling man. "Gee!" he said. "You sell Corliss engines, don't you?"

"No," answered the big man. "I'm an agent for a needle factory. What's your line? Complexion powders?"

"Not exactly," said the little man. "I build suspension bridges."

Those Dear Friends.

Nan—I always know when Jack is at the front door. He gives just one little ring.

Fan—Yes—just like that one on your finger.

Needed Explaining.

"That stocky looking man over there once killed a man with one punch."

"What is he—a pugilist or a bartender?"

Too Much for Him.

"Yes," said the thin party. "I'm going to change my boarding place. Those three-course dinners are too much for my digestive apparatus."

"Three-course dinner!" exclaimed his friend. "Of what do they consist?"

"Napkins, ice water and toothpicks," was the reply.

A Holiday Suggestion.

The best gift is not always the one that costs the most money. It's the thing that strikes a need, that's appropriate and appeals to good taste that makes the biggest hit. For a woman of domestic taste here's a happy thought:

A new book of exceptional recipes by Mrs. Janet McKenzie Hill, of the Boston cooking school, has just appeared, under the title "The Cook's Book." It is a selection of 80 of the choicest creations of this eminent authority. The idea is to present in compact form a number of delicious dishes, cakes and pastries fit for those special occasions when the housewife is anxious to make her best impression. Every recipe is a gem, and the book contains in addition a fund of valuable household information. "The Cook's Book" is elegantly gotten up, printed on finest plate paper and profusely illustrated with beautiful half-tones and colored engravings.

"If you would like 'The Cook's Book' for yourself or a friend, secure a single certificate from a 25-cent can of K. C. baking powder. Mail it with our address and this article to Dept. 48, Jacques Mfg. Co., Chicago, and it will be sent free. You will be delighted with K. C. baking powder. It is guaranteed to please you or money refunded. You will agree that 'The Cook's Book' would be cheap at a dollar, and remember you get it free of all cost. Take advantage of this special offer at once, while it is good, even if you are not out of baking powder. K. C. baking powder will keep its strength for several years if necessary.

Science.

"Did you know that if all the salt in the ocean were gathered into one solid body it would make a cube measuring 500 miles each way?"

"No, but I don't doubt it. Who has figured it out?"

"Nobody. I was just trying to find out how big a lie you would swallow."

His Record.

Tommy Wrott—You told Dora Hope that you had refused me at least half a dozen times. What a whopper!

Lotta Guph—It wasn't a whopper, either. Don't you remember that you proposed to me six times last Thursday evening?

Across the Backyard Fence.

Woman with the Sun Bonnet—If anybody asks me what I know about you I shall tell 'em the exact truth.

Woman with the Gingham Apron—If you do, Mag Parkins, as sure as I'm standin' here I'll sue you for slander!—Chicago Tribune.

Antecedents.

Convict 411 (in the penitentiary for stealing)—I'm from Truro. Where are you from?

Convict 44 (serving a term for perjury)—I'm from—er—False Row, I guess.

Farm Industry Prospers.

No industry has equaled the prosperity of agriculture the past decade. Scientific methods of farming and improved live stock have greatly increased the revenue of the farms in all parts of the country. The land has been cultivated to yield increased crops, and prices have ruled uniformly high and stable. While other industries feel the effects of the financial depression, the soil continues to yield bountiful harvests and values hold firm in contrast with depressed business activities. The government estimates that the value of the agricultural products of 1908 will total the enormous sum of \$8,500,000,000.

Farmers have invested approximately in agriculture \$25,000,000,000, which yields a gross income of 30 per cent on the investment, according to the estimate of the value of this season's output. In some localities where farm lands are cheap the gross return is upward of 100 per cent on the investment, and farmers are able to pay for their land with a single crop. It is estimated that there are 6,000,000 farms in the United States that are putting on the market annually an output valued at \$8,500,000,000. It is the leading industry of the country, and its prosperity has had an ameliorating effect on the late financial panic. The farmers are the only representatives of an industry who are not materially affected by the current dull times.

Live stock husbandry is becoming more paramount in agricultural operations. The assessed valuation of the horses, mules, cattle, sheep and hogs in the United States now totals \$4,331,230,000. Dairy products now equal the combined value of wheat and oats. The value of eggs and poultry equals the

enough to steam an ample supply for each day's feeding. The bin is filled one day before using and steamed thoroughly, but not enough to make it soggy. It should be allowed to cool and then fed the next day.

The bin should be provided with hinged lids. The steam pipes are run from the steamer to the bottom of the bins, where they are connected with more pipes to give an equal distribution of steam.

The pipes inside the bins are pierced with one-eighth-inch holes six inches apart to allow the steam to escape.

To preserve the bins they should be lined, bottom, sides, top and lids, with zinc.

Cellar for Roots and Vegetables.

Root cellars are usually built half below and half above the level of the ground. Excavate sixteen inches below the desired level of the floor, and around the sides build a foundation twelve inches wide of one part Port-

combined appraisal of wheat and potatoes. The combined value of dairy products, eggs and poultry equals the value of the corn crop.

The 6,000,000 farms produce a gross output of \$8,500,000,000, or an average of \$1,416 annually. This is an average gross income per farm of \$118 per month. Even the 190,000 New England farms are credited with an annual output of \$200,000,000, or an average of \$1,052 per farm. While there is no magical transition from poverty to wealth in agriculture, there are such liberal returns from the soil and such attractive profits for farm produce that farmers as a professional class lead all industries in stable prosperity. Commercial activity or industrial depression do not materially affect the consumption of farm commodities.—Goodall's Farmer.

It Pays to Steam Fodder.

Fodder can be made much more palatable by moistening the mass with live steam. A barrel or hoghead with a little steam pipe run from a small feed cooker will do for one to half a dozen head of cattle, but for feeding on a large scale the following plans

COOKER FOR STEAMING FODDER.

will show how to build a cooker of sufficient capacity:

The shed should be only large enough to house the steamer. There is a small door in the end next to the fire-box beside the boiler.

The bins on the sides should be large

enough to steam an ample supply for each day's feeding. The bin is filled one day before using and steamed thoroughly, but not enough to make it soggy. It should be allowed to cool and then fed the next day.

The bin should be provided with hinged lids. The steam pipes are run from the steamer to the bottom of the bins, where they are connected with more pipes to give an equal distribution of steam.

The pipes inside the bins are pierced with one-eighth-inch holes six inches apart to allow the steam to escape.

To preserve the bins they should be lined, bottom, sides, top and lids, with zinc.

Cellar for Roots and Vegetables.

Root cellars are usually built half below and half above the level of the ground. Excavate sixteen inches below the desired level of the floor, and around the sides build a foundation twelve inches wide of one part Port-

On the foundation and at equal distance from either edge erect a solid wall eight inches thick, with one part Portland cement, two and one-half parts clean, coarse sand and five parts clinders, broken stone or gravel, leaving an opening at one end for the steps. Build up the end walls, so as to form a point in the middle, and high enough to give the roof a sufficient pitch to shed the rain.

Near the top at each end openings

for windows should be left, and the sash fitted and plastered in after the concrete has set and forms have been removed.

If a concrete roof is desired, forms should be erected and a roof two and one-half inches thick laid on. On the top of this, and before the concrete is dry, a layer one-fourth inch thick of one part Portland cement and one part sand should be placed, troweled when partially set and smoothed with a wooden float. Forms should not be removed from roof for at least three weeks.

Roof and steps should be reinforced with a woven wire fabric or with steel rods. The cut shows a small cellar suitable for storing all kinds of roots, fruit and vegetables.—Farm and Home.

Farm Notes.

Sheep should not be fed ensilage except in small quantities.

It is said that barley furnishes as much nutriment as the same weight of oats.

Don't overcrowd the chickens. Winter only as many as you can comfortably.

Clean dirty eggs with a woolen rag slightly moistened in water; never wash them.

A teaspoonful of chloride of lime in a pint of warm water is said to relieve wind colic in horses.

The idea of perfect comfort should predominate in every building that is constructed for the hogs.

The failures that we make, if wisely pondered and wisely used, may guide us to the success we long to achieve.

Farmers are a power in the land, but it is only as they stand together on questions that affect their welfare that this holds true.

When pigs are kept eight months, when fully as good weights could have been obtained at six months, the profit is anything but what it should have been.

PISO'S CURE

A TEARING TERRIBLE COUGH

bespeaks impending peril. Constant coughing irritates and inflames the lungs, inviting the ravaging attacks of deadly disease. PISO'S CURE soothes and heals the inflamed surfaces, clears the clogged air passages and stops the cough. The first dose will bring surprising relief. PISO'S CURE has held the confidence of people everywhere for half a century. No matter how serious and obstinate the nature of your cold, or how many remedies have failed, you can be convinced by a fair trial that the ideal remedy for such conditions is

PISO'S CURE

A Boston Touch.

Once upon a time DeWolf Hopper met a Boston person in that town whom he had not seen for a long period of duration.

"Hello! How are you? Where have you been?" said Hopper in his hearty way, goying the New York pronunciation to the word "been."

"Please don't say 'bin,' but 'been,'" pleaded the Boston person, plaintively. "Sorry, but I can't," pleaded the big fellow. "I never had a bean in my mouth in my life, not even in Boston."—The Bohemian.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Accounting for the Size.

"Do you remember that hat you sold me yesterday afternoon?" said the man entering the hat store.

"Very well, sir," replied the clerk.

"Well, when I got home I found it too small for me."

"I suppose you didn't get home until morning,"—Yonkers Statesman.

FITS St. Vitus' Dance and various spasms permanently cured by Dr. J. J. Moore's Great Nerve Restorer. Send for FREE \$2.00 trial bottle and treatise. Dr. R. H. Kline, Ltd., 311 Arch St., Philadelphia, Pa.

The Unattainable.

The fiery orator was predicting that the bank guaranty scheme would win yet, in spite of everything.

"But can you guarantee that the slot machine will deliver the stick of chewing gum?" demanded his hearers.

Completely nonplused, he changed the subject.—Chicago Tribune.

John Wouldn't Be There.

"I canna' leave ye thus, Nancy," a good old Scotchman wailed. "Ye're too auld to work an' ye couldna' live in the almshouse. Gin I die, ye maun marry anither man, wha'll keep ye in comfort in yer auld age."

"Nay, nay, Andy," answered the good spouse, "I could na' wed anither man, for what wad I do wi' two husbands in heaven?" Andy pondered long over this; but suddenly his face brightened.

"I hae it, Nancy!" he cried. "Ye ken auld John Clemens? He's a kind man, but he is na' a member o' the kirk. He likes ye, Nancy, an' gin ye'll marry him, 'twill be all the same in heaven—John's na Christian."

FILES CURED IN 6 TO 14 DAYS
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Files in 6 to 14 days or money refunded. 50c.

In the Art Gallery.

Old Lady—Haven't you got any more figures in marble?

Attendant—No, madam; these are all.

Is there some particular one you are looking for?

Old Lady—Yes. I want the statue of limitations I've heard my husband talk so much about.

Getting Back.

Mistress—I suppose you'll be wanting several nights off every week, Norah?

New Girl—Only wan, ma'am. I don't belong to half a dozen lodges th' way yere husband' does, ma'am.—Chicago Tribune.

MAPLEINE

A Flavoring. It makes a syrup better than Maple. Sold by grocers.

HOWARD E. BURTON—Assayer and Chemist, Leadville, Colorado. Specimen prices: Gold, Silver, Lead, \$1; Gold, Silver, Zinc, \$2; Zinc or Copper, \$1. Cyanide tests. Mailing envelopes and full price list sent on application. Control and Empire work solicited. Reference: Carbonate National Bank.

MAKE OLD SILVER NEW

Have you some old, tarnished Knives, Forks and Spoons that look bad? Would you like to have them plated with pure silver so they will look and wear like solid silver?

SEND US YOUR NAME AND ADDRESS

and give us a list of what you have that needs refinishing and we will send you by return mail full information and particulars how to have it done at little cost.

It Doesn't Cost You a Cent to Learn It

Simply send us your name and address, as above, and we will do as we agree.

OREGON PLATING WORKS, Silver Department
16th and Alder Streets, Portland, Oregon

HAVE YOU EVER USED "IMPERIAL" RICE?

Imported Rice, superior quality. Comes in bulk or 5-lb. bags. If your dealer doesn't keep it send us his name and address. We also handle all classes of Domestic Rice at lowest prices. The only Rice Mill and largest dealers on the coast.

PORTLAND RICE MILLING COMPANY
