While there is an abundance of suitable timber in Brazil, it is difficult to find many districts where the trees suitable for lumber are close enough together for profitable work. Transportation causes much difficulty, often making it impossible to transport logs to a mill or lumber to a market.

Lincoln's ancestry has been traced to Samuel Lincoln, who lived at Norwich, England. Emigrating to America, he settled at Hingham, Mass., in 1633. Some of his descendants, who were Quakers, settled in Rockingham county, Va. The president's grandfather removed to Kentucky. Thomas Lincoln, the president's father, was a carpenter.

Venison was selling not long ago in Vermont for 8 cents cheaper than good beef, for the slaughter of deer was unprecedented this year. The usual bag for the state is about seven hundred and fifty, but careful estimates indicate that upward of two thousand deer have been killed. As the meat cannot be taken out of the state except by a hunter from out of the state who has paid a \$5 license fee, most of it remained to afford cheap living while it lasted.

Paris is at present interested in the maharajah of Kapurthala, who is there with his wife, whom he first met in Madrid as a dancing girl. Anita Delgado was graceful and beautiful, and the maharajah lost no time in winning her regard. He took her to Paris to be trained for the position she was to occupy and she developed into a handsome woman of dignity and presence. Later he carried her to his home in India and last winter married her with Oriental ceremony.

In a letter to the Boston Transcript favoring humane education in the public schools, a correspondent says: "In one public school in London, England, where, in the course of twenty years, 7,000 children were given a thorough humane education (during this period, which would make many of these boys men of twenty-five and thirty-five), not one of them was ever arrested for a criminal offense, demonstrating the value of humane education to prevent crime, as well as cruelty."

Mme. Johanna Gadeki has brought to this country a fad that has become quite the rage in Germany, where it was introduced by no less a personage than the crown princess herself. It is a new form of visiting card, containing not only an elaborately engraved border, but a silhouette of the person it represents. The custom calls for a design appropriate to the holder's station. Thus, in Mme. Gadeki's case the prima donna's head is framed in a border of laurel, while a lyre forms the base of the design. The card is not only unique, but exceedingly pretty and effective.

Suspicious.
"A suspicious question," said De Lancey Nicoll, the eminent New York lawyer, discussing a celebrated case. "In fact, one of those suspicious questions which carry their own conviction with them. It is just such a question as a gilded youth asked the head waiter in a Broadway restaurant the other morning. 'Was Blank here last night?' he began. 'Yes, sir,' the waiter answered. 'And,' said the youth, nervously, 'was I with him?'"

His Contention.
"Are you working to-day?" asked a visitor of the poet. "That is, are you going to work?" for it was quite evident that he was not working at that moment. The poet ran his fingers distractedly through his hair. "I have so many ideas," he sighed. "So many, many ideas; but they are all so confused that I really haven't worked for a year or two."
