BEST TREATMENT FOR COLDS

"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderate laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two or a fresh cold is almost sure to be contracted, and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon? For sale by TOLEDO DRUG CO.

The baseball season on Yaquina Bay will open next Sunday at Newport. At that time the Newport team will play the Siletz boys. The following Sunday Elk City is scheduled to play Newport at the Resort City. These games will probably draw a large crowd of fans from Elk City, Toledo and Siletz.

Mrs. Fish's millinery opening last Saturday drew a large crowd of ladies of Toledo and the surrounding country. Many pretty hats were on display, and many of the ladies were made happy with an Easter bonnet. Mrs. Fish is always up to date with her millinery, and this fact is appreciated by her customers.

In this issue appears the notice of Road Supervisors E. M. Stanton and Robert Tronson, calling for bids for grading the Toledo-Depeo Slough-Siletz wagon road. The usual good program was heard at the last meeting of the Commercial Club. Miss Florence Wheelock edited and read the club paper which contained the usual quota of club jokes and items of interest. A number of the members were called on for one minute speeches.

The new crab law does not suit those engaged in that remunerative business on the bay. They say the season should have been entirely closed during July, August and September rather than having the shipment out of the county restricted during these months. Those who intend to fish during the closed season for shipping declare they will not cut the price.

The Condor made several trips between Waldport and Newport last week carrying supplies and lumber. The lumber orders have been turned in so fast that it has been impossible to keep up and the mill was run several nights last week. Even the logging camps had to operate at night and some special orders were cut for the new electric light plant at Newport. The logs for these were cut night of the sixth and the timbers were delivered in Newport on the seventh.

All the school children and their friends turned out last Friday afternoon to work on the school grounds. A number of stumps were removed and the brush was taken from a large portion of the school grounds. A big pile of brush was built for the purpose of having a bon fire in the evening but a slight rain came up and the fire was postponed. A number of the band boys assisted in the work.
