

Pure Blood in Spring

Is certain if you take Hood's Sarsaparilla. This great medicine cures those eruptions, pimples and boils that appear at all seasons; cures scrofula sores, salt rheum or eczema; adapts itself equally well to, and also cures, dyspepsia and all stomach troubles; cures rheumatism and catarrh; cures nervous troubles, debility and that tired feeling.

Mrs. J. F. Gee, 50 Gould street, Stoneham, Mass., says: "In 25 years' experience I have never known Hood's Sarsaparilla to fail, for spring humors and as a general blood purifier. It gives me pleasure to say this."

Mrs. L. Bickford, Gossville, N. H., says: "Every spring I was completely prostrated, run down, from dyspepsia and that tired feeling. But I have found Hood's Sarsaparilla helps me from the first dose, completely restores good health and strength." Begin to take

PRODUCTS OF FLORIDA.

Oranges Not the Only Fruit Grown in That State.

Florida is nearly as large as all New England, and of course there is a great diversity of employment, says Outing. In the northern counties corn, wheat, oats, peaches, pears and apples dominate; in the center we find most of these products growing side by side with oranges, lemons, loquats, sweet potatoes and cassava; and in the southern counties we are among pineapples, avocados and other strictly tropical fruits and vegetables. The trucking region is therefore closely associated with orange growing and other citrus products. You cannot drive anywhere about Sanford without coming upon yards that are filled with these golden fruits. Grape fruit hanging six inches in diameter and in huge clusters bends its trees over sometimes to the very soil. Peaches are as common as oranges and when you get a little nearer the hilly or sloping lands to the west large peach orchards stand in January and February bursting into bloom. In March you will find a few ripe fruits, but the remarkable crop comes not earlier than April and May. The mulberry fills up March and is the first one of the southern fruits to ripen. You will find it everywhere; varieties that do not seem to have found any place in our northern gardens as yet. The fruit is from one to two inches long and three-quarters of an inch in diameter. Nearly every bird in the heavens and every animal on the earth likes the mulberry, and for my part a mulberry pie is the only rival I have yet found for a blackberry pie. My whole being turns into a poem when I think of it. You should have just pulp enough not to let the juice run away and the pie show no signs of stinginess.

Master—John! Servant—Yes, sir. Master—Be sure you tell me when it's 4 o'clock. Servant—Yes, sir. Master—Don't forget it. I promised to meet my wife at 2:30, and she'll be provoked if I'm not there when she arrives. —Answers.

Gunner—You can't get the best of those blamed baggage-smashers. I labeled my trunks "China" and thought they would handle them with unusual care. Guyer—And did they? Gunner—No, but blamed if they didn't ship the trunks all the way to Shanghai and I haven't seen them since. —Chicago Daily News
