### MANUFACTURERS BUILDING.

On the eastern side of Geyser Basin, at the Alaska-Yukon-Pacific Exposition, the handsome Manufacturers Building looks across the restless waters of the Cascades and the flashing foam of "Old Faithful," the reproduction of its namesake in Yellowstone National Park.

Its location is the most central of any of the exposition buildings, and its architectural design is especially fitting for the position it has been given. It was one of the first great exhibition palaces to be completed, and before the end of last year was ready for the reception of its vast collection of exhibits. It will house a magnificent assortment of the highest examples of man's ingenuity and invention, and within its walls will be gathered specimens of manufactured articles from the workshops of every nation of importance in the world.

It overlooks the finest of the formal gardens of the exposition, and its splendid line of pergolas, with their vine-covered columns and blossoming flowers, complete a restful and pleasing view. At no part of the grounds can be seen a more beautiful illuminating effect than is presented from the open pergolas during the late evening and early night. A million sparkling electric bulbs flash their white lights through the waters and, scattered throughout the greenery, hundreds of electrolights mingle their many hues with the riot of colors. Looking down the gentle slope of Rainier Avenue the floating craft of two lakes is brought into vision and adds the delights of a broad, light-sprinkled stretch of forest-enclosed waters to the whole effect.

### A PORTION OF THE CASCADE COURT.

The Palace of Oriental Exhibits forms one of the twelve mammoth display buildings first completed by the Alaska-Yukon-Pacific Exposition. Its lines are in pleasing contrast to the Agricultural and Manufacturers buildings, with which they are grouped, and their position overlooks the beautiful formal gardens and water display of the Cascades and Geyser Basin.

The exhibit placed within the walls of the Oriental building constitutes one of the most gorgeous displays of Far Eastern art and manufactured articles ever shipped from the Orient, and is bewildering in beauty and extent. Not a country of Asia is without representation, and treasures of old and modern art, never before permitted to leave the lands in which they were created, will be seen for the first time in the land of the Occident. The matter of arrangement of the Oriental exhibit has been placed in the hands of the most competent and artistic men at command and its display will be worthy of the magnificent collection.

About the Oriental building are gathered the great buildings housing the United States exhibit and the Alaska, Hawaiian and Philippine displays. One of the largest bandstands is within close distance, and from its doors the most noted musical organizations of the world will be heard daily.

figuring on purchasing for road work. The Court believes the county can build the Toledo-Siletz wagon road much cheaper than the bids that were presented at the recent term of court.

### Telephone Lines Combine.

At a meeting of the stockholders of the Mutual Telephone Company held in Toledo Tuesday evening the directors were instructed to accept the proposition of the Lincoln County Telephone Company, to sell their lines to the Mutual Company. The lines will probably soon be taken over by the Mutual people and connected with their lines. This will make the Mutual Company stronger, who will have practically all the telephone lines in the county. The public will be better served, as it will not be necessary to have two phones in order to reach all parts of the county and the outside world.
