

Lincoln County Leader

OFFICIAL COUNTY PAPER

COLLINS & HAYDEN, PUBLISHERS

AUGUST 20, 1909

Base Ball Sunday August 22.

Next Sunday Siletz and Elk City are scheduled to cross bats on the Toledo diamond. These are the two strongest and best teams in the county and will certainly put up a good game. A large attendance is expected.

See Dalaba, at Elk City, for your dairy farms.

Stephen Stratton was over from the Siletz the first of the week.

L. Southworth was up from Waldport the first of the week.

J. E. Wilson and T. W. Irwin of Chitwood were in the city on business yesterday.

Ira Wishart and Al Waugh left Wednesday on a fishing expedition to the upper Siletz.

\$22 for an Edison Phonograph, plays both two and four minute records. Toledo Drug Co.

T. H. Gildersleeve was a passenger up the line yesterday morning, returning on the noon train.

Mrs. Frank Brown and son of Salem are visiting here with Mrs. Brown's uncle, F. M. Stanton, and family.

Mrs. A. T. McBride of Oregon City arrived Wednesday evening for a visit with her daughter, Mrs. Frank Newton.

Prof. and Mrs. A. H. Weber and children returned Tuesday evening from Brownsville where they have spent the summer.

Renus Arnold, Dye Wade and Fred Stanton returned Wednesday evening from a week's hunting trip in the Euchre Mountain country.

Mrs. Charles Morris came over from her home at Harrisburg Wednesday for a visit with her parents, Mr. and Mrs. J. H. Ross of this place.

The Ladies Aid Society will meet at the church next Tuesday, August 24. All members are requested to be present. Mrs. Myrtle Harding, Secretary.

Mrs. Ella Johnson returned home yesterday morning after a few weeks' visit with relatives and friends in this vicinity. Her father, Wm. Crawford accompanied her home.

At The Fair.

Remember that the School Board's Convention will be held September 8th, the first day of the fair, will be one of the events that will be worth your while to attend. The arrangements are all made. We are now only waiting for the time to come. It will be the first of the kind held in the county, and we wish to make a success of it. The chairman of the board of each school district, in the county, ought to attend and as many of the others as can. Questions of interest will be discussed and we will be told how to better our educational conditions. Each part of the county will be represented by a speaker who will give the conditions as they are in his part. Prof. L. R. Alderman of the U of O will be present to answer all questions and help in all other ways possible. Supt. H. L. Mack of Benton county will also be here to tell us how they do things in his county. I have been told by ex-superintendent G. W. Denman, of Benton county, and others who seem to know, that Prof. Mack does things, now he is coming to tell us that we may do likewise. In the past the money matter has been the great question in all the districts. The Hawley bill has relieved us of that, but we have to use the same old buildings, desks, maps, or other rudely made apparatus or replace them with the more modern. Should the school house be repaired, weatherboarded, painted, should there be window boards in the windows, should the grounds be fenced and cleared, these and many more, more difficult questions we are asking ourselves every day. They will all be discussed at the convention and we will be told what to do to better our conditions. So I will say to the members of the board come, that you may learn what to do to make your school equal to the best.

R. P. GOIN, School Supt.

Should be Knocked

Out in the Courts.

It would not take a Philadelphia lawyer to knock out the Oregon game law. It is about as full of holes and legal contradictions as it is possible to make a law. The textile fabric doing duty as legislative brains that enacted such a malformity must be thinner than cheese-cloth. The law imposes a tax of ten dollars on a citizen of another state and only two dollars on an Oregonian. Yet the consti-

tution of the United States forbids just such legislation as that and so does the Oregon constitution. And the law attempts to tax and regulate males and not females, and as females are citizens, the Oregon constitution would knock the law galley-west right there. Laws raising revenues and imposing taxes must originate in the house, and obnoxious, bifurcated, misdemeanor in the form of legislation originated in the senate, the home and birthplace of legislative idiocy in general. There are other reasons why the law would be knocked out in the courts and it should be done before the people lose all respect for legislation and become a commonwealth of law breakers. A fund should be raised to take in into the courts and The Capital Journal will publicly advocate the repeal and nullification of the features known as the fisherman's angling license tax.—Salem Capital Journal.

Chitwood

Miss Nora Wood met with a very sad accident last Sunday evening. On returning home from the beach she went to jump out of the wagon and as she did so caught her foot on something which threw her out of balance and she fell heavily to the hard ground striking her throat on a box causing paralysis of the vocal organs so as to make her unable to talk. Dr. Foster of Corvallis was summoned and found her in a very

critical condition. At present writing it is doubtful as to her condition but we hope for the better.

Mr. Shipton and family late from Colorado came in on the train Wednesday and are visiting his old friends J. E. Wilson and wife. He talks of locating in this county if he can find a suitable place.

Thos. Cook of Los Angeles is visiting his brother, W. N. Cook. He with his wife have been visiting in Michigan the past month. They returned to California by this route to take a look at Oregon.

A Word to School Boards.

Should you wish to purchase apparatus of any kind, especially desks, I would say that I think I can save you money if you will have me order it or I will furnish you catalogues that you may do the ordering. There is a great difference in the price of different companies. Should you want the best and get it cheap, write me or call at the office and see what I have.

R. P. GOIN.

School Superintendent.

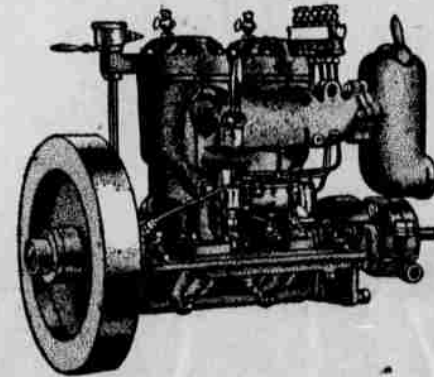

O. G. Dalaba of Elk City was in the city Monday.

Mrs. Chas. Litchfield and children returned to their home at Newport yesterday after a visit with her parents at this place.

G. B. Ryan of Ona is in town today.

The Ferro

The Best That Money Can Buy

3 to 25 H. P.

1 to 3 cylinders

3 h. p. outfit complete for salt water only \$72

The greatest engine value for the money ever offered. Do you know that all of the principal boat factories of the U. S., who do not manufacture their own engines, are using the Ferro engine? Why? Because they have used many kinds and found that the Ferro gives the best satisfaction.

Here are some of the factories that have passed the experimental stage and use Ferro engines: W. H. Mullins & Co., Outing Boat Co., Cleveland Auto Boat Co., Memphis Boat Co., Pope Boat Co., Rippley Steel Boat Co., Inland Lakes Boat Co., W. J. Hand Co., Niagria Boat Co., Pioneer Boat and Pattern Co., and the Packard Motor Yacht Co. The Ferro must be first class or these people would not stake the reputation of their boats upon it. It is up to you to profit by other people's experience. Get a Ferro and be convinced.

R. D. BURGESS, Agt.
