Then He Hugged Her.
The Male Graduate—I propose to girdle the earth.
The Female Graduate—Why do you begin on such a big thing?

Extreme Conservatives.
It is the habit of some people to condemn everything they are mentally incapable of understanding, and then insist upon calling it "conservatism" instead of ignorance.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

A Sad Lack.
Speeder—That auto of mine doesn't go fast enough.
Roaster—What's the matter?
Speeder—Several victims have complained that they knew what struck them, which means something defective. And I am not cruel.

Suicide for a Scorpion.
If a scorpion finds himself licked by a centipede, which is usually the case, though both little things put up a desperate fight, the scorpion commits suicide. It twists its tail portion and stings itself in the back of the neck and drops dead.

To Break in New Shoes.
Always shake in Allen's Foot-Ease, a powder. It cures hot, sweating, itching, swollen feet, corns, ingrowing nails and bunions. At all druggists and shoe stores, 25c. Don't accept any substitute. Sample mailed FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Of all the boy workers in London, newsboys are the healthiest, barbers' boys the most unhealthy—a tribute to the open-air life.

With His Usual Thump.
Mrs. Jenner Lee Oudego—Did you feel that earthquake shock this morning?
Mrs. Seldom Holme—Very distinctly; but I thought it was my husband getting out of bed.

Looking Ahead.
"Old chap, what are you growing those umbrageous side whiskers for?"
"I'll tell you if you won't say anything about it. I know of a big department store where there's going to be a vacancy in the floorwalker's job in a few weeks, and I'm going to apply for it."—Chicago Tribune.

From the Servants' Table.
Van Antler—I think we are sure of a good dinner to-night. You know my new English butler does the entire catering for the household. Grubb—Can you rely on him to—? Van Antler—Not always, but this evening I requested him to send us up something from the kitchen table.—Puck.

Preserving "Don'ts."

Don't use cold water for jellies; measure the strained fruit juice; for every pint allow one pound of the best granulated sugar, put it on a platter in a warm oven to heat and add it to the boiling water.

Don't put hot preserves in cold glasses or jars and not expect accidents; place the glasses or jars in scalding water, rinse well and fill as quickly as possible.

Don't allow preserves to stand about after they are cold, but put melted paraffine on and cover with the lids, wash off every trace of stickiness and put in cool, dark place until ready to be used.

Don't allow preserves to cook over a hot fire and not expect them to scorch or burn.

Don't let them cook without stirring even when the fire is slow.

Don't cook preserves on a gas stove without an asbestos mat.

Don't use a steel knife to pare fruit with; use a silver knife.

Soap for Removing Spots.
Chip three-fourths of a bar of good laundry soap into one or two gallons of water; let stand over night till dissolved. Then add three ounces of white sugar, two ounces of honey and one and one-half ounces of turpentine and boil together till it drops off the end of a spoon. Remove from fire and let cool. Then cut into bars. This is an excellent soap for cleaning men's clothing and washing all woolen and cotton fabrics, as it restores the colors.

Italian Ice.
Put two cups of granulated sugar and one quart of water on to boil, add two cloves, a tiny bit of mace and the shaved rind of one-half a lemon. Boil ten minutes and turn it over one quart of fresh raspberries. Add one heaped tablespoonful of gelatine which has been soaked in cold water till soft, and the juice of two lemons. Strain through cheesecloth and when cold turn into the freezer and freeze as usual.

Removing Fruit Jar Covers.
Fruit jar covers may be removed from the jar by filling a small pan half full of hot water, inverting the jar in it, and letting it stand a few minutes. The cover can then be easily removed and is as good as new. By the old method of inserting a knife under the rubber, the cover is often bent, and will cause the loss of fruit if it is used again.—Success.

Dutch Onion Pie.
Slice six onions, fry in butter to delicate brown, add one-half cupful of milk, one-half cupful of cream, one tablespoonful flour; one well-beaten egg; salt to taste. Have ready a baked pie crust in the usual pie pan and pour in onion mixture. Return to oven and bake to good brown. White of egg may be added to top.

Chicken Bouillon.
A delicious bouillon results when a few bones and pieces of veal and beef are cooked along with the fowl, which is placed in the pot entire, to be oven-baked later as a separate dish. The broth is to be cleared with white of egg and served with squares of butter-browned toast. Bouillon should be highly flavored, aromatic and of a clear amber color.

Egg Biscuit.
One quart flour, three teaspoonfuls of baking powder, pinch of salt, one-third cupful sugar, piece of butter size of an egg; mix with one cupful of milk to a soft dough, add two well-beaten eggs, mix and roll out and cut in small biscuits, bake in a quick oven.

Green Currant Pie.
Stew and mash one pint of green currants until the skins of all are burst, using as little water as possible, and not have the currants burn; add sugar enough to make it very sweet and one soda cracker rolled fine. Bake between two crusts.

Short Suggestions.
A tasty addition to ham sandwiches is a pickle or two minced with the cold meat.

A dainty fruit salad is made of white cherries, bits of orange and bananas, served on lettuce, with French dressing.

For a change add to the scrambled eggs half a dozen mushrooms cut into bits and cooked in a teaspoonful of butter with half a green pepper minced fine.

By salting the water when poaching eggs they are rendered whiter and clearer than without this help. A certain French cook adds half a tablespoon of vinegar to every two quarts of water when poaching eggs.

PILES
"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. LEADER PNEUMATIC WATER SUPPLY SYSTEMS FOR COUNTRY HOMES
The best and most logical method of furnishing water yet devised. The tank is placed in the basement or in the ground near the house and keeps the water cool in summer and proof against freezing in winter. It never leaks. It is impossible for impurity to get into it. It outlasts the building in which it is installed. It costs a little more to begin with, but there is no second cost. We have a catalogue which illustrates and describes the Leader system. Ask us for it.
