

Bad Breath

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."—Chas. H. Halpern, 114 E. 7th St., New York, N. Y.

Pleasant, Palatable, Potent, Taste Good, Do Good. Never Sickens, Weakens or Grips. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. C. Guaranteed to cure or your money back. 23

Must Keep Awake.

"When you gits a job o' work to do, sor," said Uncle Eben, "don't imagine you's a chicken on a roos' an' kin hold yoh position by g'line fas' asleep."—Washington Star.

Proof of Love.

"So you think he's really in love, eh?"
"No doubt about it. Why, he thinks she's attractive in auto goggles."—Louisville Courier-Journal.

Standing on His Rights.

Police Justice—Have you any way to making a living?
Vagrant—I hev, y'r honor. I kin make brooms.

Police Justice—You can? Where did you learn that trade?
Vagrant—I decline t' answer, y'r honor.

HOUSEHOLD TALKS
Clothespin Is Improved.
If asked the question, the majority of housewives would say that the common clothespin was perfectly satisfactory in its present form. Nevertheless, a decided improvement can be made in these laundry accessories. The improved pin resembles somewhat the clamps used by photographers to support wet prints while drying.

They are made so that any number can be placed on a clothesline, being movable in either direction. The clothes are supported by the small jaws, the grip being decidedly firmer than in the ordinary clothespin. In addition the clothes do not come in direct contact with the clothesline and cannot become soiled, as is often the case with the ordinary line. They are also easier to handle and, after the clothes are removed, are allowed to remain on the line.

Orange Fool.
Peel five oranges. Cut into thin slices, pour over them a heaping cupful of sugar. Boil one pint of milk, add while boiling the yolks of three eggs, one tablespoonful of cornstarch made smooth with a little cold milk. Stir all the time. As soon as thickened, pour over the fruit. Beat the whites of eggs to a froth, add two tablespoonfuls of powdered sugar, pour over the custard and brown in the oven. Serve cold.

Egg Sandwiches.
Mash the yolks of hard-boiled eggs to a powder and moisten with olive oil and a few drops of vinegar. Work to a paste, add salt, pepper and French mustard to taste, with a drop or two of tabasco sauce. Now chop the whites of the eggs as fine as possible (or until they are a coarse powder) and mix them with the yolk paste. If more seasoning is necessary, add it before spreading the mixture upon sliced Graham bread.

Blackberry Catsup.
Cover mashed berries with boiling water, simmer fifteen minutes, mash again and strain. Allow to each quart of juice a half-teaspoonful each mace, cinnamon, pepper and white mustard. Cook down to about a quarter of the original quantity, add pure white wine or cider vinegar to make strength and consistency required, bottle and seal while hot.

Value of Pimientos.
Not every one is as familiar with the canned Spanish red peppers (pimientos) as they should be. The peppers are tasty additions to soups, salads, etc., and are delicious stuffed with bread crumbs, rice or meat or fish mixtures and served as an entree, or served whole as a garnishment and relish with the steak.

Save Mustard Glasses.
Save your prepared mustard glasses to use for holding soda, baking powder, cream of tartar, etc.; print labels for same with ink in large, clear letters, or have typewritten if possible; and in order to prevent them from being rubbed off when washing them paste the label inside the glass.

Corn Oysters.
Three-fourths of a pint of grated corn, yolk of one egg, salt and pepper to taste. Just before frying add beaten white of the egg, and if the corn is very dry, add a little cream or rich milk. Drop in hot fat from a tablespoon—about the size of a large oyster, and fry brown.

Olive Oil Hint.
As soon as a can or bottle of olive oil is opened put in two lumps of loaf sugar to the pint. Keep in as cool a place as possible. The sugar does not change the taste of the oil. Always treat it in this way and the last in the can is as delicious as the first.

Short Suggestions.
A little wire broom is excellent for cleaning the horseradish grater.
A can of condensed milk keeps better if the top is left open, admitting the air.
Spermaceti added to boiled starch gives the goods a gloss; borax makes the starch stiffer.
Pineapples should be sliced first, and then pared. In this way the eyes may be removed with less waste.
Do not wash white silk knit underwear with warm water or resinous soap. It must be washed in tepid water, with white soap, and ironed dry, otherwise it will turn an ugly yellow.

White Steamers Use Kerosene as Fuel

THE WHITE STEAMER WHICH MADE A SUCCESSFUL PUBLIC DEMONSTRATION OF KEROSENE AS FUEL ON THE RECENT 2650-MILE GLIDDEN TOUR.

The most interesting announcement ever made in connection with the automobile industry was undoubtedly that made a month or two ago to the effect that the new models of the White Steam Cars could be run on kerosene, or coal oil, instead of gasoline. Everyone at once recognized that the use of the new fuel would add materially to the advantages which the White already possessed over other types of cars. There were some people, however, who were sceptical as to whether or not the new fuel could be used with complete success and, therefore, the makers of the White Car, the White Company, of Cleveland, Ohio, determined to make a public demonstration of the new fuel in the 1909 Glidden Tour.

From the standpoint of the public, no test more satisfactory could have been selected. First of all, the distance covered on the Glidden Tour, from Detroit to Denver and thence to Kansas City, was 2650 miles. This was certainly more than sufficient to bring out any weaknesses, if such had existed. Still more important was the fact that the car was at all times while on the road under the supervision of observers, named by those who entered other contesting cars. Therefore, it would have been impossible for the driver of the White to have even tightened a bolt without the fact being noted and a penalty inflicted. At night the cars were guarded by Pinkerton detectives and could not be approached by any one.

The complete success of the new fuel while on this 2650-mile public test and the advantages gained through its use were well described in the following dispatch which the correspondent of the New York Sun sent to his paper at the conclusion of the tour:

"A feature of the tour which was watched with special interest was that the White Steamer used kerosene, or 'coal oil,' as fuel instead of gasoline. The new fuel worked splendidly throughout the 2650-mile journey, and all claims made in its behalf were fully proven. First of all, as regards cheapness, the White driver secured kerosene all along the route from 6 cents to 10 cents cheaper per gallon than was paid for gasoline. Secondly, the new fuel was handled without any precautions, and it was not unusual to see kerosene being poured into the fuel tank while the crew of the car and an interested crowd stood by with lighted cigars and cigarettes. At the finish of the tour, the White was the only car permitted by the authorities to enter Convention Hall, where the technical examination took place, without draining its fuel tank. Thirdly, the new fuel proved to be absolutely without smoke or smell. Fourthly, kerosene could be purchased at whatever part of the route was most convenient, and not once during the trip through the ten States of the Middle West was there found a grocery store where kerosene was not readily and cheaply obtainable. Finally, the

amount of fuel used on the trip showed that kerosene is at least fifteen per cent. more efficient, gallon for gallon, than gasoline. The car in other respects made a most creditable showing, and there was the usual rivalry among the observers to be assigned to the White so that they could ride with the maximum of comfort. The only adjustments or repairs charged against the car during the long trip were tightening a lubricator pipe and wiring a damaged mud guard. These penalties were not inflicted until more than 2000 miles had been completed with an absolutely perfect score."

A particularly interesting feature of the new White Steamer is that either kerosene or gasoline may be used as fuel. The necessary adjustments so that the fuel may be changed from kerosene to gasoline, or vice versa, may be made in a couple of minutes; but so completely successful has kerosene proven to be, that it is not believed that any purchasers will care to use gasoline.

The White Company report that the demands for their new steam cars—both the \$2000-model and the \$4000-model—exceed their most sanguine expectations. It is evident that the combination of steam—the power which everyone understands and has confidence in—with kerosene—the fuel which everyone has on hand and can handle without any danger—is thoroughly appreciated by up-to-date purchasers of automobiles.

Rare Experience.
Sunday School Teacher—Now, Danny, what do you understand by "righteous indignation"?
Danny—Gettin' mad without sayin' any cuss words.—Boston Transcript.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

In Paris there are thirty-two miles of underground railways, which carry 35,000 passengers a day. Twenty-five miles more road are under consideration.

Strong Winds and Sand Storms cause granulation of the eyelids. PETTIT'S EYE SALVE soothes and quickly relieves, 25c. All druggists or Howard Bros., Buffalo, N. Y.

Hemmed In.
Rankin—Why don't you open a savings account?
Fyle—I guess I'll have to; they've shut down on me where I've been running a spending account.

Realistic.
Maybelle—That tall, slender chap went on the stage made up as a woman? How did he look?
Glady's—Strictly up to date. You know, he hasn't any hips.

Cost Too Much.
Meenster—And why didn't ye come to the kirk last Sabbath? Sandy—I had nowt but a shillin' in my claes. That's ower muckle siller to pit in th' contribution box all at ain time.—Cleveland Leader.

Well Supplied.
"I find it hard to kill time," declared the pampered pet. "I only have my music, you know. How do you manage?"
"Oh, I do very well," answered the other girl. "In addition to my music, I have my sweeping, my dusting, my sewing and my dishwashing."—Louisville Courier Journal.

CRESCENT BAKING POWDER
A pure phosphate baking powder that does all that the high priced baking powders will do and does it better. It raises the dough and makes lighter, sweeter and better risen foods. Sold by grocery stores 25c per pound. If you will send us your name and address, we will send you a book on health and baking powder. CRESCENT MFG. CO. Seattle, Wn.

PUTNAM FADELESS DYES
Color more goods brighter and faster colors than any other dye. One 10c package colors silk, wool and cotton equally well and is guaranteed to give perfect results. Ask dealer, or we will send post paid at 10c a package. Write for free booklet. MONROE DRUG COMPANY, Quincy, Illinois.

MAPLEINE A Flavoring. It makes a syrup better than Maple. Sold by grocers.

HAMLIN'S WIZARD OIL GREAT FOR PAIN THE OIL THAT PENETRATES

THE CRY FOR CREAM

is constantly increasing. The big creamery companies are constantly on the lookout and are offering good prices. A great many dairymen are buying more cows instead of trying to get all the profits possible out of those they now have. They seem to think about all that they can do is to run the milk through a cream separator, never stopping to consider whether the cream separator is doing its duty as it should. If its an old-fashioned, out-of-date or cheap machine it can't get all the butterfat—it wasn't intended to. Your dairy profits can be increased from 6 to 25 per cent by the use of

A NEW IOWA CREAM SEPARATOR

The Separator that has won recognition by the three last expositions, St. Louis, Portland and Jamestown, and has the endorsement of all the leading dairy experts. Its use actually means the saving of a great amount of cream. It also means that your cream makes better butter and never has that separator taste peculiar to cream skimmed by other machines. This is because the Iowa is so easily cleaned and never becomes choked up with filth and dirt. Among its many advantages are these—wast-
low supply can; enclosed gearing; ease of operation; adjustable crank; neat appearance; interchangeable parts; etc. IT IS POSITIVELY THE CLOSEST SKIMMER ON THE MARKET. Send for catalogue.
