Important to Road Districts.

The new law gives new rulings for holding district road meetings, and voting special road levies, for the special improvement of county roads by district taxation. It reads as follows: The taxpayers of any road district in any county of this state may vote an additional tax for road purposes, providing at least ten per cent of the tax payers of said district shall give notice by posting notices in three public places in said road district, and one in court house, and publish one notice three weeks in one weekly newspaper of general circulation, signed by at least ten per cent of the tax payers of said road district, giving the time, place and object of said meeting, which meeting shall be held in the month of December, and at the time of said meeting it shall be organized by the election of a chairman and secretary, and at such meeting they may by a majority vote of such taxpayers, levy such additional tax as they may deem advisable to improve the roads of said district, and if a tax be levied it shall be the duty of said chairman and secretary to certify to the county clerk of such county, prior to January 1st, the levy so made by the taxpayers of said district, and the county clerk shall compute and extend said levy on the assessment roll for that year the same as other taxes are extended, and it shall be the duty of the tax collector to proceed to collect said taxes in money the same as any other taxes are collected, and turn the same over to the county treasurer in the same manner and at the same time he pays over other taxes collected by him, and shall be credited and kept by the treasurer to the account of the road district making such levy.

Filed in the office of the Secretary of State February 23, 1909.

Apportionment of School Funds

The October apportionment of the school funds for 1909 is very small. Each district should have received \$100 from the county fund, and all the districts that have hired a teacher that attended an annual teachers' institute or the teachers' association sixteen hours in the past year, should have received \$105. As there are forty-three districts that are entitled to the \$5 and 19 that are only claiming a right to the \$100, it makes a total of \$6,415. This amount I should have to give each district, the sum that the school laws says it ought to have, but when the Treasurer gave me the statement, stating the amount of school money on hands, it was \$875.82—\$5,539.18 less than I needed to make the right apportionment. The state money there was \$2,770.08 of it, or \$1.75, nearly, for each child of school age in the county.

With the amount that I had I did the best I could for each district. Each district that used at least 85 per cent of what they received last year for teachers wages got \$25 from the county fund and \$1.75 per pupil, in the district, from the state fund. The districts that did not use the 85 per cent for teacher's wages had the balance deducted from what would have been theirs, on the first Monday of October, had

We are also Agents for the White Sewing Machines

they used it. There are six districts that did not use the 85 per cent. Some of them lacking \$74.92 of it.

I think I can say with some certainty, that each district in the county will receive, including what they had on hand, at least \$300 from the county fund besides what they receive from the state fund. The school law says that if the \$7 per capita tax fails to give the required amount, then the county court shall take out of the general fund of the county a sum sufficient to give each district the \$300.

So I can say that though your warrant was small this Fall it will not be so in the Spring.

R. P. GOIN,
County School Superintendent.

Down in the Salmon River country and on the Yachats they have a fine material for road building. Along the beach at these places are acres of shells, put there by the Indians and it must have taken years—probably centuries—to accumulate such a vast amount. In some places these shells are ten feet deep and cover many acres. There is ample at the mouth of each of these streams to furnish dressing of the finest quality for miles of road. The shells are easy to handle and when spread on the road make a smooth, hard surface and will never wear out. At Yachats they already have nearly two miles of shell road completed, and will build more next Spring, while several miles have been built at the mouth of Salmon river.

An Old Fashioned Bee.

At Riverside V school, on Big Elk, Saturday, October 16th, there will be a genuine good time, the weather permitting, for the purpose of clearing the school grounds. The school board will furnish a barrel of cider and whoever does the most work will be allowed to drink the most cider.

Among other features of the day will be the raising of the school flag, a spread dinner, and literary exercises and a box social in the afternoon.

Everybody come with a big basket full of dinner, a box for the social, axes, saws, crowbars and prepare to work. We will try to be all done before dark so you may attend to your chores after you go home.

Rev. Brown will be present and preach in the schoolhouse the following Sunday.

The school board extends a cordial invitation to everyone to come.
LAURA TRACHSEL, Teacher.

MONEY COMES IN BUNCHES

to A. A. Chisholm, of Treadwell, N. Y., now. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness, and general debility," he writes. "I couldn't sleep, had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottles restored all my old-time health and vigor. Now I can attend to business every day. It's a wonderful medicine. Infallible for Stomach, Liver, Kidneys, Blood and Nerves. 50c. at Toledo Drug Co.
