THE BEST PLASTER.

A piece of flannel dampened with Chamberlain's Liniment and bound on to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest give it a trial and you are certain to be more than pleased with the prompt relief which it affords. This liniment also relieves rheumatic pains and is certain to please any one suffering from that disease. Sold by Toledo Drug Co.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by Toledo Drug Co.

Motor Boat--

Saved Dr. Cook

Comes to Rescue Twice at Critical Point—30-Foot Launch Tows Schooner "Bradley" and Saves Lives

Experiences from Dr. Cook returning from his polar expedition disclose the remarkable performance of a motor boat in his trip to the far north. This boat not only saved the lives of Dr. Cook and the members of the expedition but also towed the boats of an entire Eskimo village to safety and pulled the yacht "Bradley" out of danger when her engines were disabled.

The motor boat "Farthest North" was taken with the "Bradley" for scouting expeditions and hunting and fishing trips. It was the first motor boat ever taken into the far north and was used in the ice fields and in shallow water where the yacht could not go.

The first rescue work was performed near Oumanoi. The engines of the "Bradley" became disabled in very bad weather. The 30-foot motor boat with a 17 H. P. Ferro motor succeeded in towing her to a safe anchorage. The "Bradley" is a 100-foot schooner of 112 gross tons and this was a very able demonstration of marine engine efficiency. While the repairs were made the motor boat was the only means of communication with the shore and was kept busy taking Dr. Cook and other members of the party back and forth.

When Etah, then the most northern point, was reached, Dr. Cook and a small party in the "Farthest North" went on a scouting expedition in search of suitable winter quarters. Annotok, a town 25 miles farther north, was decided upon by reason of the abundance of furs and food there. Upon returning to Etah, the entire population of that village in the "Bradley" started for Annotok.

A strong wind had raised mountainous seas and on account of the unknown rocks, shallow water and drifting ice, a safe anchorage could not be found for the yacht. The arctic storm threatened to engulf the entire expedition. The motor boat was pressed into service, and with the greatest speed carried to shore the members of Dr. Cook's party, and a large amount of supplies and camp equipment. The boats belonging to the eskimos were towed to shore as the sea was too rough for them to attempt it alone. Dr. Cook says: "The splendid efficiency of the launch proved equal to the emergency, and in the course of about three hours all were safely put to shore in spite of threatening winds and forbidding seas."

Some Doin's of the City Dads.

At the meeting of the City Council Monday evening the regulating of the height of telephone and electric light wires, where the lines conflict, was discussed at some length. The following was agreed upon: On Hill street the telephone wires shall be from 18 to 22 feet above the ground and the light wires shall be from 28 to 32 feet above the ground; on the other streets the light wires shall be six feet above the telephone wires. The Council also asks that the telephone companies put in fuse plugs on all their phones.

The enlargement of the city float was next considered and steps will be taken in the near future to give the farmers who come to town by water larger and better accommodations for landing.

The taking of lights by the city was next discussed in an informal manner. All the councilmen agreed that it would be a great improvement to have our city well

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without an examination. Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trade with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.—take the advice received and be well.
