The new boat recently launched by Elmore & Company to be used in connection with their cannery business paid Waldport a visit on the 23rd.

Mrs. Keady entertained a few friends at progressive whist the evening of the 22nd. There is some talk of organizing a five hundred club for amusement during the winter.

C. J. Smith paid Beaver Creek a visit last Saturday where he was looking up some real estate. There are some fine places on Beaver Creek.

The October number of Waldport Journal contains a poem entitled "Owed to the knocker," and it fits the case to a dot. Mr. Harry Vaughan, of Tama, South Dakota, wrote the poem especially for the Journal.

The Commercial Club program for October 19 was as follows: Duet Under Southern Skies, by Mr. and Mrs. Leslie Evans; A Fish Story, by Prof. Earl Brown; The Tale of a Kangaroo, by Mr. and Mrs. Evans; Reading, Sweet Day of Rest, by Miss Williamson; Club Paper by W. F. Keady. The attendance was fine.

Someone has their eye on the Waldport sand spit. This piece of property was homesteaded long ago but as it was not a very attractive place it was abandoned. The property has now been selected by the State Land Board as School Idemnity land and it is probable it will soon be sold. Someday this property will be valuable for its water front on the Alsea Bay. There is over half a mile of deep water right in front of the place.

REPRESENTATIVE HAWLEY HERE

Visits Lincoln County on Tour of Inspection.

Congressman W. C. Hawley arrived in Toledo Tuesday evening and spent the following day becoming acquainted with the conditions and needs of this locality. In the morning he visited the Olalla dyking dam and the schools. The afternoon was spent on the river. The launch Mud Hen took the party up to the Toner ranch where the dredge, Cheteo, is busy diking. After seeing the dredge in operation Mr. Hawley said that the machine was capable of dredging the bars out of the channel between Toledo and the deep water at Yaquina. This is the most important enterprise to the people of the upper bay, and what the Congressman has been working hard to get an appropriation from the government for. With a few thousand dollars expended for dredging these bars, we will have sufficient deep water to enable schooners entering the bay to come up the river and discharge and receive freight. Mr. Hawley did succeed in getting a bill passed authorizing a survey of the river and supposed the law had been complied with, but when he arrived in Toledo he found that the work had not been done. But that a government engineer had gone hurriedly over the route and reported unfavorably on the project of dredging the river. Why the engineers made such a report without going fully into the matter nobody knows. Mr. Hawley and the people of the bay will continue to work for the government's aid in this matter.

At Woodmen Hall in the evening Congressman Hawley, Mayor, C. E. Hawkins, J. F. Stewart and C. B. Crosno spoke to a crowded house. Mayor Hawkins presided over the meeting and introduced the Congressman, the other speakers needing no introduction to our people, having been residents here for the past eighteen and twenty years and having always been identified with the business and industrial spirit of the county.

Mr. Crosno was the first speaker. He very briefly related the needs and desires of this section. He explained to the Congressman the manner in which the government engineer failed to meet with our people to secure data and other information relative to the dredging of the river, etc.

Mr. Stewart gave us statistics of the amount of timber that is ready to be marketed when the channel is cleared of bars and vessels are enabled to come up the river to get this vast amount of lumber. He mildly roasted the government engineers, and said many other things that will be of benefit to Mr. Hawley in dealing with the conditions here.

Mr. Hawkins, among other things, explained the terminal rate proposition to our people. Mr. Hawkins is in the sawmill business and has made a study of this proposition.

The Congressman delivered one of those eloquent addresses for which he is famous. He held the attention of the audience for nearly two hours, describing the workings of congress, the work he has been doing for Oregon, and intends to do, the development of all Oregon,

and many more interesting subjects. He promised us that he will continue the fight for throwing open for public sale the government lands at Siletz, obtaining a few thousands of dollars for the improvement of the Yaquina river, and any other assistance tending to the development of this section.

Interspersed between speeches Rosebrooks Orchestra very pleasantly entertained with excellent music.

Congressman Hawley went to Newport the following morning and spoke there last evening.

Boost for Lincoln

County Apples.

In order to gain information as to quality and quantities of apples in Lincoln county, I will offer the following cash prizes: \$2.50 for the best box of apples; \$2 for the second best; \$1.50 for the third; \$1.25 for the fourth; \$1 for the fifth and 85 cents each for the next best five boxes.

The object of making this collection is for exhibition purposes, and to create a demand for Lincoln County Apples. The apples should be delivered at Newport not later than November 15. Each apple should be wrapped and carefully packed.

It is desirable that a box be filled with all the same kind of apples, but if one has several fine specimens they wish to exhibit they may fill the box with several kinds (not less than 12 apples of each kind).

The names of the apples and that of the grower should be placed in each box.

The prizes offered is only a small part of the benefit to be derived by growers of the county, and every one should join heartily in the effort.

S. G. IRVIN,

Fruit Inspector for Lincoln County.
