We are Lincoln believed’ Allomextead days the efforts. This plan...}

The stem of the past week is a fact that Oregon does have little water over a year. But what does a little rain amount to, anyway. We have in here the footings in the ground and if we don’t have rain we would have to borrow and, who wants some?

Seven dollars a month per cow is pretty good average for a herd of cows in this part, isn’t it? Mr. Williams is not the only man that can make a good ranch. Even he can and will make his head do better than that. It your cow had a $7 a month producer and she replaced her with one that is costs more to feed out and for a cow cost as last a cow one.

Consider what the roos when she is working, now that her st advertisement and the class of animals. The market value of ‘Hobby’ is about $30 cents and the value her daily produce 25 cents, or more than one twenty fifth part of her own worth. True, her career is short, but long enough for her to earn her money many times over, and that cannot be said of some in this world who have great preten- dence to malignance.

Better roads for this state is the object of the Good Road Association, formed at Portland during the past week with a strong membership. The enterprise will work for good roads legislation, uniform plans of improvement throughout the state and the collection of money for road building. It is planned to collect a fund of $15,000 during the next two years and engage a compara- tively good engineer who shall direct all road work in the state. Much is expected to result from the formation of the association.

Monday the Corvallis & Eddy Railroad Company changed their schedule. Making No. 1 and 2 second, No. 1, being made a station each Monday, Wednesday and Friday returning to Albany Tuesday, Thursday and Saturday. This change is greatly appreciated by the people of this county as when they run a mixed train only it was generally late. The Corvallis & Eddy Company is to make the service the best they possibly can, that the passengers will return, and the public certainly appreciates their efforts.

Speaking of money spent nowadays to advertise anything is the last issue of the Saturday Evening Post advertising the amount of $289,000. That’s going some for a free newspaper. Advertising in the national press is in the hands of many people today. Articles and products which some Cyrus, the manufacturer, would not be readily advertised as there are too many advertisements in the newspapers. This is because there has been that anything of much value could be profitably advertised. The people who do the advertising are the same, but the experts advise that—

Boys, the noble women of the land. The ladies of all ages.

Department Store

THE "HARDWARE" SHOE

"Hard Wear in Every Part" It is made of soft, pliable canvas lined waterproof leather, the finest and most durable of all for heavy wear. It has no felt sides. These shoes are made of mellow leather with waxed thread, double stitched saddle seam and the counter is padded so that in fact every part of the shoe is built to stand hard wear. Comes in either plain toe or tip and in black on tan leather. We believe this shoe will last you much longer than six months, but we guarantee that you will get at least six months’ wear and satisfaction, if you do not bring them back and we will give you a new pair free of charge.
