HOW ONE DOCTOR SUCCESSFULLY TREATS PNEUMONIA.

"In treating pneumonia," says Dr. W. J. Smith, of Sanders, Ala., "the only remedy I use for the lungs is Chamberlain's Cough Remedy. While of course, I would treat other symptom with different medicines, I have used this medicine many times in my medical practice and have yet failed to find a case where it has not controlled the trouble. I have used it myself, as has also my wife, for coughs and colds repeatedly, and I most willingly and cheerfully recommend it as superior to any other cough remedy to my knowledge." Yaquina vs. Newport

There is an old saying, and a very true one, that "he who is good at making excuses is seldom good at any thing else." Those who doubt the correctness of this saying should have witnessed the football game last Sunday at Newport and heard the apologies.

We have no apologies to make for Yaquina, but as a matter of news it may be interesting to some to know of the preparation the team made for the game.

Yaquina's team was made up of several of the train men, two young men from a party of surveyors stopping here, some farmer boys, several of whom had never been in a game, and one young stranger coaxed into the game at the last moment who had never seen a game of football played. To even say they were acquainted would have been far from correct, and to accuse them of practicing together would have been an injustice. To add to this they were to play on Newport's grounds full uneven places, covered with six inches of snow, and new ground to them all. It would seem that when they were willing to disregard all of these disadvantages and go into the game for the sole purpose of furnishing a half day's pleasure to themselves and others concerned, they would be entitled to a square deal at least.

Did they get it? We'll see. Newport's team was made up of men from their town, drilled together, well acquainted with each other and with the grounds.

Newport selected one of their own players, Mr. Bush Davis, as referee. As a referee Mr. Davis is a brilliant exception to the general run, and deserves special attention. The only criticism of him we could make is he was too tender hearted. He would almost weep when he saw Newport's men bucking Yaquina's line and being piled up without moving their ball a yard. But we are able to disregard his little weakness as referee when we consider the splendid coaching he gave Newport's team (although it may have been a little out of place).

The game was interesting, though slightly one-sided. Newport's men deserve special commendation in the way they would get together when Yaquina would rush their line. They would usually stop them allright in two or three rods. It took Yaquina about 15 minutes to make the first touchdown, and was working well towards Newport's goal again at the close of the first half. During the second half Newport's men began to catch onto the game and came very near doing something once or twice that would give their rooters courage to root. Anyway, they put up more resistance and it was well toward the close of the second half before Yaquina was able to bring the ball to within two feet of Newport's goal line. The sight of this was too much for the referee. It nearly broke his heart, and for once his magnanimous disposition got away with him. So he dispensed with the rules and took the ball from Yaquina and gave it to Newport (explaining to Yaquina that he did it to encourage the losing side). During the next play one of Newport's men managed to amble across their line with the ball and drop it, when it was quickly covered by Yaquina's man on the spot. Yaquina then kicked the ball over their goal which closed the game with a score of 11 to nothing in favor of Yaquina.

We must especially mention Allison and Benedict their splendid assistance. Their work was first class in every way and a credit to themselves and the team. Nash did splendid playing throughout the game, and Captain Cronise was always there at the critical time.

Eczema Lodges in the Skin.

NOT A BLOOD DISEASE—CURED BY OIL OF WINTERGREEN COMPOUND.

For many years eczema was supposed to be a blood disease and was erroneously treated as such, but now the best authorities agree that eczema is only a skin disease and must be cured through the skin. The eminent skin specialist, Dr. D. D. Dennis, first discovered the eczema germ and his discovery was quickly taken up by both Germany and France.

To kill the eczema germ and at the same time heal the skin, Dr. Dennis compounded oil of wintergreen, thymol glycerine, etc. The remedy is a liquid not a mere salve, hence it sinks right into the pores of the skin. Washing with this oil of wintergreen compound seems to take the itch away at once; soon the scales drop away and the disease disappears. The prescription has now been used so long as to have proven its absolute merit and we do not hesitate to express our confidence in D. D. D. Prescription. Toledo Drug Co.

ILL HEALTH IS MORE EXPENSIVE THAN ANY CURE

This country is now filled with people who migrate across the continent in all directions seeking that which gold cannot buy. Nine-tenths of them are suffering from throat and lung trouble or chronic cararrh resulting from neglected colds, and spending fortunes vainly trying to regain lost health. Could every sufferer undo the past and cure that first neglected cold, all this sorrow, pain, anxiety and expense could have been avoided. Chamberlain's Cough Remedy is famous for its cures of colds and can always be depended upon. Use it and the more serious diseases may be avoided. For sale by Toledo Drug Co.

After November 1st, 1909, my prices on milk will be as follows: Quart 7½ cents; pints 5 cents. Special rates to hotels.
