What has become of our County Fruit Association? We haven't heard from the organization for quite a while. This is a very important organization and should be kept in working order. During the winter months is the time for the farmers and fruit growers to have their meetings, while there is little to do on the farm.

In last week's issue Hon. Wallis Nash talked to the farmers of the county. Mr. Nash will follow this article with others and they will all be interesting and instructive to our ranchers and farmers. We are always glad to receive for publication the views and suggestions of men like Mr. Nash, who have made a study of all these subjects.

Dr. John McLoughlin and his work in aiding the early settlers at Oregon City will not be forgotten and by a decisive vote, this pioneer city has declared it will maintain the historic home of Dr. McLoughlin as a public monument to his work. This tribute to Dr. McLoughlin will meet with the hearty approval of all right thinking people everywhere.

In some Australian towns it is the custom to offer several valuable prizes every year for the best kept lawn, garden and home. Toledo property owners might encourage the idea, for the attractiveness of a town increases its obtainable prices for building sites. The lot with a shack and a cow grazing in the front yard and perhaps a choice assortment of incans for ornaments, a pell investors, discourages others and depreciates the value of every lot for two blocks around.

"Sneaks and thieves don't advertise", was the text of an immigration sermon recently delivered by a McMinnville minister. He followed this up by showing the value of intelligent publicity work in attracting settlers to the Pacific Northwest and the benefits alike to newcomer and the country settled. Each settler means added wealth to the state and in return the Pacific states offer greater opportunity to the man from the elder sections of the country. The Northwest has a duty to perform, believes this pastor, in bringing people from the overcrowded districts of the East to this land of opportunity and live cities in the Northwest are making the most of these advantages in attracting settlers.

School Meeting.

The special school meeting in district No. 2, held in Toledo on December 9, 1909, levied a ten mill tax—5 mills for the support of the school and 5 mills to apply on the building indebtedness. As the Government in its wisdom has saw fit to make a Forest Reserve of all the taxable timber land lying south of Table Mountain and the Drift Creek school district, thus preventing us from adding more territory for the purpose of taxation, the meeting adopted the inclosed resolution which please publish for the information of any tax payers and legal voters who happened to be detained from attending said meeting. If there are any who did not attend and express their opinion at the time, the board will be pleased to

KEEP ON GETTING THE HABIT

AL WAUGH, Proprietor

A shoe that is tight will hurt your feet and ruin their natural beauty. A loose shoe allows the foot to slip into an unnatural position, which is hard on the shoe as well as the foot. A perfect fit is a snug fit all over the foot. No pinching—no slipping—no rubbing. You can easily get such a perfect fit in the

American Lady Shoe

because it is made on lasts that conform to the natural shape of the foot.

Thirty seven years of shoe making have enabled the Largest Manufacturers of Shoes in the World to produce in the American Lady Shoe quality that is unequalled, styles that are authoritative, and fitting qualities that are positively unique.

Come in and see the new styles for Fall and Winter; and let us fit you in a shoe that is suited to you. We carry a large line of American Lady Shoes, in many styles, sizes, shapes and leathers.
