Jim Hodges is still working on the telephone line. I hear he is going to put in a phone for Willis and Elijah Grant.

The Harlan Independent Telephone company met again at the upper schoolhouse and reconsidered the employment of two linemen and putting in two more phones. It was decided to have but one lineman, he to reside as near the center of the lines as practicable, so John Cameron was elected. He expects to hire the work done. The company then voted to put in a phone for Lillard. This will be convenient as Lillard lives about half way between Grant's place and Blodgett. The phone meeting then adjourned. Again the house was called to order for the purpose of organizing a development club. P. H. Martin was chosen chairman and Porter McClellan secretary. After the object of the meeting was discussed to some extent the club proceeded to elect permanent officers. The temporary chairman and secretary were made permanent officers and B. F. Grant elected treasurer. The day being stormy and the horses standing out in the rain it was proposed we adjourn until the second Monday in February, which will be our regular meeting. We will then begin to build all kinds of imaginary things if not permanent. Will tell you more later.

Fruit Growers Meeting.

The annual meeting of the Lincoln County Fruit Growers' Union was held at the courthouse last Wednesday afternoon. A large delegation of fruit growers from all over the county was present, President Ramsdall presiding.

S. G. Irvin of Newport; N. L. McElwain of Toledo; George Hodges of Elk City; D. B. Ramsdall of Elk City; P. H. Martin of Harlan were elected as directors.

A committee composed of Messrs. Martin, Bell, and Crosno was appointed to revise the by-laws and constitution, and report at the next regular meeting.

Many short but enthusiastic speeches were made by members and others interested regarding the raising and handling of fruit, and the importance of union among the fruit raisers in handling the marketing of the fruit. Mr. Martin of Harlan, who is an old Hood River apple grower, told of the workings of the union at that place and gave some very interesting facts.

Among the good things that he said was that he knew apples could be raised in Lincoln county at least 25 per cent cheaper than they can be raised at Hood River. Mr. Martin also said that when they first began to raise apples at Hood River their lands went up to a hundred dollars per acre, and they thought that was a large price. Now, since the fruit industry there has reached such world wide reputation, the same land is bringing from \$1000 to \$1500 per acre and is not for sale at even that figure. He thinks Lincoln county's lands can be made to command the same prices when the fruit industry is developed as it should be.

P. A. Miller said he had a young orchard which he will have pruned within a few weeks and wanted the union to meet at his place when the work was done. A request will be made to the Oregon Agricultural college to send a representative over to instruct the union on methods of pruning young orchards, and give a practical lesson.

The meeting adjourned to meet at Elk City at their next regular meeting.
