GOOD COUGH MEDICINE FOR CHILDREN.

The season for coughs and colds is now at hand and to much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. F. F. Starcher, of Ripley, W. Va., says: "I have never used anything other than Chamberlain's Cough Remedy for my children, and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by, Toledo Drug Co.

Siletz Homesteader Replies.

Editor LEADER:--I notice an article in the last issue of the Newport News-Reporter asking "Mr. Siletz Homesteader" where we may be found. Some of us in the eastern part of township 10 south, range 11 west can be found on our claims any time and any day, and such has been the case for the past three years. We can be found in Toledo frequently, where we trade, where our roads lead to, and where we can and do earn a part of our living without having to pay a license to secure and hold a job. Even if most of the Siletz homesteaders did skidoo out of the timber as soon they could that is not any reason why we should be unjustly taxed and country school districts deprived of their just share of taxable property.

In reply to Mr. Minthorn will say that it is unfair and unjust for the Newport school district to hold the Siletz territory annexed to it on account of its geographical situation and the needs of the Newport school district or the number of pupils in the district has nothing to do with it. When I attended school I was taught that a narrow channel of water connecting two larger bodies of water was called a strait, but it is beyond my comprehension how a long, narrow strip of land connecting two larger bodies of land, and then only by an error in surveys, can be a straight proposition in the division of territory between different school districts.

As to the legality of the annexation of this territory to the Newport school district that can best be decided by the Courts, if such proves necessary. The people in the adjoining district should arouse themselves and each district petition for its fair share of this territory, which they can certainly secure by united action. Let those interested go to the County School Superintendent's office and examine a map of the Newport and adjoining school district and investigate for themselves the truthfulness of my statements.

In conclusion I would ask Mr. Minthorn to have a map of the Newport and adjoining school districts printed in the News-Reporter to prove that this territory justly

belongs to the Newport school district. He or any other Newporter does not dare to have such a map printed in either of the Newport papers as it is a matter that won't stand publicity. Come, Doc, print a map of your school district, before someone else does it for you, and show your district's fairness to other school districts and the justness in it to us people to be attached to your district and to be taxed to support your city schools. Also explain how it is that the Otter Rock Resort is in the Newport school district, but the people there have to cross another school district to reach Newport.

Yours truly,
SILETZ HOMESTEADER,
In the Newport school district.

Vacancy on School Board.

Lincoln County LEADER:--There is at present a vacancy in the office of School director in the Waldport District and I am informed by one of the remaining directors that the County School Superintendent has decided that it is not necessary to call a special meeting to fill this vacancy, and there are about twelve districts in the County which have only two directors. Inasmuch as Section 104 of the school laws of Oregon provides that "A special school meeting to fill said vacancy shall be called in accordance with section 130" I am at a loss as to why such advice should be given by the superintendent. The law surely contemplates that there shall be three directors in each district, not part of the time, but all the time. I am told that the Toledo district is one in which there is a vacancy.

Section 67 of the school laws provides that "the directors shall visit and inspect the schools from time to time." The monthly reports in the LEADER nearly always show no visits by the school board. Since school opened at Waldport last Fall we have had one visit by a director of our district. Very truly,
Wm. F. Keady.

O. B. DeLaurier after spending most of the Winter on his homestead on the Siletz, departed yesterday morning for his old home in Long Prairie, Minnesota. Mr. DeLaurier expects to returned to Oregon in the near future.
