**COMPLETE**

All new and up to the  
**MINUTE STYLES**

A bigger line than ever

## J. S. Akin

Wm. McDonald left yesterday morning for Montana.

Mrs. Marsh returned home from Portland last Saturday evening.

We have a number of new ads in this week's paper. Read them.

Carl Davis and Commissioner John Kentta were over from Siletz last Friday night.

Miss Marie Meinert came up from Newport last Saturday for a visit among friends in this city.

George Mitty went to his home at Eola Tuesday for a visit with relatives. He will be gone about a week.

A. Hurley and Earl Nye went to Corvallis yesterday morning where they will be further initiated into the Masonic order.

Services next Sunday at St. John's church at 11 a. m. Yaquina at 4 p. m. Everyone welcome. Rev. F. O. Jones, Rector.

Mrs. Henry Gannon and daughter Miss Viola, departed Tuesday morning for a visit with her daughter, Estella, and husband at Spokane, Washington.

Beginning last night the Electric Light company will run an all night service. Steel Evans will run the plant. Con Christiansen, who superintended the installation of the plant and has been operating same, will go elsewhere to engage in the work. Mr. Evans is also a practical electrician.

A representative of the LEADER visited the Altree sawmill Wednesday. They have the dam up Depot about completed and are now operating the mill full capacity, but are short of men. They are saving mostly on a large contract for the railroad company but are also filling a number of orders for lumber for new houses. They expect to operate the mill to its fullest capacity all season.

## We Give Away Absolutely Free of Cost

# "1892" Pure Spun Aluminum Ware

## 15 Days at Our Risk

Buy any piece of this ware from your dealer—try it fifteen days. If in that time you find that all the claims we make for it are not true, and if it is not just as represented, take it back and get your money.

Here at last is the ideal kitchen and cooking utensil—"The Ware That Wears"—made from Pure Spun Aluminum, and guaranteed by the makers to last 25 years with average usage. "Spun" Aluminum, mind you, not cast Aluminum, which will sometimes crack and scale. Spun Aluminum Ware will never crack, peel, scale or break.

Enamel ware is iron coated with colored glass. Iron expands with heat. Colored glass does not, but chips off into the food with dangerous results to those who eat it.

"1892" Pure Aluminum Ware Saves Doctors' Bills.

It enables you to bake bread, pies, pancakes, etc., without grease, which is the great cause of dyspepsia and indigestion. Aluminum griddles require no grease; hence are smokeless and odorless.

"1892" Pure Aluminum Ware Will Not Scorch or Burn

—is easily cleaned, will not rust or corrode. Handsome in appearance. Looks like silver, but weighs only about one-fourth as much, and is light and convenient to handle.

The original and only genuine Spun Aluminum Ware is made by the Illinois Pure Aluminum Co. at Lemont, Ill. Every piece bearing their trade-mark, the Maltess Cross, and marked "1892" Pure Aluminum Ware is absolutely pure, wholesome and hygienic—guaranteed for 25 yrs.

See that you get the right goods and accept no substitute.

For Sale by

**A. ROSEBROOK, Toledo, Oregon**

Pure Aluminum Souvenirs given away free during this sale.

## ENAMEL WARE CAUSES CANCER, SAYS DOCTOR

Tells Homoeopaths Particles From Dishes Start Growths in Stomach.

Special Dispatch to The North American.

ATLANTIC CITY, Sept. 11.

INTRODUCTION of modern enamel ware in the kitchens of the country is responsible for many cases of cancer, was the striking theory advanced by Dr. William H. Dieffenbach, of New York, in a paper entitled, "Observations on the Etiology of Cancer," read before the Bureau of Sanitary Science and Public Health, at which leading experts of the International Homoeopathic Congress met today to discuss questions of public health.

The argument advanced was that chipping of the hard-coated dishes used in preparation of meals allowed minute but dangerous particles of foreign matter to become mixed with the food. These are taken into the stomach, where the cancerous growth is caused by abrasions which they make in the walls of the organ.

—Clipping from Philadelphia North American, Sept. 12, 1906.
