A Carlyle Retort.
An empty headed duke once said to Thomas Carlyle at a dinner:
"The British people, sir, can afford to laugh at theories."
Carlyle, scowling, replied:
"The French nobility of a hundred years ago thought that they could afford to laugh at theorists too. But a man came and wrote a book called 'The Social Contract.' This man was Jean Jacques Rousseau, and his book was a theory and nothing but a theory. The nobles could laugh at his theory, but their skins went to bind the second edition of the book."

Self-Possession.

Mr. Kajones, who had happened to step into the parlor while looking for a book, was just in time to see somebody slip hastily off somebody else's knee.

"Ah, Bessie," he observed, pleasantly, "this is a merger, is it? Or is it a limited partnership?"

"Neither, papa," said Bessie, recovering herself instantly. "George is my holding company—that's all."—Chicago Tribune.

"Not me," replied the matter of fact man. "I have found waiter tipping more satisfactory when I'm hungry."—Boston Herald.

Will Get It.

"You should insist," said the doctor, "on your boy's accustoming himself to cold baths."

"I don't have to insist," answered the worried father. "He'll be out skating before the ice is an eighth of an inch thick."—Washington Star.

Military Rats.
An old military dictionary tells us that rats were sometimes used in war for the purpose of firing powder magazines by means of lighted matches tied to their tails. We cannot offhand recall any historical instance of this, but presumably it did occur, seeing that Marshal Vauban laid down special rules for counteracting it. Anyhow, the dodge is as old as Samson, who, you may recall, used foxes in a similar way for a somewhat similar purpose.
As to the royal rat catcher, we may add that he had a special official livery. According to Pennant's "British Zoology," it consisted of a scarlet costume, embroidered with yellow worsted, in which were figures of mice destroying wheat sheaves. By the way, rats were not the only animals honored with a special catcher. Leicester, for instance, used to pay a yearly salary of £1 11s 6d to its municipal mole catcher.—London Standard.

How Would You Appreciate \$1518 in One Year on an Investment of \$325?

If it is possible to frame up an absolutely safe, sane and conservative investment, and at the same time give the investor big returns on his money, we have found it—read the following and judge for yourself.

No chance to lose, and you cannot help making a big profit. Here is our story:	6036 acres at \$50 per acre	\$301,800	SUBSCRIPTIONS TO PURCHASING SYNDICATE.
Last week a client of ours read our advertisement for lands for colonization purposes. He thought he had what we wanted and came to see us. He brought with him a description of 6036 acres. It reads as follows:	Subdivided into 20 and 40-acre tracts at \$100 per acre	\$603,600	
Situated in a level valley, 40 miles wide and 90 miles long, completely fenced, 640 acres under plow, 3500 in hay and 1896 acres virgin soil, completely equipped for irrigation, all main ditches completed and lateral ditches sufficient to irrigate every acre except the virgin land, and water can be put on every 40 of the virgin land for a cost not exceeding \$25 each 40. The owner has a perpetual and exclusive water right; sufficient supply of water to irrigate the entire 6036 acres, and a surplus sufficient to supply another tract equally as large.	Gross profit of.....	\$301,800	Will be received for syndicate units on basis of \$3,018, payable as follows:
The property is ready for subdivision.	Cost in commissions, etc., to market this land, not less than.....	\$150,000	
The proposition looked so good to us that we took a 30 days option at \$50 per acre, including water rights.	Making net profit of.....	\$151,800	With subscription.....\$ 325
OUR PROPOSITION.	This land can be purchased on the following terms:		
We propose to form a syndicate to buy this land, and immediately thereafter to put it on the market.	March 16, 1910.....	\$ 32,500	June 10, 1910..... 293
	June 10, 1910.....	29,300	Sept. 10, 1910..... 200
	Sept. 10, 1910.....	20,000	March 16, 1911..... 300

	March 16, 1918.....	10,000	Total.....\$3,018
	Total.....	\$301,800	

IT IS NOW PROPOSED

To organize a Purchasing Syndicate with capital stock of \$301,800. This capital stock to be represented by 100 units of the par value of \$3,018; that the Union Bank & Trust Co. shall have the management of the syndicate, cause the title of the property to be placed in the name of the Union Bank & Trust Company as trustee, and at once take the necessary steps to subdivide the land into tracts of 40 acres each; to sell the 40-acre tracts at \$4,000 each, payable \$800 down, \$800 in one year, \$800 in two years, \$800 in three years, and \$800 in four years.

We have no hesitancy in saying that unit holders will not be called upon to make any additional payments after the first one.

Our inquiries from the East after this class of land are such that we believe we can sell every acre of it during the year 1910; and, inasmuch as the proceeds from the sale of land will be applied on deferred payments due present owners, there is very little probability that the unit holders will ever be called on for anything but the \$325. Send in your subscriptions.

If you want to know what the Union Bank & Trust Company is doing in its Real Estate and Colonization Department, come and see us and we will show you.

Respectfully submitted,

UNION BANK & TRUST CO.
