Harlan

Mr. Editor you don't want to think, because you haven't heard from Harlan for some time, that there is nothing doing, for there is every minute. People have been very busy since the good weather came with their farming. They are all about through with their grain but no gardening done yet. The stock is about all turned on the range and is doing fine. Goat shearing is in full blast and some are about through. The goats are stepping high as the price of mohair runs up.

One of W. W. January's little boys was turning a feed chopper and got his hand caught in the cogs and lacerated it so badly they had to take him to Philomath to a doctor to have it properly dressed. Just a short time after they got back home another one of the boys got his arm broke. They are both getting along nicely now.

Mr. Davison is still lingering along and seems to be gaining a little.

Porter McClellan was called to Kansas City by the death of his father.

Mr. Barber has gone to Sioux City to see his mother. She is getting quite old and is very feeble. He expects to be gone about six weeks.

John Miller has bought property at the Summit and is moving there to live. We are very sorry to have Mr. Miller leave for he is a miller by name and a miller by trade, and has been a great benefit to this neighborhood. We all wish him success at what ever occupation he may pursue.

The Harlan base ball team has

organised again. They think with plenty of practise they can find a few scalps this summer their belts.

Upper Farm.

After a few weeks sojourn in our Valley, Henry Tinner left to resume his homestead life near Nortons.

The condition of Miss Ollie Johnson, who is suffering from an attack of inflammatory rheumatism, is not making rapid progress for betterment.

Otto Tangerman is spending a few days with his family at Siletz.

Otis.

Let us talk a little on the dairy question as that is what we must do in this coast country. It will pay better than any thing we can do and the first thing to do is to get something for your cows to eat, by getting some good grass started, and next get good cows. The out range will do a while in the Spring but it won't keep your cows up through the milking season. Two acres of kale will feed five or ten cows all fall and keep up the flow of milk and make it much richer and as we have said before good feed and good cows is what pays.

Holsteins seem so pay the best, but of course we can't all start with full bloods. But we can pick out our best cows and breed them up, kill off our scrub calves and raise good ones. There are thousands of fine-bred calves killed in Tillamook County every Spring. You can get a wagon load of them for one dollar a head. Anyone with a few scrub cows can have a fine herd of cows in from two to three years by feeding the calves a little milk in which is put a little oil meal and shorts, which will make them grow fat. There is no excuse for raising scrub cows now if you will go to a little bother at the right time. If you want fine calves you can get half breed holsteins of Jobe Foster, Fox Bros., L. Croven, Dave or R. Dunn or J. Hellenbrand, at Oretown and Meda, but all over Tillamook county good calves can be gotten for the price above mentioned. I don't want to lead the readers to think I am trying to sell calves for the Tillamook dairymen, but it is too bad to have good calves killed when we need them and can get them by going after them and paying for the hides on their backs. By going and
