Report comes from all parts of the county that the hay crop promises a heavy yield.

Now is the time to begin cleaning up for the big fair this coming September. Get your paint brush, the hoe and rake, and fix up that old fence and sidewalk. Let's not have our visitors at the fair say we have a dirty ill kept town.

The shell roads in the south end of the county have proven a success and more miles of the same will be built this season. All along the coast there are acres of these shells that make the finest and cheapest roads in the world and the sooner our people begin using them and building good roads the quicker each community and the whole county will develop. Good roads is the issue these days, and newcomers demand them.

The county rock crusher was started last Monday, crushing three car loads of rock. Wednesday three more carloads were received and crushed the following day. This rock is very hard and shows that the crusher is capable of doing its work. There is no better rock anywhere for road purposes than this the county is using and as there is an unlimited quantity at Pioneer the question of suitable rock is settled.
