River Survey Completed

Port Commission Busy, and will Rush Work as Rapidly as Possible.

Engineer Schiller, who has been surveying and making soundings of the Yaquina river and the harbor at Toledo for the Port of Toledo, has completed his labors. He has made a very comprehensive map, showing the depth of the river down as far as Oysterville.

The survey as just completed shows a much easier project to undertake than was expected by our people. The greater part of the work is from Toledo to the Boone place and to secure a depth of sixteen feet at mean high water contemplates the removal of approximately 85,000 cubic yards of earth. This will be removed by a system of jetties and by dredging.

Capt. J. S. Polhemus of the U. S. Corps of Army Engineers, was in Toledo yesterday and met with the port commission and examined their maps and other data. He expressed his opinion that the project is not only feasible, but is a much better and easier improvement made than he had thought it to be. He gave the commission much good advice as to the best methods for preparing the plans and doing the work.

Triplicate copies of the proposed improvement have been forwarded to the War Department through Major Morrow, the engineer in charge, at Portland, asking for authority to execute the project, and as soon as this permission is given, which is merely a routine matter and will only take a couple of week's time, it is the intention of the port commission to advertise for bids to do the work at once and to let the contract at an early date. Should the bids submitted not be satisfactory the commission will build a dredge of its own to do the work. It is their intention to push the work forward as rapidly as possible to secure a sixteen foot channel to the mouth of the river, as the present rapidly growing commerce urgently demands such channel.

The registration books for the primary election to be held on September 24, at which time county and state candidates will be nominated, are now open and legal voters may register at the county clerk's office in the court house. Register now and save delay and annoyance later.

The hay-making season is here. Now is the time for our farmers to make their selections of grasses for fair exhibits. Don't put this matter off, as our grains and grasses are most important products.

In this issue appears the announcement of Judge Charles H. Gardner as a candidate for county judge to succeed himself. The LEADER is pleased that the Judge has concluded to become a candidate. Since his appointment as Judge one year ago, to succeed Judge Swope, the county judge's
