James began construction this week on the building which is to house the plant and expects to be making cheese by the 15th of August. He will build the plant on his place, formerly the Wadsworth place, and will build a wharf out to deep water so the Wilhelmina can load the products with the greatest convenience.

The capacity of the factory to begin with will be 500 gallons daily, but by the addition of the necessary vats can be increased to 1000 gallons. Mr. James has hired an expert cheese maker from Portland who will have charge of the cheese making. He was a model child—the idol of the family, and a favorite among his neighbors and playmates. He was a great financier for one of his age. His savings amounted to one hundred dollars or more and was sufficient to pay the entire cost of his funeral.

How We Spent the Fourth

Toledo did not celebrate the Fourth, except at the Socialist picnic in Thompson's grove in the southeast part of town. Most of our people went to the different towns where celebrations were held. Quite a bunch went to Waldport to spend the day. C. G. North the liveryman sent two four horse teams down, among the passengers being, Mr. and Mrs. North, Mr. and Mrs. Robert Andross, Superintendent and Mrs. R. P. Goin, Mr. and Mrs. Carl Heath, Misses Annie Freeman, Hattie Gillette, Messrs. Chauncey Hawkins, C. K. Crosno, the Toledo baseball team and some others. This party left Toledo Monday morning at 4 o'clock, going by way of Newport and arriving at Waldport at 11 o'clock. Mr. and Mrs. J. F. Stewart and family also drove down. They started Sunday noon returning Tuesday. Everybody reports a fine time. The celebration was good and our folks were royally entertained by our neighbors at Waldport. The ball game in the afternoon resulted in a victory for the Toledo nine by a score of 23 to 4. The big dance in the evening was one of the features, the band furnished music during the day and evening. The steamer Truant, several launches and the train took a lot of people to Newport during the day. The steamer made trips every few hours. Many drove by team. The day was an ideal one, not raining as is usual on the Fourth. The program was carried out at the Resort city as well as it could possibly be and the large crowd was entertained. In the tug of war between Newport and Toledo the latter was victorious after one of the hardest contests of the kind on record. Several boat races, horse races and other races and sports were had. The fire works out on the bay made a beautiful spectacle. The band played during the day. At night two dances were held, one at the Opera House and one at the Casino and large crowds attended.

New Train Schedule.

Toledo is now enjoying one of the best train services that was ever given this county, consisting of four passenger trains and one freight train daily. The passenger trains run on the following schedule:

No. 1 arrives at Toledo from Yaquina 7:44 a. m.; No. 8 arrives Toledo from Albany 11:54 a. m.; No. 7 arrives Toledo from Yaquina 1:24 p. m.; No. 2 arrives Toledo from Albany 4:45 p. m. This service is appreciated by the people of Lincoln county as well as by the summer visitors. This new time card went into effect last Monday and will continue throughout the summer season.

The board of directors of the Lincoln County Fruit Growers' Union met in Toledo Wednesday to make arrangements for the handling of the apple crop this fall. Warehouses will be established at Eddyville, Elk City and Toledo to facilitate the handling and grading of the apples. The Union will purchase large quantities of boxes for their own use and will sell them also to fruit growers who are not members of the Union. The Union will pack and sell all the fruit raised by the members of the association, and it is probable that they will purchase the apples of growers who are not members, or handle it on commission. J. F. Stewart was engaged as business manager to attend to grading, packing, shipping and selling of this fruit. The Union will probably ship 25 carloads of apples during the fall.

C. G. North has leased five acres of land west of the Fir and Spruce mill which he will use as a wood yard for his slab wood. He has purchased the Crooks woodsaw and will build a large building for the storage of wood for winter. Toledo has long felt the need of a wood yard where dry wood sawed to stove-wood length, could be procured any time during the winter, and now this need is to be filled. Mr. North informs us that there will be no advance in the price of this wood, but that he will still sell it at \$1 per cord plus delivery charges.

The baseball game here last Sunday resulted in a victory for Elk City by a score of 8 to 7. During the first half of the game Toledo made five runs shutting the visitors out, but this was too good to last and during the latter part of the game Elk City made the necessary number of runs to make them victorious.
