S. K. Booth now has his new launch in commission. The hull which is one of the life boats that belonged to the illfated Marhofer is big and strong and makes a dandy launch. He has equipped it with a new ten h. p. engine. This new launch will greatly aid Mr. Booth in the handling of his ferry business.

Dr. M. J. Fanning of Philadelphia spoke to a large audience at the courthouse in this city last Wednesday evening on the subject of Prohibition. The Doctor is a good speaker and as he has been talking on this subject for the past forty years and has given over 16000 lectures on the subject has some interesting facts and figures, and he held the attention of the audience for about two hours. At the close of the lecture a collection was taken for the aid of the temperance committee of this state.

About a year ago the people of Ona organized a Grange. This Grange is known as Lincoln County Grange No. 395, and was the only Grange in the county. During the year the Grange has prospered exceedingly and now has forty members. They have built a two story Grange Hall, size 24x40 feet, hauling the lumber from Toledo and Waldport, and having to scow it across bays at either place. The Grange meets twice a month, at which meetings things pertaining to the farm and home are discussed and much useful knowledge learned in this way, also a social good time is had at these meetings. Last Saturday evening a dance was given under the management of the Grange, 90 people being present and a good time enjoyed by all. It is the intention of the Grange to get lecturers from OAC and like institutions to give talks at their meetings on subjects pertaining to agriculture. We think the people of Ona are to be commended upon their enterprise in starting this Grange and making it the success that they have.

A Resolution.

The following resolution was made at the last Special Session of the Commissioners' Court. As the subject of assessing and cruising of the timber is frequently being mentioned, we publish this resolution to show that some action is being taken in the matter:

Resolved, That it is the sense of the Court that our Assessor should in some way secure a more equal assessment of our timber interests; and he is hereby authorized to correspond with the different owners and call on them in person, as far as practical, and secure from them a cruise of their timber, believing that the time has come when our assessment of timber lands should be made upon the basis of a proper cruise of the timber.
