Good Roads Bills.

The Oregon Good Roads Association went to Salem Thursday, almost in a body, and presented before the Legislature several measures which were adopted by the Association. Among the bills to be urged is the substance of the following:

STATE AID

Section 1. There is hereby appropriated the sum of six hundred and eighty thousand dollars to be used as provided in this Act, one-half of which shall be available in the year 1911 and the remainder in the year 1912.

Sec. 2. Each county, as now organized in this state shall be entitled to receive ten thousand dollars of the money appropriated by Section one (1) of this Act for the year 1911, and ten thousand dollars for the year 1912, to be used in the construction of permanent roads in that county as provided in this Act.

Sec. 3. Whenever any county shall desire to accept the money as mentioned in Section two (2) of this Act it shall provide and make available as needed, a fund of twenty thousand dollars to be used with the five thousand dollars mentioned in Section two (2) for the construction of a permanent road in that county. After having so provided such fund the county court shall select the particular location of the road to be constructed and shall designate the place of beginning and definitely describe the location of the road, all of which shall be entered on the journal of the court. Such road shall begin at one of the principal market places in the county or shall connect with a permanent road leading to such place, and shall be so located as that when constructed, as herein provided, it will constitute one of the main traveled roads to the place from whence it starts.

Sec. 4. All roads constructed under the provisions of this Act shall be constructed by and under the exclusive direction and control of the State Highway Commissioner. Whenever the county court shall have complied with the requirements of Section three [3] of this Act it shall notify the State Highway Commissioner of that fact and at the same time shall render him assurance that it has or will procure when needed such machinery, tools and appliances as they may determine will be needed in the construction of such road, but no part of the fund of twenty thousand dollars mentioned in Section [3] of this Act shall be used for the purchase of machinery, tools or appliances or for any other purpose than the construction of such road. Necessary engineering and supervision work shall be deemed construction.

Sec. 5. All roads constructed under the provisions of this Act shall be constructed according to the best and most scientific methods, so as to make them as durable and permanent as possible, and no part of such road shall be constructed upon greater grade than seven percent except by direction of the State Highway Board.

Sec. 6. If any road, or any part thereof, constructed under the provisions of this Act shall be constructed by contract, specifications showing what is to be included in any such contract so as to enable any one of ordinary understanding in

After the preparation of such specifications notice inviting bids according to such specifications shall be printed for at least two weeks in two newspapers printed in the county, or if there is but one such paper then in it, and also by posting one copy of such notice at the courthouse door. All bids shall be publicly opened by the State Highway Commissioner at the office of the county judge, or at such other room in the court house as may be designated in the advertisement for bids, at such time as may be specified in such advertisement.
