JIM WARNER DEAD.

Jim Warner, the aged Indian who was shot last March at his home on the Siletz river, died last Wednesday morning of secondary hemorrhage.

Immediately after Warner's death Dr. Clausius, the Agency physician, held a post mortem examination and pronounced death by the above cause.

It will be remembered that on March 22nd Jim Warner and Loyal Chandler went from Siletz down the river to Warner's home. The two had been drinking heavily and the two probably quarreled and Chandler is said to have shot Warner with a revolver, the bullet striking the Indian in the head but did not kill him. Chandler was arrested and brought to Toledo and later was charged with assault with a dangerous weapon. He was tried in Justice Anderson's court and was fined \$20 and costs.

On Warner's death a coroner's inquest was held, Coroner Carter returning from the scene last evening. Chandler will undoubtedly be taken in charge and probably be charged with murder. The Coroner's Jury rendered the following verdict:

We, the jury empaneled to render a verdict in the case of James Warner, deceased, find that deceased, James Warner, died from cerebral hemorrhage secondary in nature, but due to the primary injury, said injury caused from a gunshot wound inflicted by a revolver in the hands of Loyal Chandler, March 22, 1911.

**No Man is Stronger
Than His Stomach**

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.
