The south end will send a good crowd to the County Fair in August. It is hoped the County Court will be generous with so worthy an undertaking as the placing of our products before the public. What is good for other counties surely ought to be good for us and there are no taxpayers in this part of the county who would be so little as to object to an appropriation of the county funds for this purpose.

And by the way, did it ever strike you how slow we are, how we overlook the opportunities at our door? We of Lincoln county with the best of nature's gifts, the finest dairy land in the world, not one creamery and but four or five cheese factories, as against forty-two cheese factories in Tillamook county, with an annual output of over half a million dollars for cheese and as much more from associate industries. Get together in every little community, make up your minds to do it and get at it. We were green here but we sent outside, had a cheese man come in and tell us all about it, paid his expenses and are glad of it. Call on us, we will help you.
