Newport

The tug Ruscoe is still lying at the dock waiting for the bar to calm down so she can tow the sailing schooner Coquille, (now lying fully loaded with supplies for the railroad contractors at Siuslaw) to Mapeton where the freight will be unloaded.

The late storm of rain and wind that lasted 8 hours did Newport no harm. The rain fall was about five inches. The Pacific coast is certainly favored because we were not damaged but little by the storm, while other sections of the country suffered great loss not only of lives but millions of property was destroyed, as well as the great distress and suffering it caused the people. We ought to be thankful.

An ordinance was passed at the last meeting of the council making it a fine of from \$1 to \$10, and a jail sentence of from one to five days, for anyone to spit or blow their proboscis on any sidewalk in Newport. This is considered a very important sanitary measure especially for a resort city, where everyone should be clean and sanitary.

M. S. Ayers and family have come from British Columbia to make their home at Newport. He will probably buy one half interest in the Lollipop and the scows from Captain Morse. If the trade is consummated Mr. Ayers will do a general passenger and towing business on the bay.

James Derrick, M. Wygant and B. F. Beasley are now engaged in surveying and locating the wagon road from Newport to Siletz bay. The country through which the road will run is exceedingly rough and it will take at least a month to locate the road. It took one week to get to the Monterey hotel, a distance of two miles. This route along the coast is crossed by deep gorges and canyons and the country is covered with salal brush, logs and heavy timber, and it will take at least \$3000, per mile to build the road. It may be well to swamp and locate the road now but it will doubtless not be built for fifteen or twenty years yet. Taxpayers are getting tired of the high taxes when such little results are obtained. The county three years ago was out of debt but since that time a debt of \$150,000 has been created not withstanding within that time taxes have been collected amounting to nearly half a million dollars. So it can easily be seen that the county must go slow in expenditures or we will become bankrupt. I understand county warrants are discounted five per cent and the banks will not take them at all. I am sure the roads of the county have never been so bad as this winter. The road from here to Toledo is almost impassable for wagons and teams and a man going over them on foot will mire down. The Siletz road is in no better condition.

The Siletz Cheese Factory

A meeting of the stock holders of the Siletz Valley Cheese Co., inc., was held at Siletz March 28th at which time the old board of directors consisting of A. C. Crawford, W. S. Hall, Ralph Hamar, James Franks and C. S. Davis was re-elected. The directors elected W. S. Hall, president; A. C. Crawford, vice president, and C. S. Davis, secretary-treasurer. The secretary-treasurer's report showed a very healthy financial condition and in view of the fact that our factory just finished its first year, every stockholder felt more than satisfied with the results.

The factory, from May 15, 1912, to October 14, 1912, handled 216,514 pounds of milk and manufactured 21,819 pounds of cheese.

The most gratifying feature of our business has been the excellence of our product. We shipped our first consignment to Portland, where it immediately created a good impression. Within the past week we have had to refuse numerous orders as our stock is entirely sold out. One inquiry was from Seattle. The writer had seen and sampled our cheese in Portland and wanted one hundred cases immediately. We had nothing to offer. We had to close down early last Fall, the roads being in such miserable condition it was impossible to haul milk to the factory.

This office receives at least one communication a week from writers who fail to sign his or her name. Last week we received one from Eddyville and a few days ago another from Yaquina. The Leader is always ready to publish articles from anyone, which we think will be of interest or educational to the readers, providing they are not too lengthy, but it is an iron clad rule with this as well as all other newspapers that all articles for publication be signed by the writer. The name will never be signed to the article when published if requested not to do so, but for many reasons the newspaper must always have the name of the writer, otherwise it is a waste of time to send unsigned articles to any newspaper. The articles referred to above are good and we would very much like to publish both of them, but we cannot for the reason given. Should the names be supplied we will cheerfully publish them.

N. L. Grant of Big Elk was in the city on business Wednesday.

O. R. Hollingsworth, the furniture man, is offering \$10 for 1909 Lincoln pennies.

Frank McCormack and Johnny McGee of the C. & E. Bridge department were in the city yesterday.

John Heikkila of Upper Farm was a county seat visitor yesterday. Mr. Heikkila had just sold one of the finest driving horses in the county to Newport parties.

President C. S. Davis of the Lincoln County Fair Association was over from Siletz Tuesday, returning Wednesday. Fair and cheese factory was his business in town.
