Why He was Glad.

The man with the long beard stood pensively at the curbing gazing at the passing traffic in the street. "I hall with delight the advent of the automobile," he muttered aloud, "for no longer need I fear crossing the street lest some hungry horse mistake me for a walking bale of hay."

CONSTIPATION

Munyon's Paw-Paw Pills

are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods, they do not scour; they do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. Price 25 cents. All Druggists.

Story Jones Tells.

Some years ago in a western mining town a man was found dead in his hotel room hanged to a bedpost by his suspenders. The jury of miners brought in the following verdict at the coroner's inquest: "Deceased came to his death by coming home full and mistaking himself for his pants."

To improve shiny serge or cloth lay it flat on the table and pass a piece of fine sandpaper very gently over the shiny part. The sandpaper will roughen up the nap again, but be careful not to rub too hard, as it may wear a hole in your material.

Cough, Cold Sore Throat

Sloan's Liniment gives quick relief for cough, cold, hoarseness, sore throat, croup, asthma, hay fever and bronchitis.

HERE'S PROOF.

Mr. ALBERT W. PRICE, of Fredonia, Kan., writes: "We use Sloan's Liniment in the family and find it an excellent relief for colds and hay fever attacks. It stops coughing and sneezing almost instantly."

SLOAN'S LINIMENT

RELIEVED SORE THROAT.

Mrs. L. BREWER, of Modesto, Fla., writes: "I bought one bottle of your Liniment and it did me all the good in the world. My throat was very sore, and it cured me of my trouble."

GOOD FOR COLD AND CROUP.

Mrs. W. H. STRANGE, 3721 Elmwood Avenue, Chicago, Ill., writes: "A little boy next door had croup. I gave the mother Sloan's Liniment to try. She gave him three drops on sugar before going to bed, and he got up without the croup in the morning."

DERRICK FOR HANDLING HOGS

"Gallows" and Lift Shown in Illustration Handy in Caring for Large Unwieldy Animals.

Having to help a neighbor butcher with very large hogs that we knew would be very unwieldy to handle, we figured out and built a "gallows" and lift, as shown herewith. It worked so very well I thought it might help others, writes E. G. Kinsell, in the Farm and Home.

Get a good straight post about 14 feet long and 5 to 6 inches in diameter at small end. Band this end and bore a three-quarter-inch hole in center about eight inches deep to receive swivel bolt c. Five feet from top mortise holes at right angles to receive cross bars 2 by 3 inches, on which hogs are to hang. Into these mortises insert arms four feet long and bolt stay irons, as shown. Now plant post three feet in ground.

Get a good stout sweep or pole of white oak or locust about 3 1/2 or 4 inches in diameter at butt end and in this end put an eye bolt with good

Derrick for Handling Hogs.

strong chain of about six feet with a small hook in end, to hook on to gambrel sticks, as shown in cut. Bore a hole to receive 5-16 inch bolt about 3 1/2 feet from butt end of sweep and fasten swivel bolt c to the sweep. At small end of sweep fasten a rather large ring by means of a small staple, and to this tie a piece of rope long enough to allow small end of sweep to rise well up in air when fastening chain to the gambrel stick or the hog.

Now place your sweep on top of post with swivel bolt in position and you are ready to hook fast to a 500-pound hog. Lift him on to the table, shorten your chain again, lift him over the scalding tub and dangle him up and down as much as you choose. Having hoisted the hog clear of scalding table you can swing him around to hang on any arm.

Cut Bone for Poultry.

Green cut bone is an excellent egg producer when fed judiciously, says the Poultry World. The supply should be secured fresh and it should be fed as soon as cut. Would not advise feeding it every day, as the birds are liable to overeat and a sure case of diarrhoea will be the result. Three times a week is often enough to supply this form of feed. I prefer to mix it with bran or middlings and allow the birds all they will eat in 15 minutes. If you prefer, it may be fed clear or it may be mixed with the mash. If fed mixed with other foods as above, the birds will not fight for their share.

Trap for English Sparrows.

Agents of the department of agriculture have been experimenting for the past three months with devices to trap English sparrows. It has been determined upon that these birds are harmful to the fruit trees in the spring, eating as they do into the buds and destroying the cores.

Manuring Garden in Winter.

Any time during the winter or early spring the garden may be manured. The spring rains will dissolve richness from fertilizers and carry them down into the soil for feeding the plants next summer. If the garden is manured in winter fresh manure may be used with safety, as it will have lost much of the heat by planting time.

Rules For Measuring Corn.

There are many rules for measuring corn. Inquiries conducted by the Missouri State Board of Agriculture show the following in common use: Sixteen cubic feet of corn in the shock (or extra well settled 15 feet) make a barrel. The number of cubic feet multiplied by the decimal .4 gives the bushels. Multiply together the length, width and height of the pen or crib, in inches, and divide by 4,200 for old corn or 4,300 for new corn, to get bushels. Where it can be done corn should be weighed rather than measured.

Getting Seed Grain Early.

Do not wait until spring to clean and grade your seed grain. Do it now, while you have plenty of grain at hand from which to select. The best twenty-five bushels of grain out of a hundred bushels are worth much more for seed than is the grain that can be cleaned from a much smaller amount in the spring. The cost of thus cleaning and grading the grain is very slight, and it enables one to have heavy, plump seed grain at very little outlay.

R. L. S. IN THE ADIRONDACKS

Stevenson, While Fighting Off Disease There, Seemed Indifferent to the Laws of Health.

Robert Louis Stevenson, for so wise a man, seems to have been singularly unaware of, or indifferent to, the laws of health, but that, too, may have been part of his wisdom. He spent the winter of 1887 in the Adirondacks struggling against the disease which was not to subdue him for seven years. He lived in a little cottage that was much overheated and from which all ventilation was carefully excluded. The smoke of his incessant cigarettes obscured the atmosphere and perhaps helped to drive away the visitors who came to gaze upon him as one gazes at a lion in a den. Fashionable callers were specially unwelcome and Stevenson once remarked, according to an account in the Medical Record, that "it isn't the great unwashed which I'd read, but the great washed." But whoever else was unwelcome there was always a greeting for Richard Mansfield. It is an impressive, almost a tremendous picture, that of the clouded room fitfully lit by the flames of the log fire and Stevenson huddled close to the warmth while Mansfield at the other end of the room gave his weird impersonation of Dr. Jekyll and Mr. Hyde. It must have been like God looking upon his handiwork and finding it good.

GIRL SUFFERED TERRIBLY

At Regular Intervals—Says Lydia E. Pinkham's Vegetable Compound completely cured her.

Adrian, Texas.—"I take pleasure in adding my testimonial to the great list and hope that it will be of interest to suffering women. For four years I suffered untold agonies at regular intervals. Such pains and cramps, severe chills and sickness at stomach, then finally hemorrhages until I would be nearly blind. I had five doctors and none of them could do more than relieve me for a time.

"I saw your advertisement in a paper and decided to try Lydia E. Pinkham's Vegetable Compound. I took seven boxes of it and used two bottles of the Sanative Wash, and I am completely cured of my trouble. When I began taking the Compound I only weighed ninety-six pounds and now I weigh one hundred and twenty-six pounds. If anyone wishes to address me in person I will cheerfully answer all letters, as I cannot speak too highly of the Pinkham remedies."—Miss JESSIE MARSH, Adrian, Texas.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

Word Much Misused.

"Fix" is one of the words that we Americans habitually misuse, but it is not often that the mistake leads to such absurdity as it does in the label of a certain stain-remover now on the market. "It will fix the stain," says the notice. Since "fix" means to make permanent, the manufacturers of the stain-remover have not said quite what they intended to say.—Youth's Companion.

Gigantic Bog Oak Tree.

Twenty tons of bog oak were recently unearthed at Llanwrtyd Wells, Wales. It measures 48 feet long with a diameter of 2 feet 9 inches. This giant oak tree is by far the largest which has been found within memory on the peat land near Llanwrtyd. Portions of it have been exposed for some years, but no one thought it of such dimensions and no interest was taken in it until a few years ago.

MR. A. H. POWELL, Manufacturing Chemist, Spokane, Wash.

Dear Sir: Having suffered with stomach trouble for a number of years, and tried a great many doctors and a great many proprietary preparations but obtained no permanent relief until I took your stomach remedy, and am pleased to say that I have no further stomach trouble and can eat anything I desire and suffer no bad results. I am a professional nurse, having nursed for 30 years, some of the time for Dr. Holt of New York City, the greatest specialist on children's diseases; also had charge of Wardner Hospital at Wardner, Idaho, for two years. Since learning by my own experience the great benefit from the use of Powell's Stomach Remedy, I have recommended it to a great many for children and adults and in each case it has been remarkable for the good it has done. I cheerfully recommend it to anyone suffering with any kind of stomach trouble, as I am anxious to aid anyone suffering from sickness of any kind, and I have never known of medicine to compare with Powell's Stomach Remedy for all kinds of stomach trouble. Yours truly,

ELSIE STEINER.
