A Title as Long as a Preface.
 Many old pamphlets are distinguished by titles as long as prefaces. The author of one, published in 1646, evidently did not share in the modern editor's enthusiasm for short title headings, for this is the name under which his publication was ushered into the world: "Scottlands publick Acknowledgement of Gods Just Judgment upon their Nation for their Frequent Breach of Faith, Leagues, and Solemn Oathes made to their Neighbours of England in former ages, to gratifie their Treachrous Confederates of France."—London Globe.

Rome's Triumphant Crown.
 The triumphal crown of Rome was made of laurel leaves and was given to the general who achieved a great victory over an enemy. He entered the city not by a gate, but over a portion of the wall which was thrown down to afford a passage. At his funeral his laurel crown was placed in his bier and buried with the body.

Bored.
 We often boast that we are never bored, but yet we are so conceited that we do not perceive how often we bore others.—La Rochefoucauld.

Great thoughts reduced to practice become great acts.—Haslett.

Steel Lined SHOT SHELLS

The Remington Cube forges the steel lining

Will Boost Your Shooting Average

TRY the Speed Shells this season; they get the load to your bird quicker than any other shells you ever used. You take a shorter lead—angles bother you less—you get more birds.

The speed of these shells is due to the steel lining—to the way it compresses the smokeless powder and keeps all the punch of the explosion right behind the shot, where it belongs.

Get Remington-UMC Steel Lined Speed Shells of the liveat dealer in your section. See that the Red Ball mark is on every box of shells and metallics you buy.
