The Ahwaneda came in Monday with 85 tons of freight, 45 tons for Newport, 30 tons for Waldport, 1 ton for Siletz and nine tons for Toledo. This little vessel is doing a fine business and this freighting by water is a great saving to the consumer.

The beautiful little gasoline launch Eola came to Newport ten days ago from Portland. The vessel is owned by Ray King and was built at Salem by ex-mayor Rogers. It is here on a pleasure trip and the owner enjoys riding on the bay and going out over the bar. Mr. King and his party are delighted with Newport and its surroundings and believes it is a most favored place for a great resort because of the many attractions it has on both land and water.

clams that are so abundant here he has gained 15 pounds of avoirdupois.

Some 25 physicians of the Willamette valley took their vacations at Newport this year. Portland, Salem, Albany, Corvallis, Eugene and Roseburg was well represented at Newport this year. The Oregonian gave it more personals in its Sunday issues than any other resort, so did the Salem Journal, Albany Herald and other Valley papers. Newport has had bigger crowds during the month of August than ever before. The order has been good and the sanitary conditions satisfactory. No sickness of consequence has occurred and this is attributed to our splendid water.

Col. Moss with some Idaho capitalists who bought Idaho Point three years ago have returned to their homes at Payette after an outing of nearly two months. Mr. Moss says that next year ten families from Idaho will build cottages at the point and will spend the heated term here. He said the thermometer on August 21st and 23rd registered 104 at Payette. Entirely too hot for comfort. Mr. Moss said his company owns 70 acres on Idaho Point and they have no lots to sell except to some of their personal friends.

The season is now closing and the people are returning to their homes and others to the hop fields. Yet the Saturday train brought in 450 persons who spent the day strolling on the beach, picking up agates, bathing in the surf or nataorium and enjoying the cool bracing breezes of the seashore. The people are just beginning to realize that the winters are just as pleasant here as the Summer and many are taking advantage of this and stay over.

M. L. Hubb and family of Corvallis came to Newport with wagon and team by the way of Alsea, Five Rivers, Yachats, Ocean View and Waldport. He said this was one of the most interesting and delightful trips a person could take. The rivers abound with fish and the mountains with game. The country has plenty of good camping places and the water is pure and cold. The farmers can supply all the nice things to eat such as butter, eggs, rich milk and all kinds of vegetables and fruit. All along the road the scenery is grand and inspiring, deep gorges, towering mountains, great forests of timber spreading out in every direction. When the roads are made good as they will be in a few years this will be one of the favored routes to travel with automobiles. The road north to the mouth of the Siletz river is just as picturesque as that by way of the Yachats.
