Baseball.

The first game of the series between Newport and Siletz went to the latter. Their superior team work and knowledge of the game swept away the early lead of the Newport boys, who played a loose game in the field. Home runs by Daugherty and Bain were the features.

Siletz took the second game of the series by a score of 9-7. The features of the game were the pitching of Bain, who held the heavy hitting Indians to two hits in the seven innings that he worked. The Newport boys put up a game fight but could not overcome the early lead of their opponents. Hauser and Daugherty each secured a triple and Simpson a double.

Cattle Have No Diseases

Dr. Harry Nunn, deputy state veterinarian of McMinnville, was in attendance at the Fair Wednesday and tested the stock on exhibit, as to the presence of certain diseases prevalent among cattle. He stated that he found the stock here unusually healthy, with no indications of any diseases of a tubercular character.

The exhibit of stock this year was very light and it is thought the reason was because people were afraid to place their stock on exhibit, fearing they would be rejected by the state veterinarian. But it seems there is no need for any such fear as he informs us that the stock is unusually healthy here.

TELLING THE TRUTH.

It is not pleasant and profitable always to tell the truth in the columns of a newspaper. Men who tried this heretofore have come to grief. Only a few days ago the editor of a paper in Indiana grew tired of being called a liar, and announced that he would tell the truth in the future; and the next issue of his paper contained the following items:

John Bonin, the laziest merchant in town, made a trip to Belleville yesterday.

John Coyle, our groceryman, is doing a poor business. His store is dirty and dusty. How can he do much?

Rev. Styx preached last Sunday night on "Charity." The sermon was punk.

Dave Sonkey died at his home in this place. The doctor gave it out as heart failure. Whiskey killed him.

Married—Miss Sylvan Rhodes and James Conlin, last Saturday, at the Baptist parsonage. The bride is a very ordinary town girl, who don't know any more about cooking than a jack rabbit, and never helped her mother three days in her life. She is not a beauty by any means, and has a gait like a duck. The groom is an up-to-date loafer. He has been living off the old folks all his life and is not worth shucks. It will be a hard life.

The governor of our great state, a very ordinary man, and who was elected by accident, was here yesterday. He has very few friends here now. He promised some of the voters in this precinct a piece of pie in the event of his election but had forgotten all about it when the time to hand over the little office rolled around.

The Remington Cabs find the Autoloader always ready

REMINGTON UMC

AUTOLOADING SHOTGUNS

ANY way you look at it, the Autoloader is the highest development in modern shotgun design. It puts five loads at your disposal by merely pressing the trigger. It puts the recoil to useful work—to eject the empty and slip in the fresh shell. It saves the gunner's shoulder—rids his sport of annoyances—increases his shooting average. Your danger is that in your enthusiasm over the autoloading principle, you may forget to insist on getting the finest embodiment of that principle—the Remington Autoloading Shotgun.

The peculiar advantages of the Remington are too many to detail here. What you want to do is to get one of the Remington dealers in this section to demonstrate them to you on the gun itself.
