Cleans Blood Through Kidneys
A Most Important Function and One to be Carefully Guarded.

The purpose of the kidneys being to filter the blood the question of treating supposed kidney weakness should be considered carefully. Instead of drugs and alleged kidney stimulants the better plan is to purify the blood with an antidotal effect such as you get from S. S. S.
It should be remembered that the kidneys are made up of a fine net work of blood vessels, and it is to stimulate the functional activity of kidney tissue through this capillary net work that S. S. S. shows one of its most remarkable effects.
The medicinal value of the components of S. S. S. are relatively just as vital to healthy kidney action as the nutriment obtained from grain, meat, fats, sugars, or any other part of our daily food is to the natural reconstructive requirements of the tissues. And there is one component of S. S. S. which serves the active purpose of stimulating the cellular tissues of the kidneys to a healthy and judicious selection of its own essential nutriment. Thus, in cases of rheumatism, cystitis, chronic sore throat, huskiness of voice, bronchitis, asthma, and the myriad of other reflex indications of weak kidney action, first purify your blood with S. S. S. so it will enable the tissues to rebuild their cellular strength and regain their normal health.
You can get S. S. S. at any drug store, but take no other so-called blood purifier. S. S. S. is purely a botanical product, and you will make a great mistake to have some enthusiast palm off a mercury, arsenic or iodide of potash preparation that may do you irreparable harm.
S. S. S. is prepared by The Swift Specific Co., 160 Swift Bldg., Atlanta, Ga., and if you have any deep-seated or obstinate blood trouble write to their Medical Department for free advice. It will be worth your while to do so.

Willing to Be Heir.
Outside it was snowing hard and the teacher considered it her duty to warn her charges.
"Boys and girls should be very careful to avoid colds at this time," she said solemnly. "I had a darling little brother, only 7 years old. One day he went out in the snow with his new sled and caught cold. Pneumonia set in and in three days he was dead."
A hush fell upon the schoolroom, then a youngster in the back row stood up and asked:
"Where's his sled?"—Truth Seeker.

Quite Naturally.
A funny mistake occurred lately in printing labels for a meat-preserving company. The printer had been in the habit of labeling tins of beef or mutton, as the case might be, with the words "without bone" prominently displayed. The company, having added kidney soup to its list, the new article was duly ticketed as "Kidney Soup—Without Bone."

To Grow Hair on A Bald Head

BY A SPECIALIST.
Thousands of people suffer from baldness and falling hair who, having tried nearly every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist; Bay Rum, 6 ounces; Lavona de Compose, 2 ounces; Menthol Crystals, one-half drachm. If you wish it perfumed, add half to one tea-spoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics.

Ways of the Philippine Head Hunters.

Dean C. Worcester, formerly of the University of Michigan, and now secretary of the Philippine Islands, gives some interesting particulars about the head hunters of the island of Luzon in a recent issue of The Geographical Magazine. He states that six or seven of the tribes found in the northern part of the island have been addicted to head-hunting. "When I first entered the country of the Ifugaos," he continues, "I found many of the houses ornamented with fresh human skulls, and I saw many victims of head-hunting raids."
"When an Ifugaos war party returns with a head it executes a ceremonial march or dance—one hardly knows which to call it—which defies successful description. The men have their split raincoats on their backs. On the insides of these raincoats are pockets, which form convenient receptacles for gory trophies."
"I have seen a house with a tasteful ornament frieze of alternating carabao skulls and human skulls extending around it at the height of the floor. I have seen others with great open-work baskets of skulls hanging under the eaves."
"A man who loses his head is considered to have treated his family and friends somewhat shabbily. He is not buried as an ordinary person would be, but is carried to a resting place on some hillside far from his native village. A tunnel is excavated in the earth, his body is carried into it and placed in a sitting position and the tunnel is then filled. A lance is thrust into the ground over the grave to show that he was killed in war, and an antio image rudely fashioned out of grass is left to watch over his last resting-place."

To Keep Cut Flowers Fresh.
An interested reader writes that, whether the stems of flowers be either hard or soft, they may be kept fresh longer if the stems are cut off about a quarter of an inch after placing them in water. Use a sharp pair of scissors, and be sure that the cut end is not exposed to the air at all.

"I have a very clever new novel here," said Jones, the lady-like reader, to the publisher.
"Humph! will it sell, though? That's the question. Anything in it about 'abysmal brutes'?"
"Jammed full of them."
"Is it full of 'primal passion'?"
"Chocked full."
"Does the cave man in the book woo his lady-love with a club?"
"Sure, Mike."
"Rush it to the printer, Jones. We've lassoed another best seller."
