Fine Remedy
For Eczema

Also for Salt Rheum, Tet-ter, Psoriasis, Lupus, and All Skin Afflictions.

All skin troubles should be attacked from within by giving the blood circulation a good daily bath. This is accomplished with S. S. S., the best known and most highly recommended blood purifier ever discovered. Its action is very rapid. Its vegetable nature is such that it naturally goes right into the blood, saturates the entire circulation, bathes the tissues with an influence that enables the skin to heal quickly. The action of S. S. S. is that of an antidote, and this fact has been demonstrated time and time again in the most severe forms of weeping eczema.

Its influence in the tissues where the tiny arteries transfer the red blood for the worn out blood to the veins is quite remarkable and goes on constantly with every tick of the clock—the beat of the heart.

And new skin is thus caused to form while the germs of irritating influences that cause eczema are scattered and their harmful nature entirely suspended.

S. S. S. has a wonderful tonic influence in the blood because it contains no "dope," is not a physic, is entirely free of any mineral drugs or any other drugs except the remarkable medicinal effect of the pure vegetable products of which it is made.

Few people realize how harmful are many of the strong, crude ointments that used to be in favor before they learned that S. S. S. is safe, speedy and sure. Ask at any drug store for a bottle of S. S. S. Give it a good trial and you will soon see a decided improvement in any form of skin trouble. Write to The Swift Specific Co., 160 Swift Bldg., Atlanta, Ga., for special free advice on eczema and any other form of skin or blood trouble.

Do not allow anyone to palm off a cheap substitute for S. S. S. You will be grievously disappointed if you do. There is nothing else "just as good" as S. S. S.

LARGE CITIES GROW FASTER
Per Cent of Rural Population Rapidly Diminishing.

In 1880 about 71 per cent of the population of the United States was in the country and 29 per cent in the cities, while in 1910 only 54 per cent was rural and 46 per cent was urban. These figures indicate an alarming tendency towards the depletion of country towns and rural communities, and the congestion of trade and population in the larger cities. It should also be borne in mind that during this period the standard of living has been steadily on the up-grade and that the per capita consumption has increased considerably. This condition undoubtedly explains in large measure the high cost of living problem which is becoming a serious matter with the masses of the people. But the commercial side of this problem is not its most serious aspect. It is evident that if this movement continues it must seriously undermine the health and strength of the American people.

This movement of population into the larger cities has been at the expense of both the rural sections and the small towns. If we can bring about a realization of the advantages of the medium-sized towns and a reversal of this movement, not only these towns but rural districts as well will be benefited, for the prosperity and well-being of the country sections is more closely allied with its home towns than with the distant cities.

BEAUTIFY YOUR HAIR

with simple, safe, home-made tonic. Get from any druggist 6 ounces of Bay Rum, 2 ounces Lavona de Composee and 1/2 drachm Menthol Crystals. If you like, add 1 drachm of your favorite perfume. Mix thoroughly; apply night and morning with fingers; for dandruff and falling hair. Contains no dye or coloring matter, but one ingredient, according to authorities, actually forces into renewed action the dormant pigment-forming cells and thereby restores prematurely gray hair to its natural color. This same ingredient is also a powerful stimulant to the growth of new hair.

Followed Suit.

It was at a birthday banquet given the other evening by a prominent Paris millionaire banker. The fun was at its height when a lady cried out: "My pearl necklace has disappeared!"

Uproar followed, while every one suggested plans for its recovery. Then the banker had a brilliant idea. "We will place a salver in the middle of the room," he said, "lights will be extinguished, and the perpetrator of this silly joke will have an opportunity of restoring the missing necklace."

This was done. Then the lights were turned on again and there was more consternation. The salver had disappeared.

"Continuous History."

For more than 2000 years Salonica has had a continuous history, though the city has not always been known by its present name. It was founded and named by Alexander the Great in the year of 315 B. C. It is said that Philip, of Macedon, named his daughter Thessalonica because of the day he heard of her birth he won a victory over the Thessalians. Thus the victory of Philip and the name of his daughter, the half-sister of the conqueror of the world are all embalmed in the name of the city.

"I tell you I won't."
"Well, don't. I wanted the loan of your fountain pen to make out a check for what I owe you. But if you are in no hurry, I'm not."

A New Line.

"Why has your daughter dropped her hospital work so soon?"
"She found she'd have to nurse poor patients for two years before they entrusted her with any millionaires. So she's going on the stage in a musical comedy."
