HAMEL BROS.
Watchmakers and Jewelers

Hawkins Bld. Toledo, Or.

Attorney Gwynn came up from Newport Wednesday.

C. P. Merrill, engineer at the mill, left Wednesday morning for a trip to Portland.

A short time ago the Oregon Agricultural College announced the fact that a cross-bred hen had turned out 291 eggs in her first twelve months of usefulness, and stated that no other egg machine had ever before reached that rate of speed. Now, the college announces, the original best-hen-in-the-world will have to take a back seat, as another biddy at the same institution has succeeded in laying 303 eggs in exactly one year. This new hen, like the former record breaker, is a cross between the Barred Rocks and the White Leg-horns.
