

### Thank You

With this issue we are all started upon another year, and at this time we desire to thank our friends and patrons for their generous support, and especially our many faithful correspondents who have so nicely covered the news of their respective localities, during the past year. Despite the reported money stringencies in other sections we find that during this past year we have lost but few of our old subscribers and have added more new ones than in any similar period. While we like to receive new subscriptions and have our list grow, still it is more gratifying to us to have our old subscribers renew their subscriptions as it shows us that they appreciate our efforts to give them a good "live newspaper." Our continued growth has not been stimulated by prizes or contests of any kind, neither have we mistated facts with the idea of gaining subscriptions. The Leader has a reputation for fairness and it will be our earnest endeavor to live up to this reputation at all times. We thank you, and wish you a happy, prosperous New Year.

### Salado

Old Man Winter seems to be holed up yet. The buds and grass are growing well for this time of the year. While it is raining as usual there has been no snow or hard freezing.

The dance and Christmas tree in the Riverside district was a very pleasant affair. Those going from here were Mr. and Mrs. M. C. Hodges, Mr. and Mrs. Roy Thomas, Mrs. Kullander, John and Roy Kullander P. A. Hodges and Mr. and Mrs. Wm. Bristlen. All report a fine time and bad roads.

Mrs. Mary Hodges and little children are visiting her parents, Mr. and Mrs. Frary, at Toledo.

Our telephone man seems to have woken up, or at least the lines are alive, with the exception of a few old phones that are out of order. Those stealing and cutting the phone wire had best take warning, for such is a penitentiary offense.

Our roads are getting bad in some places again, but the road in district 10, where it is wide enough and was dragged, is in fine shape. The split log drag is beyond a doubt the best for dirt roads if handled right. The road that is 18 or 20 feet wide and high in the center is dry and the rock road on the Bear creek grade has cut through and is almost as bad as ever. This road is only eight feet wide and gives only one wheel track. The money it cost to make the rock road would have built three times the amount of dirt road 18 feet wide, which could then be rocked to some advantage. A good dirt road in the proper shape is the best until we get all our roads wide enough to do the rock work right.
